Marx After Marxism The Philosophy Of Karl Marx:

Marx After Marxism Tom Rockmore, 2008-04-30 Marx After Marxism encourages readers to understand Karl Marx in new ways unencumbered by political Marxist interpretations that have long dominated the discussions of both Marxists and non Marxists This volume gives a broad and accessible account of Marx's philosophy and emphasizes his relationship to Hegel

Marx's Concept of the Alternative to Capitalism Peter Hudis, 2012-07-25 This is the first book length study of Marx's concept of the alternative to capitalism It shows that his critique of capital flowed from a commitment to a specific vision of the kind of human relations that define a new society , Marx and Singularity Luca Basso, 2012-11-23 Marx and Singularity by Luca Basso attempts to understand the development of Marx's thought from the early writings to the Grundrisse as a search for individual realisation Drawing upon the concept of singularity in contemporary French theory and problematising its relation to Marx's vocabulary this book challenges organicist interpretations of Marx's early work The productivity of the notion of singularity is argued to be based on the fact that it allows us to highlight the element of individual realisation stressing at the same time its distance from the modern conception of individuality The correlate of singularity is the reciprocity moving and unstable between the individual and the collective which occurs in class struggles Updated and revised edition of Socialit e isolamento la singolarit in Marx published by Carocci in 2008 **Geographical Thought** Lalita Rana, 2014-01-01 Geographical thought at any point in time is a manifestation of the prevailing viewpoints and methodological approaches in vogue The development of geography has a history of evolution of over 2000 years The discipline has been crafted over time to incorporate ideas from various schools of thought and several other disciplines from ancient to modern times The existing methodology and the subject matter of Geography is a reflection of this assemblage and evolution The nature of development remained more philosophical up to modern period The First edition of this book published in 2008 was an attempt towards compilation of relevant study material on evolution of Geographic thought in a systematic way up to the modern period The book has been revised with the addition of two elaborated sections i e one each on the Classical and the Contemporary tradition in geography However the major thrust of present book is on the nature of geographic developments in its contemporary phase More recently the anthropocentrism and a concern about methodology are more evident in the development of discipline **Marx and We** Sun Zhengyu, 2024-08-01 Marxist ideology is the only fully scientific ideology the only one able to guide mankind toward the settlement of fundamental social problems and to point out the royal road for the proletariat to take in its march toward socialism and communism Without Marxism modern people cannot establish true social ideals nor can they engage in the rational pursuit of values Without Marxism modern people cannot choose the correct path of development nor can they build up new forms of civilizations Without Marxism modern people would never base their commitments to schedule the consensus building effort and support the consensus building process on any irrefutably and sufficiently sound theoretical foundations *Biography of a Blunder*

Dileep Edara,2016-02-29 Engaging with a critical analysis of the base and superstructure thesis regarding which a surprising number of reputed Marxist thinkers betray a perpetual ambivalence by frequently deploying it in a variety of contexts but simultaneously airing various reservations about it this book proposes a radical departure from the presently predominant understanding of it The popular view of the base as comprising economics and superstructure as encompassing almost all other spheres of social life is criticised as panoramic or panoptic or the extended version to which Marx s rigorously defined base of production relations and superstructure of politico legal spheres is juxtaposed Revisiting Marx s formulations in his famous 1859 Preface described here as his purloined letters the study rehabilitates his restricted version and upholds its conceptual superiority over its extended avatar that is currently ubiquitous The substitution of Marx s restricted version with the widely believed extended version of the thesis is characterised here as a blunder and this book traces the biography of this blunder through the intricate and tortuous theoretical developments that traverse a transnational and multidisciplinary territory constituting the history of Marxism The last chapter argues for a paradigm shift in favour of the mode of production thesis in order to redeem the holistic vision of Marx This shift is necessitated by the extenuation of the status of the base and superstructure thesis that results from the restoration of Marx s restricted version This chapter grapples with the issues involved in preparing the ground for that shift It also contends that although these theoretical shifts are never formulated in a conscious and conclusive manner as is done here the best practices in Marxist analyses are always inspired by the methodological implications of the mode of production thesis and for this reason the thesis is claimed to be the conceptual unconscious of Marxism

Friedrich Engels and the Dialectics of Nature Kaan Kangal,2020-01-27 Reading different or controversial intentions into Marx and Engels works has been a common but somewhat unquestioned practice in the history of Marxist scholarship Engels Dialectics of Nature a torso for some and a great book for others is a case in point The entire Engels debate separates into two opposite views Engels the contaminator of Marx s new materialism vs Engels the self educated genius of dialectical materialism What Engels unlike Marx has not enjoyed so far is a critical reading that considers the relationship between different layers of this standard text authorial textual editorial and interpretational Informed by a historical hermeneutic this book questions the elements that structure the debate on the Dialectics of Nature It analyzes different political and philosophical functions attached to Engels text and relocates the meaning of the term dialectics into a more precise context Arguing that Engels dialectics is less complete than we usually think it is but that he achieved more than most scholars would like to admit this book fully documents and critically analyzes Engels intentions and concerns in the Dialectics of Nature the process of writing and its reception and edition history in order to reconstruct the solved and unsolved philosophical problems in this unfinished work

