Sandra Palomino, 2008 *Nature & Science on the Pacific Coast*, 1915 *Seetee Ship* Jack Williamson, 1951 The Humanoids Jack Williamson, 1996-01-15 Sleek androids have spread slowly through the galaxy threatening human dominance until a small band of rebels rise up against the humanoid tide **Centauri Dreams** Paul Gilster, 2013-04-18 I wrote this book because I wanted to learn more about interstellar flight Not the Star Trek notion of tearing around the Galaxy in a huge spaceship that was obviously beyond existing technology but a more realistic mission In 1989 I had videotaped Voyager 2's encounter with Neptune and watched the drama of robotic exploration over and over again I started to wonder whether we could do something similar with Alpha Centauri the nearest star to the Sun Everyone seemed to agree that manned flight to the stars was out of the question if not permanently then for the indefinitely foreseeable future But surely we could do something with robotics And if we could figure out a theoretical way to do it how far were we from the actual technology that would make it happen In other words what was the state of our interstellar technology today those concepts and systems that might translate into a Voyager to the stars Finding answers meant talking to people inside and outside of NASA I was surprised to learn that there is a large literature of interstellar flight Nobody knows for sure how to propel a spacecraft fast enough to make the interstellar crossing within a time scale that would fit the conventional idea of a mission but there are candidate systems that are under active investigation Some of this effort begins with small systems that we'll use near the Earth and later hope to extend to deep space missions Terraforming Earth Jack Williamson, 2024-06-04 Winner of the John W Campbell Memorial Award for Best Science Fiction Novel When a giant meteor crashes into the earth and destroys all life the small group of human survivors manage to leave the barren planet and establish a new home on the moon From Tycho Base men and women are able to observe the devastated planet and wait for a time when return will become possible Generations pass Cloned children have had children of their own and their eyes are raised toward the giant planet in the sky which long ago was the cradle of humanity Finally after millennia of waiting the descendants of the original refugees travel back to a planet they've never known to try and rebuild a civilization of which they've never been a part The fate of the earth lies in the success of their return but after so much time the question is not whether they can rebuild an old destroyed home but whether they can learn to inhabit an alien new world Earth **Darker Than You Think** Jack Williamson, 1999-12-14 Who is the child of the night That's what small town reported Will Barbee must find out Inexorably drawn into investigating a rash of grisly deaths he soon finds himself embroiled in something far beyond mortal understanding Doggedly pursuing his investigations he meets the mysterious and seductive April Bell and starts having disturbing tantalizing dreams in which he

does terrible things things that are stranger and wilder than his worst nightmares then his friends being dying one by one and he slowly realizes that an unspeakable evil has been unleashed As Barbee s world crumbles around him in a dizzying blizzard of madness the intoxicating dangerous April pushes Barbee ever closer to the answer to the question Who is the Child of Night When Barbee finds out he ll wish he d never been born
