Polymer-supported Reactions in Organic Synthesis Philip Hodge, 1980 **Polymer Supported Chemical Reactions** P. Hodge, 1991 Polymer supported chemical reactions may include those using supported substrates reagents and catalysts and this report describes all three types In all cases the most frequent reason for the use of a polymeric support will be the ease of separation of the supported and the low molecular c099 species An additional indexed section containing several hundred abstracts from the Rapra Polymer Library database provides useful references for further reading **Polymer Supported**
