

The political transformation of the Brazilian Catholic Church

THOMAS C. HALLINAN

Political Transformation Of The Brazilian Catholic Church

Peter McDonough, Amaury DeSouza

Political Transformation Of The Brazilian Catholic Church:

The Political Transformation of the Brazilian Catholic Church Thomas C. Bruneau, 1974-02-28 This 1974 book provides an institutional and historical analysis of the Brazilian Church focusing in particular on its political role in relation to the state and society There is a great interest in the Catholic Church in Latin America both as an institution and as a progressive social force The author pays special attention to the part played by the Church in the Brazilian Revolution before 1964 By analyzing its internal reactions to changes in the external political order he explains why the Church regressed after 1964 and from this develops an explanation of how change took place in the Church The various threads of Professor Bruneau's analysis are brought together in the final section of the book Here it is shown that conflicts between Church and state are inevitable and that they promise to change the whole system of which the Church has always been an integral part *The political*

transformation of the Brazilian Catholic Church Thomas Charles Bruneau, 1989 **The Catholic Church in Brazil's**

Political Transition Thomas Griffin Sanders, 1980

The Churches and Democracy in Brazil Rudolf von

Sinner, 2012-05-04 Brazil is a rapidly emerging country Brazilian theology namely the Theology of Liberation has become well known in the 1970s and 1980s The politically active Base Ecclesial Communities and the progressive posture of the Roman Catholic Church contrasted with a steadily growing number of evangelicals mostly aligned with the military regime but attractive precisely to the poor After democratic transition in the mid 1980s the context changed considerably Democracy growing religious pluralism and mobility a vibrant civil society the political ascension of the Worker's Party and growing wealth albeit within a continuously wide social gap are some of the elements that show the need of a new approach to theology It must be a theology that is both critical and constructive resisting and cooperative a theology that is able to give orientation to the churches valuing and encouraging their contribution in society while avoiding attempts of imposition The Churches and Democracy in Brazil the fruit of years of interdisciplinary study of the Brazilian context and its main churches and theology makes its case for an ecumenically articulated public theology It seeks inspiration mainly in Luther and Lutheran theology emphasizing human dignity freedom trust the disposition to serve and the ability to endure the ambiguities of reality as well as a fresh interpretation of the doctrine of the two regiments These are the fundamental elements of what makes human beings full members of the body politic citizenship their right to have rights and to be able to effectively live them together with their corresponding duties in a move of growing political participation conscious of their religious motivation in view of the commonweal **Catolicismo Brasileiro Em Época de Transição (The Political**

Transformation of the Brazilian Catholic Church, Portug. Trad. de Margarida Oliva.). Thomas C. Bruneau, 1974

The Catholic Church and Political Change in Chile, 1920-1978 Brian H. Smith, 1979 *The Brazilian Popular Church and the Crisis of Modernity* Manuel A. Vasquez, 1998 This 1997 study explores one of the most dramatic current interactions between religion and politics the development of progressive Catholicism in Latin America In particular it examines economic

