SITUATION: The numbers are staggering. Every minute 27 girls are forced into marriage. That's 1 every 2 seconds. Child marriage is a global problem. The practice violates girls' human rights, curtails their education, harms their health and sharply constrains their future. The start of a solution is simple: more education. Getting girls to school means delaying marriage. And by becoming a Plan parent that's exactly what you're helping to achieve.

BRIEF: First of all, get the global problem of Child marriage to the living room. Secondly, activate people to become a Plan parent.

IDEA: Plan Belgium helped girls to speak and take over movie 'age warnings' in prime time on National television, in movie theatres and - via Planit - in YouTube Movie trailers, in their teaching 'topschools'. It inspired girls tell an emotional story and paint a picture about the horrible tradition.

RESULT: Ann was helping the problem to the living room and by doing so created a lot of noise and conversations. And it did. Moreover, Child marriages were discussed on all national media and on numerous blogs, national and international. But most important of all there was an 85% increase of people who became Plan parents, compared to the campaign results of last year.

Marriage Campaign:

The Marriage Campaign Helen Bianchin, 2003 Arranged Marriage Péter Berta, 2023-03-17 Arranged Marriage shows how arranged marriage practices have been undergoing transformation how the gendered and intergenerational politics of agency consent and choice work in the contexts of partner choice and management of marriage and how this type of marriage can be reshaped reinvented and reinterpreted flexibly in response to individual family religious class ethnic and other desires needs and constraints **Anti-Gender Campaigns in Europe** Roman Kuhar, David Paternotte, 2017-08-07 After decades of steady progress in terms of gender and sexual rights several parts of Europe are facing new waves of resistance to a so called gender ideology or gender theory Opposition to progressive gender equality is manifested in challenges to marriage equality abortion reproductive technologies gender mainstreaming sex education sexual liberalism transgender rights antidiscrimination policies and even to the notion of gender itself This book examines how an academic concept of gender when translated by religious organizations such as the Roman Catholic Church can become a mobilizing tool for and the target of social movements How can we explain religious discourses about sex difference turning into massive street demonstrations How do forms of organization and protest travel across borders Who are the actors behind these movements This collection is a transnational and comparative attempt to better understand anti gender mobilizations in Europe It focuses on national manifestations in eleven European countries including Russia from massive street protests to forms of resistance such as email bombarding and street vigils It examines the intersection of religious politics with rising populism and nationalistic anxieties in contemporary Europe **Political Campaigns** Costas Panagopoulos, 2017 Political Campaigns is a detailed comprehensive in depth look at modern campaigns that reflects on both theory and practice It summarizes scholarly research on campaigns but also provides an in depth and inside look into how contemporary campaigns are conducted **The Future of Marriage** David Blankenhorn, 2007-11-01 The idea of this book began in a conversation David Blankenhorn had with the president of Freedom to Marry a group advocating equal marriage rights for same sex couples This man asked Blankenhorn a leading figure in the marriage movement to endorse his group's objectives Feeling a bit defensive Blankenhorn replied Every child deserves a mother and a father The Future of Marriage is the result of that conversation In their current demands Blankenhorn points out gay and lesbian leaders are not asking for marriage with an adjective in front of it but marriage itself So in that sense what marriage is and why it matters is ultimately what this debate is all about What exactly is this institution to which gay and lesbian activists are seeking access Why do we have it in the first place Where did it come from What is it for How is it changing These are some of the hard questions The Future of Marriage confronts David Blankenhorn says that if same sex marriage debate is to be redemptive rather than merely divisive it must accept the principle that all persons are equal in dignity But it must also help us to rediscover and renew marriage as the main protector of our children and our primary social institution **Religious Controversy in British India** Kenneth W.

