Romanian And East German Policies In The Third World:

Romanian and East German Policies in the Third World Thomas PM Barnett, 1992-09-17 This book is a unique comparison of the Third World policies of the two East European regimes that were most active in the South during the 1970s and 1980s The study examines why Romania's and East Germany's high activity levels in the South cannot be explained away as mere surrogacy for Moscow and shows that those attempts represented the particular agendas of Honecker and Ceausescu in their efforts to alter their ties with the Soviet Union Barnett concludes that Romania and East Germany saw opportunities in the Third World in the 1970s to forge strong diplomatic and security profiles within the Warsaw Pact's overall presence Romania sought to lessen its economic and ideological dependence on the Soviet Union by expanding its trade ties and political relations with the Third World In the case of East Germany detente opened up new opportunities for relations with West Germany that were both lucrative in terms of trade and dangerous in terms of ideological pollution Scholars of the Soviet bloc will find this book of interest

Socialist Internationalism and the Gritty Politics of the Particular Kristin Roth-Ey, 2023-04-06 This collection takes a case study approach to enter into and explore spaces of Second Third World interaction during the Cold War From the dining halls of a university to hospital wards construction sites military barracks pubs and more the chapters drop the scale down from the global to the particular to better see understand and interpret the complex nature of these spaces These ordinary spaces are examined to understand how they were conceived constructed shaped and reshaped by people over time Many are physical places of encounter while others are more abstract embodying ideological goals In exploring these spaces the contributors show how the Second and Third World actors understood them and connected them to ideas such as gender and space the space of the nation of the modern and of the self Essentially it seeks to unravel how these spaces between Second and Third Worlds worked and what if anything was distinctive and consequential about them **Second Third World Spaces in the Cold War** explores the ways in which these Second and Third World actors collaborated and clashed in these everyday spaces and brings these multi faceted multi actor histories to a vital centre ground

Beyond Alterity Qinna Shen, Martin Rosenstock, 2014-07-01 With the economic and political rise of East Asia in the second half of the twentieth century many Western countries have re evaluated their links to their Eastern counterparts Thus in recent years Asian German Studies has emerged as a promising branch within interdisciplinary German Studies This collection of essays examines German language cultural production pertaining to modern China and Japan and explicitly challenges orientalist notions by proposing a conception of East and West not as opposites but as complementary elements of global culture thereby urging a move beyond national paradigms in cultural studies Essays focus on the mid century German Japanese alliance Chinese German Leftist collaborations global capitalism travel identity and cultural hybridity The authors include historians and scholars of film and literature and employ a wide array of approaches from postcolonial globalization media and gender studies The collection sheds new light on a complex

and ambivalent set of international relationships while also testifying to the potential of Asian German Studies

The Eastern Bloc and Sub-Saharan Africa Barbora Buzássyová, 2024-06-03 This book analyses the shifting patterns of Czechoslovak educational aid programmes for sub-Saharan African countries within the broader framework of the global debates on the nature of development aid in education discussed on the UNESCO grounds during the three development decades. Starting in the early 1960s, Czechoslovakia sent abroad hundreds of experts hoping to stimulate the development of local educational and scientific institutions. However, over the years, the development aid to African countries transformed into a special form of foreign trade and distribution of experts turned into a profitable business. Yet the tendencies towards sustainability and higher return on investment in the field of development aid were not limited just to the socialist bloc but emerged globally. This book therefore not only revisits the roles of Czechoslovakia and Africa in the Cold War history but also reflects on the function of aid in international politics. The Eastern Bloc and Sub-Saharan Africa will appeal to students and historians specializing in the global Cold War and particularly those curious about development, international organizations, economic history and transfers of knowledge in transnational networks