social and religious obstacles to progressive theology in Brazil This popular church built a utopian vision of social emancipation drawing on Catholic social thought humanistic Marxism and existentialism It was a major democratizing force as Brazil emerged from dictatorship in the late 1970s In the 1980s however the popular appeal of progressive Catholicism came under threat Focusing on a Catholic community near Rio de Janeiro Manuel A V squez s incisive study shows how economic and political changes have affected religious practices and argues that the plight of progressive Catholicism in Brazil forms part of a wider crisis of modernity and of humanist discourses *Political Liberalization In Brazil* Wayne A Selcher, 2019-07-09 The civilian government inaugurated in Brazil in March 1985 following twenty one years of military rule is the culmination of a slow process of liberalization that has brought greater freedom of political expression organization and activity How the Sarney government responds to the challenges it faces and the institutional choices it must make will shape Brazil s political evolution for years to come Should Brazil develop a democratic system it would be the third most populous democracy in the world Political trends in Brazil are therefore of considerable significance to Latin America and the United States In this comprehensive analysis of the forces pushing democratization forward those opposing it and the contradictions created by the ad hoc nature of the dynamics between the two the contributors examine the legacy of two decades of authoritarian rule the choices facing the civilian government and possible future developments **The Politics of Population in Brazil** Peter McDonough, Amaury DeSouza, 2014-08-27 The population of Brazil increased tenfold from 10 to over 100 million between 1880 and 1980 nearly half of this increase occurring since the end of World War II The Politics of Population in Brazil examines the attitudes toward population planning of Brazilian government officials and other elites bishops politicians labor leaders and business owners in comparison with mass public opinion The authors findings that elites seriously underestimate the desire for family planning services while the public views birth control as a basic issue represent an important contribution on a timely issue A major reason for this disparity is that the elites tend to define the issue as a matter of national power and collective growth and the public sees it as a bread and butter question affecting the daily lives of families McDonough and DeSouza document not only the real gulf between elite and mass opinion but also the propensity of the elites to exaggerate this gap through their stereotyping of public opinion as conservative and disinterested in family planning Despite these differences the authors demonstrate that population planning is less conflict ridden than many other controversies in Brazilian politics and probably more amenable to piecemeal bargaining than some earlier studies suggest In part this is because attitudes on the issue are not closely identified with opinions regarding left versus right disputes In addition for the public in general religious sentiment affects attitudes toward family planning only indirectly This separation which reflects the historical lack of penetration of Brazilian society on the part of the church further attenuates the issue s potential for galvanizing deep seated antagonisms As the authors note this situation stands in contrast to the fierce debates that moral issues have generated in Spain and Ireland The study is noteworthy not only for its original approach the

incorporation of mass and elite data and the departure from the standard concerns with fertility determinants in population but also for its sophisticated methodology and lucid presentation **Religious Conflict in Brazil** Erika Helgen, 2020-06-23 The story of how Brazilian Catholics and Protestants confronted one of the greatest shocks to the Latin American religious system in its 500 year history This innovative study explores the transition in Brazil from a hegemonically Catholic society to a religiously pluralistic society With sensitivity Erika Helgen shows that the rise of religious pluralism was fraught with conflict and violence as Catholic bishops priests and friars organized intense campaigns against Protestantism These episodes of religious violence were not isolated outbursts of reactionary rage but rather formed part of a longer process through which religious groups articulated their vision for Brazil's national future **Brazil** Riordan Roett, 1999-10-30 Brazil occupying nearly 50 percent of the South American continent has the largest economy and is a major political power in Latin America In this updated and expanded fifth edition of his text Roett provides a thorough introduction to the dynamics shaping Brazilian politics economics and society the difficult transition from military to civilian government in the 1980s and the social issues facing Brazilian leaders as the country enters the 21st century As Roett makes clear despite years of economic growth and industrialization by the late 1990s Brazil still faces continued and growing challenges to its social cohesiveness and stability Without greater attention to the basic needs of the Brazilian poor the fabric of democracy in the New Republic faces formidable challenges A thorough and engaging resource for all students and scholars of contemporary Latin America and more specifically Brazil *Participatory Democracy in Brazil* J. Ricardo Tranjan, 2015-12-17 The largely successful trajectory of participatory democracy in post 1988 Brazil is well documented but much less is known about its origins in the 1970s and early 1980s In *Participatory Democracy in Brazil* Socioeconomic and Political Origins J Ricardo Tranjan recounts the creation of participatory democracy in Brazil He positions the well known Porto Alegre participatory budgeting at the end of three interrelated and partially overlapping processes a series of incremental steps toward broader political participation taking place throughout the twentieth century short lived and only partially successful attempts to promote citizen participation in municipal administration in the 1970s and setbacks restricting direct citizen participation in the 1980s What emerges is a clearly delineated history of how socioeconomic contexts shaped Brazil's first participatory administrations Tranjan first examines Brazil's long history of institutional exclusion of certain segments of the population and controlled inclusion of others actions that fueled nationwide movements calling for direct citizen participation in the 1960s He then presents three case studies of municipal administrations in the late 1970s and early 1980s that foreground the impact of socioeconomic factors in the emergence design and outcome of participatory initiatives The contrast of these precursory experiences with the internationally known 1990s participatory models shows how participatory ideals and practices responded to the changing institutional context of the 1980s The final part of his analysis places developments in participatory discourses and practices in the 1980s within the context of national level political institutional changes in doing