Jones,1992-01-03 This book opens the doors to a social and cultural sphere beyond the limited world of the English speaking elite and provides the basis for an understanding of religious controversy and internal reform It explores the dynamics of religious interaction and conflict that points toward later developments of communalism and religious separatism still plaguing the subcontinent Religious Controversy in British India reveals a world expressed in South Asian dialects that has been closed to many scholars and students of the subcontinent During the nineteenth century polemical religious literature and those who wrote it mobilized groups and led them back to the fundamentals Sacred texts supporting movements were translated and made available in inexpensive editions Even texts from the well established oral tradition were put into print This process was often initiated in response to Christian missionary activity a response that ultimately expanded to include other religions In this book scholars examine the writings of Hindus Muslims and Sikhs responsible for significant changes within different communities and for a heightened sense of boundary defining identity **Out in the Periphery** Omar G.

Encarnación,2016-01-04 Known around the world as a bastion of Catholicism and machismo Latin America has emerged in recent years as the undisputed gay rights leader of the Global South Even more surprising is that several Latin American nations have surpassed many developed nations including the United States in legislating equality for the LGBT community So how did this dramatic and unexpected expansion of gay rights come about And why are Latin American nations diverging in their embrace of gay rights a point highlighted by the paradoxical experiences of Argentina and Brazil Argentina a country with a dark history of repression of homosexuality legalized same sex marriage in 2010 a first for a Latin American nation and since then it has enacted laws to ensure transgender equality to abolish ex gay reparative therapy and to provide reproductive assistance to same sex couples By contrast Brazil a country famous for celebrating sexual diversity proved incapable of legalizing same sex marriage via the legislature leaving the job to the courts and Brazilian anti gay discrimination laws are among the weakest in Latin America In *Out in the Periphery* Omar G Encarnación breaks away from the conventional narrative of Latin America's embrace of gay rights as a by product of the global spread of gay rights from the developed West Instead Encarnación aims to decenter gay rights politics His intention is not to demonstrate how the local has trumped the global in Latin America but rather to suggest how domestic and international politics interacted to make Latin America one of the world's most receptive environments for gay rights Economic and political modernization constitutional and judicial reforms and the rise of socially liberal governments have all contributed to this receptivity But the most decisive factor was the skill of local activists in crafting highly effective gay rights campaigns Inspired by external events and trends but firmly grounded in local politics and realities these campaigns succeeded in bringing radical change to the law with respect to homosexuality and in some cases as in Argentina in transforming society and the culture at large

Against Equality Ryan Conrad, 2015-03-20 When rights go wrong Does gay marriage support the right wing goal of linking access to basic human rights like health care and economic security to an inherently conservative tradition Will the ability of queers to fight in wars of imperialism help liberate and empower LGBT people around the world Does hate crime legislation affirm and strengthen historically anti queer institutions like the police and prisons rather than dismantling them The Against Equality collective asks some hard questions These queer thinkers writers and artists are committed to undermining a stunted conception of equality In this powerful book they challenge mainstream gay and lesbian struggles for inclusion in elitist and inhumane institutions More than a critique Against Equality seeks to reinvigorate the queer political imagination with fantastic possibility

The Battle over Marriage Leigh Moscovitz, 2013-11-15 Over the past decade the controversial issue of gay marriage has emerged as a primary battle in the culture wars and a definitive social issue of our time The subject moved to the forefront of mainstream public debate in 2004 when San Francisco Mayor Gavin Newsom began authorizing same sex marriage licenses and it has remained in the forefront through three presidential campaigns and numerous state ballot initiatives In this thorough analysis Leigh Moscovitz examines how prominent news outlets presented this issue from 2003 to 2012 a time when intense news coverage focused unprecedented attention on gay and lesbian life During this time LGBT rights leaders sought to harness the power of media to advocate for marriage equality and to reform

their community's public image Building on in depth interviews with activists and a comprehensive longitudinal study of news stories Moscovitz investigates these leaders aims and how their frames tactics and messages evolved over time In the end media coverage of the gay marriage debate both aided and undermined the cause Media exposure gave activists a platform to discuss gay and lesbian families But it also triggered an upsurge in opposing responses and pressured activists to depict gay life in a way calculated to appeal to heterosexual audiences Ultimately The Battle over Marriage reveals both the promises and the limitations of commercial media as a route to social change Laboring for the State Rachel
