The Artisans of Banaras Nita Kumar, 2017-03-14 Nita Kumar offers an evocative and sensitive portrayal of rarely explored aspects of Hindu culture through her analysis of the way leisure time is used by Hindu and Muslim artisans of Banaras the weavers metalworkers and woodworkers Music festivals the place of physical culture and the importance of going to the outer side all are examined as Kumar looks at changes that have occurred in leisure time activities over the last century The discussion raises questions of the cultural and conceptual aspects of working class life the role of fun and play in Indian thought the importance of public activities in terms of personal identity and the meaning of an Indian city to its residents This analysis turns away from the usual models of Hindu Muslim conflict by seeing divisions based on occupation income level education and urban neighborhood as more relevant for the construction of identity than those based on religion or community Kumar draws her information from police station records Hindi newspapers and periodicals publications of local individuals and organizations oral history and ethnographic data Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while

Routledge Companion to Global Heritage Conservation Vinayak Bharne, Trudi Sandmeier, 2019-02-12. The act of identifying, protecting, restoring, and reusing buildings, districts, and built landscapes of historic and cultural significance is at its best a reflective and consequential process of urban and socio-economic reform. It has the potential to reconcile conflicting memories, meanings, and cultural tensions, bridging and expanding the perceived boundaries of multiple disciplines towards bigger aspirations of city making and social justice. How and where do such aspirations overlap and differ across nations and societies across the world? In places with different histories, governance structures, regulatory stringency, and populist dispositions, who are the specific players and what are the actual processes that bring about bigger and deeper change beyond just the conservation of an architectural or urban entity of perceived value? This collection of scholarly articles by theorists, academics, and practitioners explores the global complexity, guises, and potential of heritage conservation. Going from Tokyo to Cairo, Shenzhen to Rome, and Delhi to Moscow, this volume examines a vast range of topics: indigenous habitats, urban cores, vernacular infrastructure, colonial towns, squatters, burial sites, war zones, and modern landmarks. It surfaces numerous inherent issues: water stress, deforestation, social oppression, poverty, religion, immigration, and polity, expanding the definitions of heritage conservation as both a professional discipline and socio-cultural catalyst. This book argues that the intellectual and praxis limits of heritage conservation as the agency of reading, defining, and intervening with built heritage can be expansive, aimed at bigger positive change beyond a specific subject or object, plural, enmeshed with multiple fields and specializations, and empathetic, born from the actual socio-political realities of a place.

We Shall See About It Ambrosine Aureliano, 2013-12-26. We Shall See About It is the singular and fantastic tale of a well-versed chit and the hazards she confronts in a botanic garden. Watch as Cliff sallies forth to do battle with peevish mythical beings and surly nightmarish beasts. Squirm as she takes on the most caustically fearsome creature of all: her Great aunt Vestia at teatime. Thrill to her adventures which include four quarrelsome cats who would prefer to be elsewhere and a petulant Shih Tzu who would rather be napping. Salivate while any number of delectable pastries are described and Gawk in wonder when Cliff is disabused of any iffy notions she might have had about life being a cakewalk. With elements of Greek mythology and Hindu iconography thrown in, it's certain to be a piquant account worth the reading. Or at least the skimming. Possibly a cursory glance or two while flopped out on the sofa. A choice no longer has to be made between cates and dainties because We Shall See About It dishes out ample servings of both.

Banaras Rana Singh, 2009-10-02. Narrating the making of the Hindus' most sacred and heritage city of India, Banaras, this book will serve as lead reference and insightful reading for understanding the cultural complexities, archetypal connotations, rituals, and vivid heritagescapes that maintain India's pride of history and culture.
