Emotion and Social Structures Christian von Scheve, 2014-07-16 The past decades have seen significant advances in the sociological understanding of human emotion Sociology has shown how culture and society shape our emotions and how emotions contribute to micro and macro social processes At the same time the behavioral sciences have made progress in understanding emotion at the level of the individual mind and body Emotion and Social Structures embraces both perspectives to uncover the fundamental role of affect and emotion in the emergence and reproduction of social order How do culture and social structure influence the cognitive and bodily basis of emotion How do

large scale patterns of feeling emerge And how do emotions promote the coordination of social action and interaction Integrating theories and evidence from disciplines such as psychology cognitive science and neuroscience Christian von Scheve argues for a sociological understanding of emotion as a bi directional mediator between social action and social structure This book will be of interest to students and scholars of the sociology of emotion microsociology and cognitive sociology as well as social psychology cognitive science and affective neuroscience *The British National Bibliography* Arthur James Wells,1995
