See You When We Get There Teaching For Change In Urban Schools:

See You When We Get There Gregory Michie, 2004 **See You when We Get There** Gregory Michie, 2005 Gregory Michie's first bestseller *Holler If You Hear Me* put him on the map as a compelling and passionate voice in urban education. In his new book Michie turns his attention to young teachers of colour and once again provides readers with a unique and penetrating look inside public school classrooms. Featuring portraits of five young teachers—two African Americans, two Latinas, and one Asian American—who are working for change, Michie weaves the teachers' powerful voices with classroom vignettes and his own experiences. Along the way he examines what motivates and sustains these teachers as well as what they see as the challenges and possibilities of public education. In these times of national standards, high stakes accountability, and calls for reforming teacher education and preparation, *See You When We Get There* is essential reading.

Crossing Boundaries—Teaching and Learning with Urban Youth Valerie Kinloch, 2015-04-24 This is a book of stories told by adolescents and adults about teaching and learning. Puzzlement, wonder, curiosity, disruption, and distress mark the emotions of all the storytellers here. From the Foreword by Shirley Brice Heath, Stanford University, *Crossing Boundaries* is a must read for anyone interested in improving the academic achievements and enhancing the literacy practices of marginalized students. Beverly Moss, The Ohio State University. This book will shake the common and reshape the knowledge we have about the passion and potential of students in urban schools. JoBeth Allen, University of Georgia. In her new book, Valerie Kinloch, award-winning author of *Harlem on Our Minds*, sheds light on the ways urban youth engage in meaning-making experiences as a way to assert critical, creative, and highly sophisticated perspectives on teaching, learning, and survival. Kinloch rejects deficit models that have traditionally defined the literacy abilities of students of color, especially African American and Latino youth. In contrast, she crosses boundaries to listen to the voices of students attending high school in New York City's Harlem community. In *Crossing Boundaries*, Kinloch uses a critical teacher-researcher lens to propose new directions for youth literacies and achievements. The text features examples of classroom engagements, student writings, and presentations, discussions of texts and current events, and conversations on skills, process, achievement, and underachievement. Valerie Kinloch is an associate professor in literacy studies in the School of Teaching and Learning at The Ohio State University. Her other books are *Harlem on Our Minds*, *Place, Race, and the Literacies of Urban Youth*, and *Urban Literacies: Critical Perspectives on Language Learning and Community*. All royalties go to the Cultivating New Voices Among Scholars of Color grant and mentoring program sponsored through the National Council of Teachers of English.

Change(d) Agents Betty Achinstein, Rodney T. Ogawa, 2015-04-24 This book examines both the promises and complexities of racially and culturally diversifying today's teaching profession. Drawing from a 5-year study of the lives of 21 new teachers of color working in urban, hard-to-staff schools, this book documents the tensions these teachers experience between serving as role models and fulfilling district and state mandates.

crisis in urban schools Though educators have tried a wide range of remedies dismal results persist This is especially true for low income youth of color who drop out of school and into incarceration at extremely high rates The dual calamity of underachievement in schools and violence in many communities across the country is often met with blame and cynicism and with a host of hurtful and unproductive quick fixes blaming educators pitting schools against each other turning solely to the private sector and ratcheting up the pressure on teachers and students But real change will not be possible until we shift our focus from finding fault to developing partnerships from documenting problems to discovering solutions Learning to Liberate does just that by presenting true and compelling community based approaches to school reform Drawing on over three years of ethnographic research Vajra Watson explores the complicated process of reaching and teaching today's students She reveals how four nontraditional educators successfully empower young people who have repeatedly been left behind Using portraiture a methodology rooted in vivid storytelling Watson analyzes each educator's specific teaching tactics Uncovering four distinct pedagogies of communication community compassion and commitment she then pulls together their key strategies to create a theoretically grounded framework that is both useful and effective A poignant insightful and practical analysis Learning to Liberate is a timely resource for all educators and youth serving practitioners who are committed to transforming at risk youth into at promise individuals who put their agency and potential into action in their schools and neighborhoods
