Fantasies of the Master Race Ward Churchill, 1998 Chosen an Outstanding Book on the Subject of Human Rights in the United States by the Gustavus Myers Center for the Study of Human Rights In this volume of incisive essays Ward Churchill looks at representations of American Indians in literature and film delineating a history of cultural propaganda that has served to support the continued colonization of Native America During each phase of the genocide of American Indians the media has played a critical role in creating easily digestible stereotypes of Indians for popular consumption Literature about Indians was first written and published in order to provoke and sanctify warfare against them Later the focus changed to enlisting public support for civilizing the savages stripping them of their culture and assimilating them into the dominant society Now in the final stages of cultural genocide it is the appropriation and stereotyping of Native culture that establishes control over knowledge and truth The primary means by which this is accomplished is through the powerful publishing and film industries Whether they are the tragically doomed noble savages walking into the sunset of Dances With Wolves or Carlos Castaneda's Don Juan the exotic mythical Indians constitute no threat to the established order Literature and art crafted by the dominant culture are an insidious political force disinforming people who might otherwise develop a clearer understanding of indigenous struggles for justice and freedom This book is offered to counter that deception and to move people to take action on issues confronting American Indians today

Methods explores retranslation from a variety of aspects and reflects methodological and theoretical developments in the field. Featuring eleven chapters each offering a unique approach, the book presents a well-rounded analysis of contemporary issues in retranslation. It brings together case studies and examples from a range of contexts including France, the UK, Spain, the US, Brazil, Greece, Poland, modern Turkey, and the Ottoman Empire. The chapters highlight a diversity of cultural settings and illustrate the assumptions and epistemologies underlying the manifestations of retranslation in various cultures and time periods. The book expressly challenges a Eurocentric view and treats retranslation in all of its complexity by using a variety of methods including quantitative and statistical analysis, bibliographical studies, reception analysis, film analysis, and musicological, paratextual, textual, and norm analysis. The chapters further show the dominant effect of ideology on macro and micro translation decisions, which comes into sharp relief in the specific context of retranslation.

History as Mystery Michael Parenti, 2016-08-22. In a lively challenge to mainstream history, Michael Parenti does battle with a number of mass-marketed historical myths. He shows how history's victors distort and suppress the documentary record in order to perpetuate their power and privilege. And he demonstrates how historians are influenced by the professional and class environment in which they work. Pursuing themes ranging from antiquity to modern times, from the Inquisition and Joan of Arc to the anti-labor bias of present-day history books, *History as Mystery* demonstrates how past and present can inform each other and how history can be a truly exciting and engaging subject. Michael Parenti, always provocative and eloquent, gives us a lively as well as valuable critique of orthodoxy posing as history. Howard Zinn, author of *A People's History of the United States*, deserves to become an instant classic. Bertell Ollman, author of *Dialectical Investigations*, Those who keep secret the past and lie about it condemn us to repeat it. Michael Parenti unveils the history of falsified history from the early Christian church to the present, a fascinating, darkly revelatory tale. Daniel Ellsberg, author of *The Pentagon Papers*, Solid is surely controversial stuff. Kirkus.
