A history of American women challenging domesticity by touring Europe in the 19th and early 20th centuries The nineteenth century ideal of domesticity identified home as women s proper sphere but the ideal was frequently challenged profoundly so when woman left home and country to travel in foreign lands This book explores the reasons for and ramifications of women making a Grand Tour a trip to Europe between 1814 and 1914 this century between major European wars witnessed the golden age of American Grand Tours Men and women alike were inspired by a Euro centric education that valued the Old World as the fountainhead of their civilization Reaching Europe necessitated an Ocean crossing a disorienting time taking women far from domestic comfort Once abroad American women had to juggle accustomed norms of behavior with the demands of travel and

customs of foreign lands Wearing proper attire even when hiking in the Alps coping with unfamiliar languages grappling with ever changing rules about customs and passports traveling alone these were just some of the challenges women faced when traveling Some traveled with their husband others with female relatives and friends and a few entirely alone Traveling companions had to agree on where to stay when and where to dine how to travel and where to go The sinking of the Titanic in 1912 made clear that even in the twentieth century a Grand Tour involved risk Because more women survived than men some insisted that the Titanic's example should curb female independence However a growing number of women continued making a Grand Tour for the next two years It was the outbreak of war in Europe in 1914 that temporarily brought an end to a century of female Grand Tours Beatty's ability to weave the experiences of hundreds of American women on the Grand Tour in Europe into a consistent narrative is per se a remarkable feat But the author does much more than that She uses the journey as trope to represent the long and difficult process of women's emancipation in its several cultural psychological social and political dimensions Susanna Delfino Professor of American History retired University of Genoa Italy

**Traveling to Unknown Places** Lloyd S. Kramer, 2024-09-24 Traveling to Unknown Places presents a compelling incisive analysis of how French and American writers reshaped their personal and collective identities as they traveled in foreign countries after the social upheavals of the eighteenth century Atlantic revolutions Delving into the experiences of renowned figures like Flora Tristan and Margaret Fuller alongside lesser known postrevolutionary travelers this book illuminates how cross cultural encounters pushed writers to redefine their views of nationality language race slavery gender religion science and political ideologies Lloyd Kramer deftly demonstrates how unsettling journeys challenged cultural preconceptions and fostered introspective writings that transcended geographical boundaries By interweaving the perspectives of women and men whose travels led them far beyond their youthful social origins Kramer unveils a rich tapestry of evolving selfhood ambition and political consciousness across the Atlantic world Each traveler's experience was unique but long journeys connected all these nineteenth century writers with others who had traveled before and trips into unknown distant cultures also carried travelers toward previously unknown places within themselves

**'A Happy Holiday'** Cecilia Louise Morgan, 2008-01-01 One of the most revealing things about national character is the way that citizens react to and report on their travels abroad Oftentimes a tourist's experience with a foreign place says as much about their country of origin as it does about their destination A Happy Holiday examines the travels of English speaking Canadian men and women to Britain and Europe during the late nineteenth and early twentieth centuries It describes the experiences of tourists detailing where they went and their reactions to tourist sites and draws attention to the centrality of culture and the sensory

dimensions of overseas tourism Among the specific topics explored are travellers class relationships with people in the tourism industry impressions of historic landscapes in Britain and Europe descriptions of imperial spectacles and cultural sights the use of public spaces and encounters with fellow tourists and how such encounters either solidified or unsettled national subjectivities Cecilia Morgan draws our attention to the important ambiguities between empire and nation and how this relationship was dealt with by tourists in foreign lands Based on personal letters diaries newspapers and periodicals from across Canada A Happy Holiday argues that overseas tourism offered people the chance to explore questions of identity during this period a time in which issues such as gender nation and empire were the subject of much public debate and discussion Seductive Journey Harvey Levenstein, 1998-10 From Thomas Jefferson to the Jazz Age from Fragonard to foie gras this book provides the delicious details of how American visitors to France responded to changing notions of leisure and blazed the trail for modern mass tourism 41 photos
