Politics Of Regime Transitions:

The Politics Of Regime Transitions Ronald A Francisco, 2019-06-25 This volume evaluates political and economic reforms that occurred during the forty regime transitions. It provides a historical overview and considers the collapse of the regime, the early transition, democratization, and economic reform. The Politics Of Regime Transitions Ronald A Francisco, 2000 In this book Ronald Francisco traces political transformation from its roots to its results in countries ranging from Argentina to Haiti, Iran, South Korea, and Ukraine. He analyzes how regimes fail, how new ones arise, and what it takes to forge stability and democratic government. Following the political trajectories of forty-five different countries, Francisco highlights the process of transition from collapse to consolidation of power, showing the sober realities in between ethnic strife, economic disruption, and the magnet of nationalism and fundamental religion within emerging polities. Offering a balanced mix of theory and experience drawn directly from an unstable international context, this book will serve those interested in following

developments in the complex and changing arena of comparative politics. **Clan Politics and Regime Transition in Central Asia** Kathleen Collins, 2006-04-03 This book is a study of the role of clan networks in Central Asia from the early twentieth century through 2004. Exploring the social, economic, and historical roots of clans and their political role and political transformation in the Soviet and post-Soviet periods, it argues that clans are informal political actors that are critical to understanding politics in this region. The book demonstrates that the Soviet system was far less successful in transforming and controlling Central Asian society and in its policy of eradicating clan identities than has often been assumed. In order to understand Central Asian politics and their economies, scholars and policy makers must take into account the powerful role of these informal groups, how they adapt and change over time, and how they may constrain or undermine democratization in this strategic region.

Regime Transition and the Judicial Politics of Enmity Justine Guichard, 2016-04-08 Among the societies that experienced a political transition away from authoritarianism in the 1980s, South Korea is known as a paragon of successful democratization. This achievement is considered to be intimately tied to a new institution introduced with the 1987 change of regime: intended to safeguard fundamental norms and rights, the Constitutional Court of Korea. While constitutional justice is largely celebrated for having achieved both purposes, this book proposes an innovative and critical account of the court's role. Relying on an interpretive analysis of jurisprudence, it uncovers the ambivalence with which the court has intervened in the major dispute opposing the state and parts of civil society after the transition: redefining enmity. In response to this challenge, constitutional justice has produced both liberal and illiberal outcomes: promoting the rule of law and basic rights while reinforcing the mechanisms of exclusion bounding South Korean democracy in the name of national security.

Victim Organisations and the Politics of Reparation

Heidy Rombouts, 2004 Reparation for victims of gross and systematic human rights violations is a contemporary issue gaining increased attention in both national and international politics Post conflict societies have to face the legacies of the dark past and dealing with a large group of victims is one of them Transitional justice mechanisms trying to cope with the past should not overlook the issue of reparation This research demonstrates how reparation for victims of gross and systematic human rights violations differs from reparation for isolated violations The Rwandan case study unveils the role of victim organisations in and the competition and politicisation of the reparation debate Although reparation for victims is a crucial element in transitional justice it becomes clear that the way in which the reparation debate unfolds does not necessarily contribute to the peaceful future of a post conflict society This study argues that remedying the process and debate of the search for reparation will lead to an improved and more constructive reparation policy Heidy Rombouts is a legal and social scientist 1997 Master of Laws 1999 Master in Social and Political Sciences Catholic University of Leuven In 2004 she obtained a PhD degree in Social and Political Sciences at the University of Antwerp for her research on victim organisations and the politics of reparation For several years she has been conducting research on transitional justice human rights and post conflict situations including extensive field research in South Africa and Rwanda

Foreign Pressure and the Politics of Autocratic Survival

Abel Escribà-Folch, Joseph George Wright, 2015 Can coercive foreign policy destabilize autocratic regimes Can democracy be promoted from abroad This book examines how foreign policy tools such as aid economic sanctions human rights shaming and prosecutions and military intervention influence the survival of autocratic regimes Foreign pressure destabilizes autocracies through three mechanisms limiting the regime's capacity to maintain support undermining its repressive capacity and altering the expected utility of stepping down for political elites Foreign Pressure and the Politics of Autocratic Survival distinguishes between three types of autocracies personalist rule party based regimes and military dictatorships These distinct institutional settings

influence the dictators strategies for surviving in power as well as the propensity with which their leaders are punished after a regime transition Consequently the influence of foreign pressure varies across autocratic regime types Further the authors show that when foreign coercion destabilizes an autocracy this does not always lead to democratic regime change because different regimes breakdown in distinct ways While democratization is often equated with the demise of autocratic rule it is just one possible outcome after an autocratic regime collapses Many times instead of democratization externally induced regime collapse means that a new dictatorship replaces the old one This theory is tested against an extensive analysis of all dictatorships since 1946 and historical cases which trace the causal process in instances where foreign policy tools helped oust dictatorships Oxford Studies in Democratization is a series for scholars and students of comparative politics and related disciplines Volumes concentrate on the comparative study of the democratization process that accompanied the decline and termination of the cold war The geographical focus of the series is primarily Latin America the Caribbean Southern and Eastern Europe and relevant experiences in Africa and Asia The series editor is Laurence Whitehead Senior Research Fellow Nuffield College University of Oxford

Routledge Handbook of Latin American Politics Peter Kingstone, Deborah J. Yashar, 2013-03-05 Latin America has been one of the critical areas in the study of comparative politics The region s experiments with installing and deepening democracy and promoting alternative modes of economic development have generated intriguing and enduring empirical puzzles In turn Latin America s challenges continue to spawn original and vital work on central questions in comparative politics about the origins of democracy about the relationship between state and society about the nature of citizenship about the balance between state and market The richness and diversity of the study of Latin American politics makes it hard to stay abreast of the developments in the many sub literatures of the field The Routledge Handbook of Latin American Politics offers an intellectually rigorous overview of the state of the field and a thoughtful guide to the direction of future scholarship Kingstone and Yashar bring together the leading figures in the study of Latin America to present extensive empirical coverage new original research and a cutting edge examination of the central areas of inquiry in the region
