Secularization Debate William H. Swatos (Jr.), 2000 Introduced to social scientific audiences by Max Weber the concept of secularization has had a major influence on the way in which religion has been understood in the West But at least since the late 1980s both the predictive and the descriptive adequacy of this concept have been seriously challenged In the face of this challenge The Secularization Debate offers a timely summary of the critical issues that have arisen over the past decade With its wide range of essays by prominent international scholars The Secularization Debate is sure to become a pivotal volume for anyone interested in the hotly contested concept of secularization and its continued relevance to the study of religion

Religion and the Political Order: Secularization and fundamentalism reconsidered, 1986 **Public Religions in the Modern World** José Casanova, 2011-08-29 In a sweeping reconsideration of the relation between religion and modernity Jose Casanova surveys the roles that religions may play in the public sphere of modern societies During the 1980s religious traditions around the world from Islamic fundamentalism to Catholic liberation theology began making their way often forcefully out of the private sphere and into public life causing the deprivatization of religion in contemporary life No longer content merely to administer pastoral care to individual souls religious institutions are challenging dominant political and social forces raising questions about the claims of entities such as nations and markets to be value neutral and straining the traditional connections of private and public morality Casanova looks at five cases from two religious traditions Catholicism and Protestantism in four countries Spain Poland Brazil and the United States These cases challenge postwar and indeed post Enlightenment assumptions about the role of modernity and secularization in religious movements throughout the world This book expands our understanding of the increasingly significant role religion plays in the ongoing construction of the modern world **Fundamentalism** Malise Ruthven, 2007-01-25 Fundamentalism is seen as the major threat to world peace a conclusion impossible to ignore since the events in New York on September 11 2001 This book investigates fundamentalism's historical social religious political and ideological roots and tackles the polemic and stereotypes surrounding this complex phenomenon *The Fundamentalist City?* Nezar AlSayyad, Meegan

Massoumi, 2010-09-13 AlSayyad and Massoumi's text addresses the ways in which religion can affect the city and indeed how the city can affect religion International experts in sociology anthropology religious studies urban planning and geography come together to provide thought provoking pieces on whether a fundamentalist city is possible **An Introduction to the Sociology of Religion** Inger Furseth, Pål Repstad, 2017-03-02 Is it true that religion is weakening in modern times or are we facing religious resurgence What is fundamentalism How does it emerge and grow What role does religion play in ethnic and national conflicts Is religion a fundamental driving force or do political leaders use religion for their own purposes Do all

religions oppress women These are some of the questions addressed in this book An Introduction to the Sociology of Religion provides an overview of sociological theories of contemporary religious life Some chapters are organized according to topic Others offer brief presentations of classical and contemporary sociologists from Karl Marx to Zygmunt Bauman and their perspectives on social life including religion Throughout the book illustrations and examples are taken from several religious traditions

The Challenge of Religion after Modernity Raymond L. M. Lee, Susan E. Ackerman, 2018-05-08 This title was first published in 2003 If God has departed as Baudrillard claims is religion still relevant A new religious landscape is appearing in the new millennium The middle classes with their electronic technologies are producing a culture of commodified images and signs that is radically transforming the religious landscape and re enchanting the world Ecstatic experiences pervade the reenchanting world Both fundamentalism and the New Age movement promote the free flow of charisma reshaping religion in unforeseen directions Analysing the crisis of modernity this book delves into the intricacies of these movements to examine the implications of religious change in the new millennium The authors provide an incisive assessment of religious change in the West and Asia to suggest an eclecticism in re enchantment that will usher in new ideas about charisma consciousness and spirituality These ideas focus on new forms of shamanism that point the way to experiences of empowerment beyond the structures of disenchantment

Worlds in Collision Laurie Guy, 2002 The period from 1960 to 1986 was distinguished by the debate over decriminalization of sexual acts between males In the 1960s homosexual men faced prison sentences if they were sexually active and so they made themselves invisible By 1986 they were demanding their rights and the nation's attention This change had come after years of debate The New Zealand Homosexual Law Reform Society and the gay liberation movement actively sought reform Many within society actively opposed it and the issue became a catalyst for a significant rift in the churches Intense lobbying and vehement opposition marked the fifteen months before the Homosexual Law Reform Bill was passed in July 1986 Based on 22 interviews with important participants in the debates as well as extensive research in archives and published material Worlds in Collision is the first time this important story has been told It is a major contribution not only to the international literature on the history of homosexuality but also to our understanding of New Zealand society in the later twentieth century

The Metaphysics of Historical Jesus Research Jonathan Rowlands, 2015-10-15 In this book Rowlands interrogates the theological and philosophical foundations of the Quest for the historical Jesus from Reimarus to the present day culminating in a call for greater metaphysical transparency and diversity in the discipline This multidisciplinary approach to historical Jesus research drawing on historiography sociology philosophy and theology makes a significant and original contribution to the field Part I outlines the implicit role of metaphysical presuppositions in historical methodology by examining the concept of an historiographical worldview Part II provides an overview of the Quest for the historical Jesus demonstrating that the disparate historiographical worldviews operative in the Quest evidence a particular shared characteristic in that they might

accurately be described as secular Rowlands study concludes with a call for a greater plurality and openness regarding the philosophical and theological presuppositions at work in historical Jesus research The Metaphysics of Historical Jesus Research is of interest to students and scholars working on New Testament studies and historical Jesus research

Sociology of Religion in Turkey Zuhul Ağılkaya Şahin, Asım Yapıcı, Sarah Demmrich, 2021-12-01 I find in this volume an admirable mix of empirical material on for example religious socialization and perceptions of gender and reflective pieces which interrogate the place of religion in Turkish society Key in this respect is the fact that Turkey is not simply a Muslim society but a distinctive one not least in terms of the functional differentiation of the modern republic and its consequent effect on religion a situation that offers a unique challenge to sociological enquiry The book concludes with a series of chapters that deal with the particularities of the modernization process in Turkey and the tensions social cultural and political that have emerged as the modern state developed a stage by stage process Prof Grace Davie University of Exeter Great Britain

The Impact of Values Jan W. van Deth, Elinor Scarbrough, 1998 Declining religiosity waning class values rising postmaterialism along with Green values postmodernism feminism are indicative of profound and widespread change in the values of citizens This volume tracks these changes and analyses their impact on political efficacy interest activity trust voting and involvement in new social movements
