

A BLUEPRINT FOR CPTED

What do Crime Prevention Through Environmental Design (CPTED) principles look like in practice? Small design changes like landscaping or maintenance can have major payoffs when it comes to protecting a facility.

NATURAL SURVEILLANCE

Establish clear sightlines from building windows and employee areas across the property.

DIRECTIVES

Clearly defining the rules and expected conduct within a facility helps drive positive behavior and lets staff quickly identify people who refuse to comply.

PHYSICAL ACCESS CONTROL

Use sidewalks, crosswalks, and other physical guidance to drive visitors and the intended entrance.

TERRITORIAL REINFORCEMENT

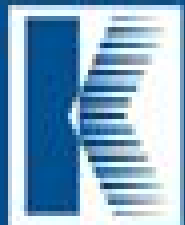

Use fences, hedges, and signage to reinforce the message that the company's property is private.

SOCIAL MANAGEMENT

Adding community-building areas such as picnic tables or green space where employees can relax and socialize helps to encourage a sense of ownership of the workplace.

MAINTENANCE

Keep shrubs trimmed to below 2 feet, tree trunks clear up to 5 feet, and signage changed out to build a sense that the facility is cared for.

Muncie, 2002-03-28 This text represents a major contribution to the literature on crime prevention and community safety. It goes beyond existing literature in bringing together sophisticated theoretical analysis on these topics which are core issues for government at local as well as national levels. And it also brings a much needed international perspective to our understanding of the local governance of crime. Kevin Stenson, Professor of Criminology, Buckinghamshire Chilterns University College. *Crime Prevention and Community Safety* provides an essential introduction to the complex issues and debates in the field of crime control and the new politics of safety and security across the globe. Collectively the contributions to this volume present a critique of current policy and open up the field of study to new directions. While engaging with the dominant focus on what works in crime reduction and community safety, the book also moves beyond the traditionally narrow technical boundaries of much previous debate. *Crime Prevention and Community Safety: New Directions* looks at the relationship between crime control communities and the nation state. The diverse and changing sites of conflict, compromise and collusion around crime control policies. Wider issues relating to risk, safety and security. The central feature of the volume as a whole is a commitment to exploring new directions for research and analysis, theoretically, empirically and comparatively. In opening up the varying and volatile spaces for crime prevention and community safety within the more general politics of social order, the book provides a critical rethinking of traditional connections between criminology, social policy and politics. *Crime Prevention and Community Safety* will be essential reading for students of criminology, criminal justice, community safety, socio-legal studies, sociology of crime and deviance and social policy. This is a course Reader for The Open University course D863 Community Safety: Crime Prevention and Social Control.