so he helps bridge the gap between the local level participatory democracy and democratization literatures **Radical Christianity** Christopher Rowland, 2004-12-09 At different times and places Christian ideas have had a radical critical role and have served as a basis for programs of social change This concise and clearly written book documents the history of radical Christianity by discussing some of the most important developments and figures from the millenarian movements of early Christianity to the liberation theology of today Christopher Rowland begins by discussing the character and transformation of early Christian ideas and the ongoing patterns of protest against the status quo Subsequent chapters deal with the legacy of the Apocalypse and with the work of Thomas Muenzer and Gerrard Winstanley A final chapter on liberation theology examines the role of religion in Latin America today where basic Christian communities have emerged as power houses of social and political reform Radical Christianity is a reading of recovery which shows that social criticism and hope for a better world are integral features of the Christian tradition The book will be of great interest to students of religion and to anyone concerned with the role of religious ideas in past and present day societies **Brazil, a Country Study** United States. Department of the Army, 1983 General study of Brazil covers history demographic aspects and geographical aspects ethnic groups social structure social change religious practice education health the economy economic policies industrial sector agricultural sector banking system monetary policies trade government politics political parties international relations military service defence administration of justice Bibliography glossary maps organigram photographs statistical tables **Catholicism** John T. McGreevy, 2022-09-06 A magisterial history of the centuries long conflict between progress and tradition in the world's largest international institution The story of Roman Catholicism has never followed a singular path In no time period has this been more true than over the last two centuries Beginning with the French Revolution extending to the Second Vatican Council in the 1960s and concluding with present day crises John T McGreevy chronicles the dramatic upheavals and internal divisions shaping the most multicultural multilingual and global institution in the world Through powerful individual stories and sweeping birds eye views Catholicism provides a mesmerizing assessment of the Church's complex role in modern history both shaper and follower of the politics of nation states both conservator of hierarchies and evangelizer of egalitarianism McGreevy documents the hopes and ambitions of European missionaries building churches and schools in all corners of the world African Catholics fighting for political and religious independence Latin American Catholics attracted to a theology of liberation and Polish and South Korean Catholics demanding democratic governments He includes a vast cast of riveting characters known and unknown including the Mexican revolutionary Fr Servando Teresa de Mier Daniel O Connell hero of Irish emancipation Sr Josephine Bakhita a formerly enslaved Sudanese nun Chinese statesman Ma Xiaobang French philosopher and reformer Jacques Maritain German Jewish philosopher and convert Edith Stein John Paul II Polish pope and opponent of communism Gustavo Guti rrez Peruvian founder of liberation theology and French American patron of modern art Dominique de Menil Throughout this essential volume McGreevy details

currents of reform within the Church as well as movements protective of traditional customs and beliefs Conflicts with political leaders and a devotional revival in the nineteenth century the experiences of decolonization after World War II and the Second Vatican Council in the twentieth century and the trauma of clerical sexual abuse in the twenty first all demonstrate how religion shapes our modern world Finally McGreevy addresses the challenges faced by Pope Francis as he struggles to unite the over one billion members of the world s largest religious community **Pentecostalism in Brazil** A. Corten,1999-06-23 With its exalted emotionality Pentecostalism is a widespread religious movement in Latin America and Africa It is a blend of Methodism and African religious culture which arouses the passions of the poorest Brazilian masses Pentecostal conversion is experienced as a sudden break which radically transforms the life of these sectors of the population Pentecostalism is an Utopia of equality love and emotion which is staged during the worship service However it is also characterized by authoritarian features Pentecostalism is slowly eroding the foundation of Western political categories