Development Policies of Central and Eastern European States Ondřej Horký-Hlucháň, Simon Lightfoot, 2013-09-13 The states from Central and Eastern Europe that joined the EU in 2004 and 2007 provide a fascinating series of case studies for scholars interested in politics, IR and development studies. The interest comes from the fact that never before had so many recipients of EU aid joined the Union and taken on the commitment to become aid donors. The journey from recipients of aid to aid donors is interesting because not only does it tell us about development policy in CEE states, this policy area gives us an insight into governmental structures in CEE states, foreign policy priorities, public opinion, the role of NGOs, civil society and how well CEE states have taken on board the EU acquis, the EU's rule book. The book also explores whether the development cooperation programmes of the majority of CEEs reflect the so-called transition experience of moving from authoritarianism and socialism to democracy and modern liberalism. It also explores the extent to which these donors are aligned with the approaches of the DAC donors. Finally, by extending the scrutiny to the bottom-up development activities of non-state actors and public opinion, the book will analyse the dynamics of the solidarity of the former East with the global South. This book was published as a special issue of *Perspectives on European Politics and Society*

The United States and Germany in the Era of the Cold War, 1945-1990 Detlef Junker, Philipp Gassert, Wilfried Mausbach, David B. Morris, 2004-05-17 Publisher Description

The Political Economy of Middle Class Politics and the Global Crisis in Eastern Europe Agnes Gagyi, 2021-08-09 Contrary to dominant narratives which portray East European politics as a pendulum swing between democracy and authoritarianism conventionally defined in terms of an ahistorical cultural geography of East vs West, this book analyzes post-socialist transformation as part of the long downturn of the post-WWII global capitalist cycle. Based on an empirical comparison of two countries with significantly different political regimes throughout the period, Hungary and Romania, this study shows how

different constellations of successive late socialist and post socialist regimes have managed internal and external class relations throughout the same global crisis process from very similar positions of semi peripheral post socialist systemic integration Within this context the book follows the role of social movements since the 1970s paying attention both to the level of differences between local integration regimes and to the level of structural similarities of global integration The analysis maintains a special focus on movements class composition and inter class relationships and the specific position of middle class politics in movements

Global Development Sara Lorenzini,2022-07-26 In the Cold War development was a catchphrase that came to signify progress modernity and economic growth Development aid was closely aligned with the security concerns of the great powers for whom infrastructure and development projects were ideological tools for conquering hearts and minds around the globe from Europe and Africa to Asia and Latin America In this sweeping and incisive book Sara Lorenzini provides a global history of development drawing on a wealth of archival evidence to offer a panoramic and multifaceted portrait of a Cold War phenomenon that transformed the modern world Taking readers from the aftermath of the Second World War to the tearing down of the Berlin Wall Lorenzini shows how development projects altered local realities transnational interactions and even ideas about development itself She shines new light on the international organizations behind these projects examining their strategies and priorities and assessing the actual results on the ground and she also gives voice to the recipients of development aid Lorenzini shows how the Cold War shaped the global ambitions of development on both sides of the Iron Curtain and how international organizations promoted an unrealistically harmonious vision of development that did not reflect local and international differences An unparalleled journey into the political intellectual and economic history of the twentieth century this book presents a global perspective on Cold War development demonstrating how its impacts are still being felt today

Eastern Europe Since 1970 Bulent Gokay,2015-12-22 From the hardening grip of Soviet domination under Brezhnev to the collapse of communism and its aftermath Bulent Gokay provides the essential introduction to Eastern Europe in the last quarter of the twentieth century The Soviet invasion of Czechoslovakia in 1968 spelt the end of reformist communism and the tightening of Soviet control throughout Eastern Europe In spite of this several countries within the Soviet Bloc managed to retain varying degrees of independence over the next two decades Focusing on the struggle towards economic and social modernisation in the region and the competing influences of East and West in a dangerous Cold War Bulent Gokay shows how individual circumstances and diverse national characteristics made a uniform application of the Soviet model impossible and charts the growing resistance to domination and the momentous events which finally toppled Soviet power in the region
