Secular Theology:

Secular Theology Clayton Crockett, 2021-12-24 Secular Theology brings together new writings by some of America's most influential theological and religious thinkers on the viability of secular theology. Critically assessing Radical Orthodoxy and putting American radical theology in context, it provides new resources for philosophical theology. Themes covered include postmodern theology, ethics, psychoanalysis, the death of God, and medieval theology. *Christian Theology and the Secular University* Paul A. Macdonald, Jr., 2017-02-24 If the secular university by definition is non-sectarian or non-denominational, then how can it accommodate a discipline like Christian theology? Doesn't the traditional goal of theological study, which is to attain knowledge of the divine, fundamentally conflict with the main goal of secular academic study, which is to attain knowledge about ourselves and the world in which we live? So why should theology be admitted or even care about being admitted into secular academic life? And even if theology were admitted, what contribution to secular academic life could it make? Working from a Christian philosophical and theological perspective but also engaging a wide range of theologians, philosophers, and religious studies scholars, *Christian Theology and the Secular University* takes on these questions, arguing that Christian theology does belong in the secular university because it provides distinct resources that the secular university needs if it is going to fulfill what should be its main epistemic and educative ends. This book offers a fresh and unique perspective to scholars working in the disciplines of theology, philosophy, and religious studies, and to those in other academic disciplines who are interested in thinking critically and creatively about the place and nature of theological study within the secular university. *Christian Theology and the Secular University* Paul A. Distinguished scholar Amos Funkenstein explores the metaphysical foundations of modern science and shows how by the 1600s theological and scientific thinking had become almost one. Major figures like Descartes, Leibniz, Newton and others developed an unprecedented secular theology whose debt to medieval and scholastic thought shaped the trajectory of the scientific revolution. The book ends with Funkenstein's influential analysis of the seventeenth century's unprecedented fusion of scientific and religious language. Featuring a new foreword, *Theology and the Scientific Imagination* is a pathbreaking and classic work that remains a fundamental resource for historians and philosophers of science.

The Rebellious No Noëlle Vahanian, 2014-03-03 This book aims to renew theological thinking by extending and radicalizing an iconoclastic and existentialist mode of thought. It proposes a theology whose point of departure assumes and accepts the critiques of religion launched by Nietzsche, Freud, Marx and Feuerbach but nevertheless takes theological desire seriously as a rebellious force working within but against an anthropomorphic phallogocentric worldview. As a theology of language it does not claim any privileged access to some transcendent divine essence or ground of Being. On the contrary, for Noëlle Vahanian, theology is a strictly secular discourse like any other discourse but aware of its limitations and wary of great promises its own included. Its faith is that this secular theological desire can be a force against the constitutive indifference of thought and it is a meditative act of rebellion. Aphoristic instead of argumentative, this book offers an original and constructive engagement with such seminal issues as indifference, belief, madness and love.

The Coloniality of the Secular Yountae An, 2023-12-15 In *The Coloniality of the Secular*, An Yountae investigates the collusive ties between the modern concepts of the secular, religion, race and coloniality in the Americas. Drawing on the work of Édouard Glissant, Frantz Fanon, Aimé Césaire, Sylvia Wynter and Enrique Dussel, An maps the intersections of revolutionary non-Western thought with religious ideas to show how decoloniality redefines the sacred as an integral part of its liberation vision. He examines these thinkers' rejection of colonial religions and interrogates the narrow conception of religion that confines it within colonial power structures. An explores decoloniality's conception of the sacred in relation to revolutionary violence, gender creolization and racial phenomenology, demonstrating its potential for reshaping religious paradigms. Pointing out that the secular has been pivotal to regulating racial hierarchies under colonialism, he advocates for a broader understanding of religion that captures the fundamental ideas that drive decolonial thinking. By examining how decolonial theory incorporates the sacred into its vision of liberation, An invites readers to rethink the transformative power of decoloniality and religion to build a hopeful future.

Spirit and the Obligation of Social Flesh Sharon V. Betcher, 2013-11-11 Drawing on philosophical reflection, spiritual and religious values and somatic practice, *Spirit and the Obligation of Social Flesh* offers guidance for moving amidst the affective dynamics that animate the streets of the global cities now amassing around our planet. Here, theology turns decidedly secular. In urban medieval Europe, seculars were uncloistered persons who carried their spiritual passion and sense of an obligated life into daily circumambulations of the city. Seculars lived in the city on behalf of the city but contrary to the new profit economy of the

time with a different locus of value spirit Betcher argues that for seculars today the possibility of a devoted life the practice of felicity in history still remains Spirit now names a necessary prosthesis a locus for regenerating the elemental commons of our interdependent flesh and thus for cultivating spacious and fearless empathy forbearance and generosity Her theological poetics though based in Christianity are frequently in conversation with other religions resident in our postcolonial cities

the period between the apostolic age and Constantine the problem of the relation between Christianity and secular society and culture was suppressed for the faithful Christians saw themselves as sharply distinct in if not separate from the society of their non Christian fellows Markus argues that when the autonomy of the secular realm came under threat in the Christianised Roman Empire after Constantine Christians were forced to confront the problem of adjusting themselves to the culture and society of the new regime Markus identifies Augustine of Hippo as the outstanding critic of the ideology of a Christian empire that had developed by the end of the fourth century and in the time of the Theodosian emperors and as the principal defender of a place for the secular within a Christian interpretation of the world and of history Markus traces the eclipse of this idea at the end of antiquity and during the Christian Middle Ages concluding with its rehabilitation by Pope John XXIII and the second Vatican Council Of interest to scholars of religion theology and patristics Markus s genealogy of an authentic Christian concept of the secular is sure to generate widespread discussion

Radical Political Theology

Clayton Crockett,2013-10-01 In the 1960s the strict opposition between the religious and the secular began to break down blurring the distinction between political philosophy and political theology This collapse contributed to the decline of modern liberalism which supported a neutral value free space for capitalism It also deeply unsettled political religious and philosophical realms forced to confront the conceptual stakes of a return to religion Gamely intervening in a contest that defies simple resolutions Clayton Crockett conceives of the postmodern convergence of the secular and the religious as a basis for emancipatory political thought Engaging themes of sovereignty democracy potentiality law and event from a religious and political point of view Crockett articulates a theological vision that responds to our contemporary world and its theo political realities Specifically he claims we should think about God and the state in terms of potentiality rather than sovereign power Deploying new concepts such as Slavoj i ek s idea of parallax and Catherine Malabou s notion of plasticity his argument engages with debates over the nature and status of religion ideology and messianism Tangling with the work of Derrida Deleuze Spinoza Antonio Negri Giorgio Agamben Alain Badiou John D Caputo and Catherine Keller Crockett concludes with a reconsideration of democracy as a form of political thought and religious practice underscoring its ties to modern liberal capitalism while also envisioning a more authentic democracy unconstrained by those ties