The ^APolitics of Military Rule in Brazil, 1964-1985 Thomas E. Skidmore,1990-03-08 A thorough study of Brazilian politics from 1930 to 1964 this book begins with Getulio Vargas fifteen year rule the latter part of which was a virtual dictatorship and traces the following years of economic difficulty and political turbulence culminating in the explosive coup d tat that overthrew the constitutional government of President Jo o Goulart and profoundly changed the nature of Brazil s political institutions Now Skidmore has revisited his original work to reflect on learning the history of Brazil and the writing and reception of this work while James N Green provides a new foreword discussing its formidable place in the historical literature of Brazil A Future for Religion? William H. Swatos,1993 In the 1960s many sociologists proclaimed traditional religion to be in its death throes But just as secularization gained nearly universal acceptance among scholars religious resurgence burst forth from many directions new religious movements and the growth of Islamic fundamentalism for example In A Future for Religion contributors ask whether if such dynamic forces are at work is religion really dying They discuss issues usually excluded from books on the sociology of religion including religious experience emotional renewal religion and the body **Latin American Liberation Theology** David Tombs,2021-11-08 David Tombs offers an accessible introduction to the theological challenges raised by Latin American Liberation and a new contribution to how these challenges might be understood as a chronological sequence Liberation theology emerged in the 1960s in Latin America and thrived until it reached a crisis in the 1990s This work traces the distinct developments in thought through the decades thus presenting a contextual theology The book is divided into five main sections the historical role of the church from Columbus s arrival in 1492 until the Cuban revolution of 1959 the reform and renewal decade of the 1960s the transitional decade of the 1970s the revision and redirection of liberation theology in the 1980s and a crisis of relevance in the 1990s This book offers insights into liberation theology s profound contributions for any socially engaged theology of the future and is crucial to understanding liberation theology and its legacies This publication has also been published in paperback please click here for

details *Traditions of Eloquence* Cinthia Gannett, John Brereton, 2016-05-25 This groundbreaking collection explores the important ways Jesuits have employed rhetoric the ancient art of persuasion and the current art of communications from the sixteenth century to the present Much of the history of how Jesuit traditions contributed to the development of rhetorical theory and pedagogy has been lost effaced or dispersed As a result those interested in Jesuit education and higher education in the United States as well as scholars and teachers of rhetoric are often unaware of this living 450 year old tradition Written by highly regarded scholars of rhetoric composition education philosophy and history many based at Jesuit colleges and universities the essays in this volume explore the tradition of Jesuit rhetorical education that is constructing a more usable past and a viable future for eloquentia perfecta the Jesuits chief aim for the liberal arts Intended to foster eloquence across the curriculum and into the world beyond Jesuit rhetoric integrates intellectual rigor broad knowledge civic action and spiritual discernment as the chief goals of the educational experience Consummate scholars and rhetors the early Jesuits employed all the intellectual and language arts as contemplatives in action preaching and undertaking missionary educational and charitable works in the world The study pedagogy and practice of classical grammar and rhetoric adapted to Christian humanism naturally provided a central focus of this powerful educational system as part of the Jesuit commitment to the Ministries of the Word This book traces the development of Jesuit rhetoric in Renaissance Europe follows its expansion to the United States and documents its reemergence on campuses and in scholarly discussions across America in the twenty first century *Traditions of Eloquence* provides a wellspring of insight into the past present and future of Jesuit rhetorical traditions In a period of ongoing reformulations and applications of Jesuit educational mission and identity this collection of compelling essays helps provide historical context a sense of continuity in current practice and a platform for creating future curricula and pedagogy Moreover it is a valuable resource for anyone interested in understanding a core aspect of the Jesuit educational heritage
