Hornik, Mikeal Carl Parsons, 2003 Since the iconoclastic controversies of the eighth and ninth centuries the visual arts have been the subject of much ecclesiastical discussion and contention In particular since the mid 1960s Protestant scholars and clergy have been paying more attention to the potential role of the visual arts in the theology and liturgy of the Christian Church As a result numerous programs were begun under a variety of nomenclature e g Religion and the Arts Theology and the Arts etc Most of the essays in this book were originally presented as part of the Fruit Symposium on Interpreting Christian Art held at Baylor University in October 2000 The symposium provided the opportunity to bring together scholars clergy and laity who are interested in the question of how religious art can contribute to the life of the contemporary Christian community The resulting essays are a rich fare in interdisciplinary exploration of Christian art by art historians theologians and biblical scholars Essayists include Margaret Miles Robin M Jensen Graydon F Snyder Charles Barber Anthony Cutler William M Jensen Paolo Berdini John W Cook and the editors Heidi J Hornik and Mikeal C Parsons

The Drawings of Bronzino Carmen Bambach, Agnolo Bronzino, Janet Cox-Rearick, George R. Goldner, Philippe Costamagna, Marzia Faietti, Elizabeth Pilliod, 2010 Drawings by the great Italian Mannerist painter and poet Agnolo Bronzino 1503 1572 are extremely rare This important and beautiful publication brings together for the first time nearly all of the sixty drawings attributed to this leading draftsman of the 16th century Each drawing is illustrated in color discussed in detail and shown with many comparative photographs Bronzino's technical virtuosity as a draftsman and his mastery of anatomy and perspective are vividly apparent in each stroke of the chalk pen or brush The younger generations of Florentine artists particularly admired Bronzino for his technical virtuosity as a painter and Giorgio Vasari praised him for his powers as a disegnatore designer and draftsman

Medici Women Gabrielle Langdon, 2006-01-01 The ducal court of Cosimo I de Medici in sixteenth century Florence was one of absolutist rule bound order Portraiture especially served the dynastic pretensions of the absolutist ruler Duke Cosimo and his consort Eleonora di Toledo and was part of a Herculean programme of propaganda to establish legitimacy and prestige for the new sixteenth century Florentine court In this engaging and original study Gabrielle Langdon analyses selected portraits of women by Jacopo Pontormo Agnolo Bronzino Alessandro Allori and other masters She defines their function as works of art as dynastic declarations and as encoded documents of court culture and propaganda illuminating Cosimo's conscious fashioning of his court portraiture in imitation of

Art Without an Author Marco Ruffini, 2011 Why is the history of art so often construed as a history of artists when its alleged focus is art This book responds to this question by examining Giorgio Vasari's Lives and the artist it features most centrally Michelangelo More than any other artist in the Lives Michelangelo exemplifies art as an expression of the individual Yet at the same time as this book aims to show the Lives fashions Michelangelo as the founder of a new academic era in which art develops collectively as a discipline Paradoxically Vasari's celebration of Michelangelo mobilizes a conception of art as teachable and transmissible that is antithetical to Michelangelo's aesthetic ideals and unique style Page 4 of cover

Revaluing Renaissance Art Gabriele Neher, Rupert Shepherd, 2017-11-22 This title was first published in 2000 Michelangelo gave his painting of Leda and the Swan to an apprentice rather than hand it over to the emissary of the Duke of Ferrara who had commissioned it He was apparently disgusted by the failure of the emissary who was probably more used to buying pigs than discussing art to accord the picture and the artist the value they deserved Any discussion of works of art and material culture implicitly assigns them a set of values Whether these values be monetary cultural or religious they tend to constrict the ways in which such works can be discussed The variety of potential forms of valuation becomes particularly apparent during the Italian Renaissance when relations between the visual arts and humanistic studies were undergoing rapid changes against an equally fluid social economic and political background In this volume 13 scholars explicitly examine some of the complex ways in which a variety of values might be associated with Italian Renaissance material culture Papers range from a consideration of the basic values of the materials employed by artists to the manifestation of cultural values in attitudes to dress and domestic devotion By illuminating some of the ways in which values were constructed they provide a broader context within which to evaluate Renaissance material culture

Pontormo's Frescos in San Lorenzo Massimo Firpo, 2021-07-19T15:16:00+02:00 In the choir of the Basilica of San Lorenzo a truly sacred temple of the Medici dynasty Pontormo painted a grandiose cycle of frescos between 1545 and 1556 which were then unfortunately destroyed in the mid 18th century Far earlier Giorgio Vasari issued a severe judgment on them that lasted into the modern day His was a dismissal motivated formally by artistic reasons but it concealed other more insidious ideological and religious motivations On the basis of drawings copies paintings and literary sources this study reconstructs the design and arrangement of the frescoes revealing them to have been inspired by a contemporary heterodox text one that was included in the Index in 1549 From a dense web of Florentine religious cultural and political life and its shifts in the middle decades of the century the political motivations underlying Vasari's commitment to transforming the doctrinal heresy from which those grandiose paintings had drawn inspiration into an artistic heresy emerge It was a commitment that after the conclusion of the Council of Trent risked reflecting upon the new Counter Reformist structure of Medici power
