Romantic Epics and the Mission of Empire Matthew Leporati,2023-11-16 The British Romantic period saw an unprecedented explosion in epic poems an understudied literary phenomenon that enabled writers to address unique historical tensions of the era Long associated with empire epic revived at a time when Britain was expanding its imperial reach and when the concept of imperialism itself began to evolve into the notion of a benevolent project of spreading British culture and religion across the globe Matthew Leporati argues that the epic revival not only reflects but also interrogates this evangelical turn The first to examine the impact of the missionary work on epic literature this book offers sustained analysis of both under read and canonical works bringing fresh historical and literary contexts to bear on our understanding of this unique revival of epic poetry This title is part of the Flip it Open Programme and may also be available Open Access Check our website Cambridge Core for details **Love** Simon May,2019-03-28 Simon May develops a radically new understanding of love as the emotion we feel towards those we experience as grounding our life as offering us a promise of home in a world that we supremely value He also proposes that the child is supplanting the romantic partner as the supreme object of love

Grotesque Anatomies David Musgrave,2014-10-16 Grotesque Anatomies is a study of Menippean satire in English since the Renaissance It consists of revisionist close readings of canonical works such as Eliot s *The Waste Land* and Pope s *Dunciad* among others and investigates how identifying them as Menippean satires changes our understanding of them The initial chapter offers a comprehensive account of the form from antiquity to the present day identifying its bifurcated development in the shorter form Seneca Lucian Julian and the longer more encyclopedic form Varro Petronius Boethius and their subsequent fusion during the Renaissance It also contains an account of the critical reception of the genre with the term Menippean satire first being used by Justus Lipsius in 1581 Finally Menippean satire is described as a literary version of the grotesque and a brief theory of the grotesque in the modern period as radical heterogeneity is outlined This is also the

foundation of a new definition of Menippean satire drawing on previous definitions by Frye Bakhtin and Kirk and revising them for the modern period The following chapters examine iconic works as examples of Menippean satire and of the grotesque Chapter 2 offers an overview of the nose in Menippean satire and comic literature generally and reads Rushdie's *Midnight's Children* in this context It also gives an account of metaphor as a grotesque transformation Chapter 3 examines the figure of the stomach in Menippean satire and sympotastic literature and reads Peacock's *Gryll Grange* in this context The link between the stomach as a figure of thinking in comic literature is the basis for an account of symbolic structuring as grotesque association Chapter 4 is a close reading of the scatological imagery of Pope's *Dunciad* and how scatology generally tends towards a cyclical metaphysics It also relates changes in print technology and copyright laws to the reticular scatological structure of the *Dunciad* Chapter 5 argues for Eliot's *The Waste Land* as a Menippean satire focusing on the rhetorical figure of the enthymeme as a missing premise as an example of under mindedness and as an ironic aspect of the fragmentation typical of late Romantic Menippean satires Chapter 6 examines Urquhart's eccentric *The Jewel* as a satire on the referential function of language reading it in the context of projections for a universal language from this period The final chapter identifies some key works by Derrida and Barthes as Menippean satires noting the resurgence of the form in some postmodern and deconstructive writing