The Bloomsbury Companion to Hegel Allegra de Laurentiis,Jeffrey Edwards,2013-02-14 This international collaborative project on G W F Hegel s philosophy includes contributions by eighteen scholars of 18th to 20th century philosophy It will be an essential reference tool for students and

scholars of modern philosophic thought in general and of 19th century German thought in particular The first part of the volume examines Hegel s early writings up to and including the 1807 *Phenomenology of Spirit* The second part is devoted to Hegel s major mature works and lectures as well as to the primary themes of his system of philosophy It opens with a comprehensive account of Hegel s *Science of Logic* followed by detailed treatments of the *Philosophy of Nature* and the *Philosophy of Spirit* from the *Encyclopaedia of Philosophical Sciences* Three further parts of this volume investigate key concepts and interpretive issues paradigmatic forms of Hegelian argumentation and main lines of Hegel s influence since the mid 19th century The volume contains chronologies of Hegel s life and works a bibliography of primary and secondary sources and an analytical index

Hegel and Marx David MacGregor,2014-06-15 The second edition of *Hegel and Marx* After the Fall of Communism surveys Hegel s close connection with world famed economist Friedrich List the declared enemy of Karl Marx Illuminating the mysterious nature of Hegel s relationship with Marx and Friedrich List may help us to comprehend the extraordinary geopolitical transformations that have occurred in the last fifteen years since the original publication of *Hegel and Marx* in 1998

Messages from Georg Simmel Horst Jürgen Helle,2012-09-28 As founder of the humanist version of sociology Simmel sent powerful messages that are identified and explained in this book interpretation things are often not what they appear to be change culture and society evolve over time interaction reality is socially constructed alienation people define the value of money without taking responsibility for this construction Simmel sees humans defining objects in interaction as valuable or worthless but then they refuse to acknowledge having anything to do with the process of value attribution He is critical in politics as well Simmel is concerned that socialism is treated as a political movement and not viewed as a potential form of social interaction

Before and After 9/11 Tom Rockmore,2011-04-21 This clearly written and accessible work presents a philosopher s response to the series of events known as 9 11 and the global culture in the United States and global society that followed It provides a comprehensive analysis of the emerging post 9 11 culture situating it in a broad context that includes politics religious discourse economic theory and philosophical orientation *Before and After 9 11* reconstructs the events that led to and departed from the attacks on September 11 2001 It criticizes the attempts to explain 9 11 by George W Bush his administration s neo conservatives Samuel Huntington and Bernard Lewis It also pays particular attention to the importance of the economic dimension in the emergence of conflicts in an age of globalization The aim is to provide a philosophical overview of 9 11 understood as a series of connected events within an ongoing historical context This unique work will appeal to anyone seeking to understand the current world including the ongoing wars in Iraq and Afghanistan

Marx Worldwide Jan Hoff,2016-11-21 In his study Jan Hoff charts the unprecedented global boost that has been experienced by critical Marxism since the mid 1960s In particular Hoff shows the development of interpretations of Marx s method of critical social theory oriented towards Marx s critique of political economy and of significant disputes concerning the different versions and iterations of the critical project that

ultimately culminated in Capital His book investigates the globalisation of Marx debates the complex network of international theoretical approaches that have been devised between the poles of science and politics the transfer of theory and the historical development of schools of thought beyond national and linguistic borders Marx Worldwide provides an overview of Marx reception in various regions of the world in which the extra European process of theory formation receives particular attention and it shows how despite the supersession of Marxism in the sense of an all encompassing worldview the Marxian aim of providing an explication of the internal connection of economic categories and relations and thereby of accomplishing the de mystification of the deranged world of the economy is as relevant and as theoretically important as it has ever been First published in German by Akademie Verlag as Marx Global Zur Entwicklung des internationalen Marx Diskurses seit 1965 Berlin 2009

The Final Keystone John Kevin Crowley, 2021-03-04 The Final Keystone By John Kevin Crowley Every case in the history of Jurisprudence involves three things Trust Betrayal and Accountability Through his education studies and observations and experiences author John Kevin Crowley has learned the interconnection of history law philosophy and religion with the human condition How that relationship has played out in human history leading to present day is a focus of The Final Keystone This treatise is the story of us and the source of the lessons left unlearned It is a reminder of what does not work and how what does work must be ever vigilantly guarded

Critical Humanism and the Politics of Difference Jeff Noonan, 2003 Annotation Critical Humanism and the Politics of Difference

takes look at sex gender ethnicity and race as different ways of expressing an underlying human nature or essence While the most influential theorists of oppression have argued that belief in some shared human essence is ultimately responsible for the injustices suffered by women First Nations peoples blacks gays and lesbians and colonized people and have insisted that struggles against oppression must be mounted from the unique different perspectives of individual groups Jeff Noonan argues instead that such differences must be seen to be anchored in a conception of human beings as self creative Unless freedom and self determination are accepted as universal values the moral force of arguments against exclusion and oppression is lost
