to develop rapidly and be loved by many even albeit everyone cannot love you The principles we have carefully highlighted in the book such as don't criticize condemn or complain always give honest and sincere appreciation and arouse in the other person an eager want These principles are essential in human interaction and for relating with others you will need to master them by heart and by repeated practice you will surely learn them and they will be part and parcel of your life For the book How to stop worrying and start living you will learn how to break the worry habit and throw it away in the deep sea now and forever With Dale Carnegie's timeless advice in hand it is a fact and not a farce that more than six million people have learned how to eliminate debilitating and devastating fear and worry from their lives and to embrace a worry free future In this classic work How to Stop Worrying and Start Living Carnegie offers a set of practical formulas that you can put to work today and every time in your day to day activities It is a book packed with a whole lot of lessons that will last a lifetime and make your lifetime happier as many have used it in the past and many are still making use of the same at the moment With the book you will discover how to successfully apply the following to your life such as Eliminate fifty percent of business worries immediately Reduce financial worries Avoid fatigue and keep looking young Add one hour a day to your waking life and Find yourself and be yourself remember there is no one else on earth like you These and many more you will be able to learn from Dale Carnegie's book How to Stop Worrying and Start Living It is suitable to read and easy to apply How to Stop Worrying and Start Living deals with fundamental emotions and life changing ideas There's no need to live with worry and anxiety that keep you from enjoying a full active life We shall enumerate on this in the subsequent chapters In the book How to Develop Self confidence and Influence People by Public Speaking by Dale Carnegie he wrote that many people are having difficulties with public speaking As the introduction encourages readers to not feel ashamed about it because some of the best speakers we have come to know these days had also experienced it before their success that we have come to cherish To be able to overcome weakness in public speaking Dale Carnegie mentioned 4 essential things before explaining things further they are Start with a strong and persistent desire to know thoroughly what you are going to talk about act confident practice practice practice The author also stated that most people who had difficulties in public speaking are caused by lack of confidence that's why it's very important to develop confidence first and others piece of skills needed should follow Thus the book shares several things that helps build confidence while delivering speeches such as the procedure of preparing a speech how to improve your memory how to deliver a good speech how to open and close a talk how to interest your audience and also how to improve your diction Yours sincerely each part provides good and not so good examples that we can learn from Many good ones came from famous people such as Abraham Lincoln and those examples are discussed and the author point out the things that are vital In addition to what you can get to learn from this book is that there are awesome and excellent quotes in the book that will really motivates titillates and give you the necessary impetus to your self confidence and public speaking The first one is a quote by Elbert Hubbard p 86 We are only going to write a part of it which
