Michael Walton, 2010 An explanation of Greek theater as seen through its many

depictions in classical art      *Catalogue of the Terracottas in the British Museum* Donald M. Bailey, British Museum, 2008  
 This the fourth in the British Museum's series of terracottas catalogues features terracottas found in Egypt and dating from the victory of Alexander in 332 BC and the succeeding Ptolemaic and Roman periods until the Arab conquest in AD 641. The typical terracottas of the Ptolemaic and Roman periods in all their exuberant variety are known mainly from catalogues of unprovenanced material and not much is known of their chronology. No doubt purchased by both Greek and Egyptian members of the population, most such terracottas probably came from the houses of city and village dwellers and placed in a house shrine would have been thought by their owners to have a protective function over their households in everyday life and in childbirth. They would also enhance the fertility of fields and animals. Some 830 terracottas and objects arranged thematically are discussed and illustrated. The introduction describes the scope and content of the material, its function and distribution within the villages and cities of Egypt, its religious context, the difficulties of dating it and manufacturing techniques.

**Coming of Age in Ancient Greece** Stephen John Morewitz, Jennifer Neils, John Howard Oakley, Katherine Hart, Lesley A. Beaumont, 2003-01-01. What was childhood like in ancient Greece? What activities and games did Greek children embrace? How were they schooled and what religious and ceremonial rites of passage were key to their development? These fascinating questions and many more are answered in this groundbreaking book, the first English language study to feature and discuss imagery and artifacts relating to childhood in ancient Greece. *Coming of Age in Ancient Greece* shows that the Greeks were the first culture to represent children and their activities naturalistically in their art. Here we learn about depictions of children in myth as well as life from infancy to adolescence. This beautifully illustrated book features such archaeological artifacts as toys and gaming pieces alongside images of them in use by children on ancient vases, coins, terracotta figurines, bronze and stone sculpture and marble grave monuments. Essays by eminent scholars in the fields of Greek social history, literature, archaeology, anthropology and art history discuss a wide range of topics including the burgeoning role of childhood studies in interdisciplinary studies, the status of children in Greek culture, the evolution of attitudes toward children from the Bronze Age to the Hellenistic period as documented by literature and art, the relationships of fathers and sons and mothers and daughters and the roles of cult practice and death in a child's existence. This delightful book illuminates what is most universal and specific about childhood in ancient Greece and examines childhood's effects on Greek life and culture, the foundation on which Western civilization has been based.

**Menander, New Comedy and the Visual** Antonis K. Petrides, 2014-11-06. This book argues that New Comedy has a far richer performance texture than has previously been recognised. Offering close readings of all the major plays of Menander, it shows how intertextuality, the sustained dialogue of New Comedy performance with the diverse ideological, philosophical, literary and theatrical discourses of contemporary polis culture, is crucial in creating semantic depth and thus offsetting the impression that the plots are simplistic love stories with no political or ideological resonances. It also explores how the visual aspect of the plays' *opsis* is

just as important as any verbal means of signification a phenomenon termed intervisuality examining in particular depth the ways in which the mask can infuse various systems of reference into the play Masks like the panchr stos neaniskos the all perfect youth for example are now full of meaning thus with their ideologically marked physiognomies they can be strong instigators of literary and cultural allusion
