On The Outside Looking In A Year In An Inner City High School:

On the Outside Looking Cristina Rathbone,1999-02-01 Chronicles a reporter's year at West Side High School in New York City

All Together Now Richard D. Kahlenberg,2004-05-13 This provocative book asks a simple question since we know that middle class schools tend to work best why not give every child in America the opportunity to attend a public school in which the majority of students come from middle class households Economically integrated schools the author argues will do far more to promote achievement and equal opportunity than vouchers standards class size reduction or any of the other leading education proposals on the left and right that seek to make separate but equal schools work Building on two recent education trends the decline in racial desegregation as a legal tool and the movement toward greater public school choice All Together Now provides a blueprint for creating schools that educate children from various backgrounds under one roof Concurring with the concerns of voucher proponents about the unfairness of trapping poor kids in failing schools the book provides a practical viable and legally sound plan for promoting economic and racial integration among public schools

Freaks, Geeks, and Cool Kids Murray Milner Jr.,2013-04-15 In this timely and insightful book award winning sociologist Murray Milner tries to understand why teenagers behave the way they do Drawing upon two years of intensive fieldwork in one high school and 300 written interviews about high schools across the country he argues that consumer culture has greatly impacted the way our youth relate to one another and understand themselves and society He also suggests that the status systems in high schools are in and of themselves an important contributing factor to the creation and maintenance of consumer capitalism explaining the importance of designer jeans and designer drugs in an effort to be the coolest kid in the class

Freaks, Geeks, and Cool Kids Murray Milner,2015-08-20 In *Freaks Geeks and Cool Kids* Second Edition award winning sociologist Murray Milner tries to understand why teenagers behave the way they do The first edition drew upon two years of intensive fieldwork in one high school and 300 written interviews about high schools across the country where he argued that consumer culture greatly impacts the way our youth relate to one another and understand themselves and society Milner now expands on that concept with a new year of fieldwork fifteen years after he began He has uncovered in teens a move away from consumerism and towards the cultural capital of information in a time of social media and standardized tests

A World Apart Cristina Rathbone, 2006-06-13 Life in a women s prison is full of surprises writes Cristina Rathbone in her landmark account of life at MCI Framingham And so it is After two intense court battles with prison officials Rathbone gained unprecedented access to the otherwise invisible women of the oldest running women s prison in America The picture that emerges is both astounding and enraging Women reveal the agonies of separation from family and the prevalence of depression and of sexual predation and institutional malaise behind bars But they also share their more personal hopes and concerns There is horror in prison for sure but Rathbone insists there is also humor and romance and downright bloody mindedness Getting beyond the political to the personal A World Apart is both a triumph of empathy and a searing indictment

of a system that has overlooked the plight of women in prison for far too long At the center of the book is Denise a mother serving five years for a first time nonviolent drug offense Denise s son is nine and obsessed with Beanie Babies when she first arrives in prison He is fourteen and in prison himself by the time she is finally released As Denise struggles to reconcile life in prison with the realities of her son s excessive freedom on the outside we meet women like Julie who gets through her time by distracting herself with flirtatious often salacious relationships with male correctional officers Louise who keeps herself going by selling makeup and personalized food packages on the prison black market Chris whose mental illness leads her to kill herself in prison and Susan who after thirteen years of intermittent incarceration has come to think of MCI Framingham as home Fearlessly truthful and revelatory *A World Apart* is a major work of investigative journalism and social justice

Whose Kids Are They Anyway? Raymond R. Roberts, 2010-11-01 Raymond R Roberts makes a liberal s case for teaching religion and morality in public schools by first examining the intersection of religion and public education He shows how proposals for moral education in public schools are shaped by definitions of religion He argues that the public education s critics overstate the failures of public education because they examine public schools in isolation from negative trends in the family the economy the media etc From there he describes how a theory of spheres of influence gives us a better perspective from which to understand public education including its relationship with religion Outside Looking in Mary

Battle, 2015-04-03 This study explores the various ways in which parental involvement can help to increase student academic success More specifically this analysis is based on the notions that 1 parent involvement in inner city schools present unique challenges that are different from the traditional middle class perspective 2 there is value in a cooperative approach between parents teachers and administrators that places the student at the center of each major discussion and decision and 3 illustrates that parental involvement is a real perspective and not just rhetorical jargon Although the focus of this book is in increasing parent involvement in inner city schools readers must be mindful that the ultimate objective for this work and others like it is the successful educating of all children so that they graduate from high school and move into higher

education or into the workforce Parent involvement by itself will not ensure academic success of children but combined with many strategies including a clear understanding of the differences between an inner city school environment and a middle class school setting effective teaching sound and relevant curricula safe and secure learning environment and visionary leadership children attending inner city schools can be just as effective as those in middle class school settings *Urban Teaching* Lois Weiner, Daniel Jerome, 2016-02-19 This significantly revised edition will help prospective and new city teachers navigate the realities of city teaching Now the classic introduction to urban teaching this book explains how global national state and local reforms have impacted what teachers need to know to not only survive but to do their jobs well The Third Edition melds new insights and perspectives from Daniel Jerome New York City teacher social justice activist and parent of colour with what Lois Weiner a seasoned teacher educator has learned from research and decades of experience working with city teachers and students in a variety of settings Together the authors explore how successful teachers deal with the complexity difficulty and rewarding challenges of teaching in today s city schools **Splashes of Living Water** Louise L.
