Keller, 2021-12-14 Brief narratives or medieval precursors to the modern short story are compositions couched in the form of a tale of reasonable short length They began with writings in Latin and eventually made their way into the vernacular languages of Europe They include the fable the apologue the exemplum the saint's life the miracle the biography the adventure tale the romance the jest and the anecdote among others In Spain the oldest extant brief narratives in written form are in verse and date from the late twelfth and early thirteenth centuries The earliest examples include *La vida de Santa Maria Egipcíaca* and *El libro dels tres reys d'Orient* Both are concise enough to be read in one sitting and were probably read before or after meals as entertainment In *Pious Brief Narrative in Medieval Castilian and Galician Verse* John E. Keller studies the structure of the pious brief narrative including such works as the *Cantigas de Santa Maria* of Alfonso X and *Gonzalo de Berceo's* *Milagros de Nuestra Señora* among others He examines which narrative techniques were employed by their authors including versification music and the pictorial arts as aids to narration Using nine basic elements plot setting conflict characterization theme style effect point of view and mood or tone Keller shows how writers in medieval Spain employed more sophisticated uses of these techniques than has previously been recognized

the great European libraries To redress this woeful neglect two noted scholars here present a generous selection from this great visual treasury including many examples never before reproduced John E Keller and Richard P Kinkade have chosen five representative works dating from the mid thirteenth century to the late fifteenth to illustrate the richness of early Spanish narrative art Together these five works encompass the entire range of narrative techniques and iconography to be found in medieval Spain and reflect both foreign and native Spanish artistic tendencies The authors analyses of the relation between verbalizations and visualizations will provide students of medieval art and literature a wealth of new information expanding our knowledge of this fascinating period The beauty of many of the illuminations speaks for itself

Gonzalo de Berceo and the Latin Miracles of the Virgin Robert Boenig, 2016-04-22 In Gonzalo de Berceo and the Latin Miracles of the Virgin Patricia Timmons and Robert Boenig present the first English translation of a twelfth century Latin collection of miracles that Berceo the first named poet in the Spanish language used as a source for his thirteenth century Spanish collection Milagros de Nuestra Señora Using the MS Thott 128 close to the one Berceo must have used Timmons and Boenig provide both translation and analysis exploring the Latin Miracles suggesting how it was used as a sacred text and placing it within the history of Christians evolving understanding of the Virgin's role in their lives In addition this volume explores Berceo's reaction to the Latin Miracles demonstrating that he reacted creatively to his source texts as well as to changes in Church

culture and governance that occurred between the composition of Latin Miracles and the thirteenth century translating it across both language and culture Accessible and useful to students and scholars of medieval and Spanish studies this book includes the original Latin text translations of the Latin Miracles including analyses of Saint Peter and the Lustful Monk The Little Jewish Boy and The Jews of Toledo **In the Doorway of All Worlds** Robin M Bower,2024-05-01 The thirteenth century poet Gonzalo de Berceo is the first named author of Old Spanish letters and the most prolific contributor to the emergence of the body of learned vernacular verse known as the *mester de clerecía* In the Doorway of All Worlds focuses on the four hagiographies Berceo produced as a unified body of poetic expression and world building Robin M Bower traces the poet's intricate juxtaposition of contraries to shed light on a poetic world that will innovate a deceptively simple poetic vernacular and elevate its capacity to express nuance power and mystery The book examines the entanglements that bind formal and lexical choices the inscription of performance sites and audiences and problematic source authority It argues that Berceo's elaboration of a poetic vernacular was wholly enmeshed in the immediate human experiential world and the diverse cultural religious linguistic and literary contexts that framed it The book also highlights how Berceo invented a literary vernacular that befits the spoken idiom not only for the crafting of learned fictions but for giving linguistic shape to the ineffable In the Doorway of All Worlds ultimately reveals how Berceo freed the meanings trapped in relics shrines and the impenetrable texts from which he translated the saints to circulate in a new time **Miracles of Our Lady** Gonzalo de Berceo,2021-12-15 Miracle tales in which people are rewarded for piety or punished for sin through the intervention of the Virgin Mary were a popular literary form all through the Middle Ages *Milagros de Nuestra Señora* a collection of such stories by the Spanish secular priest Gonzalo de Berceo is a premier example of this genre it is also regarded as one of the four most important texts of medieval Spain Difficulties in translating this work have made it unavailable in English except in fragments now Spanish language scholars Richard Terry Mount and Annette Grant Cash have made the entire work accessible to English readers for the first time Berceo's miracle tales use the verse form *cuaderna vía* fourfold way of fully rhymed quatrains which Berceo may even have invented and are told in the language of the common man They were written to be read aloud most likely to an audience of pilgrims and are an outstanding example of oral religious narrative The total work comprises twenty five miracles preceded by a renowned Introduction that celebrates the Virgin in rich symbolic allegory Mount and Cash's translation is highly readable yet it retains the original meaning and captures Berceo's colloquial style and medieval nuances An introduction placing the miracles in their medieval context and a bibliography complement the text
