Deslandes, 2021-12-20 A heavily illustrated history of two centuries of male beauty in British culture. Spanning the decades from the rise of photography to the age of the selfie, this book traces the complex visual and consumer cultures that shaped masculine beauty in Britain, examining the realms of advertising, health, pornography, psychology, sport, and celebrity culture. Paul R. Deslandes chronicles the shifting standards of male beauty in British culture from the rising cult of the athlete to changing views on hairlessness, while connecting discussions of youth, fitness, and beauty to growing concerns about race, empire, and degeneracy. From earlier beauty show contestants and youth-obsessed artists, the book moves through the decades into considerations of disfigured soldiers, physique models, body-conscious gay men, and celebrities such as David Beckham and David Gandy who populate the worlds of television and social media. Deslandes calls on historians to take beauty and gendered aesthetics seriously while recasting how we think about the place of physical appearance in historical study, the intersection of different forms of high and popular culture, and what has been at stake for men in looking good. *Contemporary Black British Playwrights* L. Companion to Contemporary Black British Culture Alison Donnell, 2002-09-11. The *Companion to Contemporary Black British Culture* is the first comprehensive reference book to provide multidisciplinary coverage of the field of black cultural production in Britain. The publication is of particular value because despite attracting growing academic interest in recent years, this field is still often subject to critical and institutional neglect. For the purpose of the *Companion*, the term black is used to signify African Caribbean and South Asian ethnicities while at the same time addressing the debates concerning notions of black Britishness and cultural identity. This single volume *Companion* covers seven intersecting areas of black British cultural production since 1970: writing, music, visual and plastic arts, performance, works, film and cinema, fashion and design, and intellectual life. With entries on distinguished practitioners, key intellectuals, seminal organizations and concepts, as well as popular cultural forms and local activities, the *Companion* is packed with information and suggestions for further reading, as well as offering a wide lens on the events and issues that have shaped the cultural interactions and productions of black Britain over the last thirty years. With a range of specialist advisors and contributors, this work promises to be an invaluable sourcebook for students, researchers, and academics interested in exploring the diverse, complex, and exciting field of black cultural forms in postcolonial Britain.
