Roman Imperialism In The Late Republic:

Roman Imperialism in the Late Republic E. Badian, 1968 *Roman Imperialism in the Late Republic* Ernst Badian, 1976
A Companion to Roman Imperialism, 2012-11-09 The Roman empire extended over three continents and all its lands came to share a common culture bequeathing a legacy vigorous even today A Companion to Roman Imperialism written by a distinguished body of scholars explores the extraordinary phenomenon of Rome's rise to empire to reveal the impact which this had on her subject peoples and on the Romans themselves The Companion analyses how Rome's internal affairs and international relations reacted on each other sometimes with violent results why some lands were annexed but others ignored or given up and the ways in which Rome's population and power elite evolved as former subjects east and west themselves became Romans and made their powerful contributions to Roman history and culture Contributors are Eric Adler Richard Alston Lea Beness Paul Burton Brian Campbell Arthur Eckstein Peter Edwell Tom Hillard Richard Hingley Benjamin Isaac Jos Luis Lopez Castro J Majbom Madsen Susan Mattern Sophie Mills David Potter Jonathan Prag Steven Rutledge Maurice Sartre John Serrati Tom Stevenson Martin Stone and James Thorne *Roman Imperialism in the Late Republic*, By E. Badian E. Badian, 1968 *Ancient Greece and Rome* Keith Hopwood, 1995 Sir Thomas Fairfax not Oliver Cromwell was creator and commander of Parliament's New Model Army from 1645 to 1650 Although Fairfax emerged as England's most successful commander of the 1640s this book challenges the orthodoxy that he was purely a military figure showing how he was not apolitical or disinterested in politics The book combines narrative and thematic approaches to explore the wider issues of popular allegiance puritan religion concepts of honour image reputation memory gender literature and Fairfax's relationship with Cromwell Black Tom delivers a groundbreaking examination of the transformative experience of the English revolution from the viewpoint of one of its leading yet most neglected participants It is the first modern academic study of Fairfax making it essential reading for university students as well as historians of the seventeenth century Its accessible style will appeal to a wider audience of those interested in the civil wars and interregnum more generally *Late Republican Rome, 88-31 BC*, 2023-07-20 This volume in the LACTOR Sourcebooks in Ancient History series features offers a generous selection of primary texts on Late Republican Rome 88-31 BC with accompanying maps a glossary and note on the sources concordances and appendices It provides for the needs of students at schools and universities who are studying ancient history in English translation and has been written and reviewed by experienced teachers The texts selected include extracts from the important literary sources as well as some key inscriptions some of which were previously difficult for students to access *The Crowd in Rome in the Late Republic* Fergus Millar, 1998 A major work on the power of the crowd **Roman Imperialism** Paul J. Burton, 2019-05-13 Rome engaged in military and diplomatic expansionistic state behavior which we now describe as imperialism since well before the appearance of ancient sources describing this activity Over the course of at least 800 years the Romans established and maintained a Mediterranean wide empire from Spain to Syria and sometimes

farther east and from the North Sea to North Africa How and why they did this is a perennial source of scholarly controversy Earlier debates over whether Rome was an aggressive or defensive imperial state have progressed to theoretically informed discussions of the extent to which system level or discursive pressures shaped the Roman Empire Roman imperialism studies now encompass such ancillary subfields as Roman frontier studies and Romanization Roman Colonies in Republic and Empire Amanda Jo Coles, 2020-06-22 The Romans founded colonies throughout Italy and the provinces from the early Republic through the high Empire Far from being mere bulwarks of empire these colonies were established by diverse groups or magistrates for a range of reasons that responded to the cultural and political problems faced by the contemporary Roman state and populace This project traces the diachronic changes in colonial foundation practices by contextualizing the literary epigraphic archaeological and numismatic evidence with the overall perspective that evidence from one period of colonization should not be used analogistically to explain gaps in the evidence for a different period The Roman colonies were not necessarily little Romes either structurally juridically or religiously and therefore their role in the spread of Roman culture or the exercise of Roman imperialism was more complex than is sometimes acknowledged *Decolonizing Roman Imperialism* Danielle Hyeonah Lambert, 2024-10-17 The framework of Romanization developed by Haverfield in 1905 that Romans civilized their imperial subjects particularly those in the barbarian western provinces remains hegemonic notwithstanding multiple attempts at revisionism It has been reasserted rejected or modified but still frames the debate Decolonizing Roman Imperialism investigates how the postcolonial challenge to decolonize the production of historical knowledge has motivated Roman scholars to question the paradigm of Romanization to review its historiography to seek fresh approaches and to rewrite it The book provides an intellectual genealogy of the debate valuable for every student of the Roman Empire and of Roman Britain and invites them to rethink the legacy of ancient Roman imperialism Materialising the Roman Empire Jeremy Tanner, Andrew Gardner, 2024-03-19 Materialising the Roman Empire defines an innovative research agenda for Roman archaeology highlighting the diverse ways in which the Empire was made materially tangible in the lives of its inhabitants The volume explores how material culture was integral to the processes of imperialism both as the Empire grew and as it fragmented and in doing so provide up to date overviews of major topics in Roman archaeology Each chapter offers a critical overview of a major field within the archaeology of the Roman Empire The book's authors explore the distinctive contribution that archaeology and the study of material culture can make to our understanding of the key institutions and fields of activity in the Roman Empire The initial chapters address major technologies which at first glance appear to be mechanisms of integration across the Roman Empire roads writing and coinage The focus then shifts to analysis of key social structures oriented around material forms and activities found all over the Roman world such as trade urbanism slavery craft production and frontiers Finally the book extends to more abstract dimensions of the Roman world art empire religion and ideology in which the significant themes remain the dynamics of power and influence The whole builds towards a

