Dr. Robert C. Worstell, John E. Kennedy, 2014-05-29 ADVERTISING should be judged only by the goods it is conclusively known to sell at a given cost Mere opinions on Advertising Copy should be excluded from consideration because opinions on Advertising are conflicting as opinions on Religion But it is different with Advertising as it is with Mechanics or with Medicine all three of which can be conclusively tested Many Advertisers however seem satisfied to spend their money on mere Opinions about Advertising when they might have invested it on Evidence about Advertising When it is anything less than Salesmanship it is not real Advertising but only General Publicity And General Publicity admittedly claims only to Keep the Name before the People to produce a General impression on the Trade and to Influence Sales for the salesmen The only way to judge Advertising is to judge it by the amount of goods It is conclusively known to Sell at a given cost Get this copy for yourself and learn these Secrets **Roswell Connection** Theresa Morris, 2010-04-03 Roswell

Decolonizing the Study of Palestine Ahmad H. Sa'di, Nur Masalha, 2023-06-15 Writing about Palestine and the Palestinians continue to be controversial Until the late 1980s the question of Palestine was approached through Western social theories that had appeared after World War 2 This endowed European settlers and colonists the mission of guiding the backward natives of Palestine to modernity However since the work of Palestinian scholar Elia Zureik the study of Israel and the ethnic relations in Palestine Israel has been radically shifted Building on Zureik's work this book studies the colonial project in Palestine and how it has transformed Palestinians' lives Zureik had argued that Israel was the product of a colonization process and so should be studied through the same concepts and theorization as South Africa Rhodesia Australia and other colonial societies He also rejected the moral and civilizational superiority of the European settlers Developing this work the contributors here argue that colonialism is not only a political economic system but also a mode of life and consciousness which has far reaching consequences for both the settlers and the indigenous population Across 13 chapters in addition to the introduction and the afterward the book covers topics such as settler colonialism dispossession the separation wall surveillance technologies decolonisation methodologies and popular resistance Composed mostly of Palestinian scholars and scholars of Palestinian heritage it is the first book in which the indigenous Palestinians not merely write back but principally aim to lay the foundations for decolonial social science research on Palestine Secret Faith in the Public Square
