Reinert, 2018-06-01 With headlines focused on human suffering civil wars refugee flows the spread of disease due to hunger and poor sanitation population growth climate change it is easy to dive into despair What is needed instead is a radical rethinking of global policy to realize the potential for improving the human condition This book provides hope by examining the basic needs for a fundamental shift in thinking about development and human security for both practical and ethical reasons Kenneth A Reinert calls for a basic goods approach that focuses on the provision of nutritious food clean water sanitation health services education services housing electricity and human security services This approach bridges two

perspectives that of standard growth which emphasizes increasing GDP per capita and that of capabilities human development which puts priority on the realization of human potential Reinert argues that only when growth leads to an increase in the broad based provision of basic goods and services will the hoped for expansion of human capabilities and development be achieved No Small Hope places the basic goods approach on the firm foundation of objective human needs and subsistence rights It offers a practical agenda for making progress towards human development by focusing on the real determinants of human well being in an ethical system of moral minimalism In a world of climate change increased risk of natural disasters and increased refugee flows the basic goods approach promises to help alleviate ongoing suffering and address vast deprivations in basic needs fulfillment **The Encyclopedia Americana** ,1924 *Rethinking Internal Displacement* Frederick Laker,2021-11-01 Internal displacement has become one of the most pressing geo political concerns of the twenty first century There are currently over 45 million internally displaced people worldwide due to conflict state collapse and natural disaster in such high profile cases as Syria Yemen and Iraq To tackle such vast human suffering in the last twenty years a global United Nations regime has emerged that seeks to replicate the long established order of refugee protection by applying international law and humanitarian assistance to citizens within their own borders This book looks at the origins structure and impact of this new UN regime and whether it is fit for purpose