broad exploration of the nature of imperial power and the inter connections that stimulated new community identities and created new social divisions Roman Imperialism Craige B. Champion, 2003-11-07 This broad ranging reader on Roman imperialism brings together ancient documents in translation and a selection of the best recent scholarly essays in order to introduce students to the major problems and controversies in studying this central aspect of Roman history A broad ranging reader on Roman imperialism combining ancient documents in translation and a selection of the best recent scholarship on the subject Introduces students to the major problems and controversies in the study of Roman imperialism Examines diverse aspects of Roman imperialism from the Romans motivations in acquiring an empire and their ideological justifications for imperial domination to the complex political economic and cultural interactions between the Romans their allies and the subjected peoples An introduction surveys modern work on Roman imperialism and provides the context of recent theoretical and methodological approaches to the study of empires in general Includes notes with suggestions for further reading **An Introduction to the Ancient World** Lukas de Blois, R. J. van der Spek, 1997 This lavishly illustrated introductory history covers 3 000 years of the ancient Near East Greece and Rome within the framework of a short narrative history of events Focusing mainly on the social political and cultural processes which have influenced later western civilizations An Introduction to the Ancient World considers subjects such as the religions of the ancient Near East Athenian democracy the interaction of cultures in the Hellenistic world the political and administrative system of the Roman republic and empire gender problems and ancient demography This book shows how the Near East Greece and Rome witnessed the emergence of city and state government the development of decision processes expansion and the effects of social structures interaction of different cultures and the emergence of Judaism and Christianity Anyone interested in ancient history classics and archaeology will need this accessible and comprehensive book *Rome: Republic into Empire* Paul Chrystal, 2019-01-30 Rome Republic into Empire looks at the political and social reasons why Rome repeatedly descended into civil war in the early 1st century BCE and why these conflicts continued for most of the century it describes and examines the protagonists their military skills their political aims and the battles they fought and lost it discusses the consequences of each battle and how the final conflict led to a seismic change in the Roman political system with the establishment of an autocratic empire This is not just another arid chronological list of battles their winners and their losers Using a wide range of literary and archaeological evidence Paul Chrystal offers a rare insight into the wars battles and politics of this most turbulent and consequential of ancient world centuries in so doing it gives us an eloquent and exciting political military and social history of ancient Rome during one of its most cataclysmic and crucial periods explaining why and how the civil wars led to the establishment of one of the greatest empires the world has known The Fall of the Roman Republic David Shotter, 2005-11-14 Fully revised and update with the latest field research an expanded guide to further reading and drawing on a wealth of knowledge this examination of the Roman republic s fall is a must for all students of history and classical

studies *Cassius Dio's Speeches and the Collapse of the Roman Republic* Christopher Burden-Strevens, 2020-06-15 In *Cassius Dio's Speeches and the Collapse of the Roman Republic* Christopher Burden-Strevens provides a radical reinterpretation of the importance of public speech in one of our most significant historical sources for the bloody and dramatic transition from Republic to Principate. *Cassius Dio's Roman History* composed in eighty books early in the 3rd century CE has only recently come to be appreciated as a sophisticated work of history writing. In this book Burden-Strevens demonstrates the central role played by speeches in Dio's original analysis of the decline of the Republic and the success of the emperor Augustus regime including a detailed study of their possible sources, themes, methods of composition and their distinctiveness within the traditions of Roman historiography.

Rome and her Empire David Shotter, 2014-10-13 The name of Rome excites a picture of power and organisation as do the widely spread ruins that Roman civilization left behind. Yet Rome grew out of a collection of small villages and major developments such as the growth of Empire were unplanned and completely unprepared for. Influenced by a small number of self-interested aristocrats who lacked a broader vision, Rome was often threatened by their intrigues. Brought to the ground on a number of occasions, its leaders were able to snatch victory from the jaws of defeat. How did Rome survive for nearly 1000 years ruling over millions of people with few instances of internal rebellion? David Shotter argues that the key was the way Rome managed to adapt to new circumstances without at the same time discarding too many of its cherished traditions.

An Introduction to the Ancient World, Galilee in the Late Second Temple and Mishnaic Periods, Volume 1 James Riley Strange, 2015-07-10 Drawing on the expertise of archaeologists, historians, biblical scholars and social science interpreters who have devoted a significant amount of time and energy in the research of ancient Galilee, this accessible volume includes modern general studies of Galilee and of Galilean history as well as specialized studies on taxation, ethnicity, religious practices, road systems, trade and markets, education, health, village life, houses and the urban-rural divide. This resource includes a rich selection of images, figures, charts and maps.

Leadership and Initiative in Late Republican and Early Imperial Rome, 2022-02-07 What does it mean to be a leader? This collection of seventeen studies breaks new ground in our understanding of leadership in ancient Rome by re-evaluating the difference between those who began a political action and those who followed or reacted. In a significant change of approach, this volume shifts the focus from archetypal leaders to explore the potential for individuals of different ranks, social statuses, ages and genders to seize initiative. In so doing, the contributors provide new insight into the ways in which the ability to initiate communication, invent solutions and prompt others to act resonated in critical moments of Roman history.

Decoding **Roman Imperialism In The Late Republic**: Revealing the Captivating Potential of Verbal Expression

In a time characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its capability to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring. Within the pages of "**Roman Imperialism In The Late Republic**," a mesmerizing literary creation penned with a celebrated wordsmith, readers embark on an enlightening odyssey, unraveling the intricate significance of language and its enduring effect on our lives. In this appraisal, we shall explore the book's central themes, evaluate its distinctive writing style, and gauge its pervasive influence on the hearts and minds of its readership.
