See In Things:

I Can See Things Raymond T O'Donnell, 2012-08-23 I am a candidate for the United States Senate as an Independent and I have No Money and No Friends to help me I graduated from the University of Cincinnati with an Associated Degree in Art and Architecture During my studies in architecture I acquired skills to create small scale entities into larger life objects from structures to world politics I have a keen talent in making accurate comparisons involving minute and major events I can see inconsistencies and contradictions with clarity My wife Barbara and I are originally from New York City and moved to the Mid West during our early twenties We married in El Paso Texas while I was in the United States Army and later raised eight children I completed seven years of active service in the military before giving up a career I never thought I would When I gave it up we began civilian life with three children and it was difficult and sometimes I wondered if I would bring home enough of a pay check to feed everyone a balanced diet I soon learned that God was helping us with needed spiritual and material necessities even though I didn't think I deserved it This book is a Political Religious Time Line of America beginning in 1942 when I was born until 2012 The Book compares my dysfunctional family life with current dysfunctional government politics

It's Not WHAT Things You See, It's HOW You See Things! Allen Daugherty, 2022-03-29 It's Not What Things You See It's How You See Things deals with many of the issues that are plaguing people in every walk of life These things may not seem to be as destructive as the pandemic or natural disasters but I guarantee they are extremely damaging to those involved Suicide plagues the United States at a clip of over forty eight thousand a year Many of those suicides are due to how people look at themselves It is estimated that every sixty two minutes someone dies of an eating disorder How many of these deaths are also caused by self image issues And looking at all the murders and crimes that take place it is very easy to see that many have a depraved view of human life Imagine shooting an automatic rifle into a crowd of innocent men women children and yes infants Racial tension has never been worse Many choose to be a part of the problem instead of the solution People of all races should be working together to solve other problems instead of fighting and creating a huge one The truth is many of these things are not caused by what things we see but how we see things By the time you finish this book your eyes will be opened quite as to why things are the way they are and if we are all willing to change how we can see things differently to bring about the change that we so desperately need This book is dedicated to our children and grandchildren that must inherit the world that we leave them Let's leave them a good one

The Nature of Things Anthony M. Quinton, 2019-03-07 Originally published in 1973 In this systematic treatise Anthony Quinton examines the concept of substance a philosophical refinement of the everyday notion of a thing Four distinct but not unconnected problems about substance are identified what accounts for the individuality of a thing what confers identity on a thing what is the relation between a thing and its appearances and what kind of thing is fundamental in the sense that its existence is logically independent of that of any other kind of thing In Part 1 the first two problems are discussed while in Part 2 the third and fourth are considered Part 3 examines four kinds of thing that have been commonly held to be in some way non-material abstract entities the unobservable entities of scientific theory minds and their states and finally values The author argues that theoretical entities and mental states are in fact material He gives a linguistic account of universals and necessary truths and advances a naturalistic theory of value

Ignorance Andrew Bennett, 2013-07-19 Andrew Bennett argues in this fascinating book that ignorance is part of the narrative and poetic force of literature and is an important aspect of its thematic focus ignorance is what literary texts are about He sees that the dominant conception of literature since the Romantic period involves an often unacknowledged engagement with the experience of not knowing From Wordsworth and Keats to George Eliot and Charles Dickens from Henry James to Joseph Conrad from Elizabeth Bowen to Philip Roth and Seamus Heaney writers have been fascinated and compelled by the question of ignorance including their own Bennett argues that there is a politics and ethics as well as a poetics of ignorance literature's agnology its acknowledgement of the limits of what we know both of ourselves and of others engages with the possibility

of democracy and the ethical and allows us to begin to conceive of what it might mean to be human This exciting approach to literary theory will be of interest to lecturers and students of literary theory and criticism

Screw Your Perception Kareem A Rashed, 2022-08-22 Basically *Screw Your Perception* is to remind us all that we are one How is our ego getting in the way and stopping us from listening and accepting others just as they are How can we learn to live in love and in relation with another How can we learn and understand one another What if we listened What if we allowed others to be themselves What if we let go What if we were willing to look ourselves in the mirror What if we might just be each other's reflection What if we were here to learn to show empathy to love and to accept one another Can we accept others just as they are Can we accept them even when to us what they are saying thinking or doing seems so different from what we are saying thinking or doing The big question Can we deflate our ego and stop trying to change everyone else Maybe it is about changing ourselves Maybe it is all about connection rather than division
