The Monastic Origins of the Nag Hammadi Codices Hugo Lundhaug, Lance Jenott, 2015-10-19 Hugo Lundhaug and Lance Jenott offer a sustained argument for the monastic provenance of the Nag Hammadi Codices They examine the arguments for and against a monastic Sitz im Leben and defend the view that the Codices were produced and read by Christian monks most likely Pachomians in the fourth and fifth century monasteries of Upper Egypt Eschewing the modern classification of the Nag Hammadi texts as Gnostic the authors approach the codices and their ancient owners from the perspective of the diverse monastic culture of late antique Egypt and situate them in the context of the ongoing controversies over extra canonical literature and the theological legacy of Origen Through a combination of sources including idealized hagiographies travelogues monastic rules and exhortations and the more quotidian details revealed in documentary papyri manuscript collections and archaeology monasticism in the Thebaid is brought to life and the Nag Hammadi codices situated within it The cartonnage papyri from the leather covers of the codices which bear witness to the monastic culture of the region are closely examined while scribal and codicological features of the codices are analyzed and compared with contemporary manuscripts from Egypt Special

attention is given to the codices scribal notes and colophons which offer direct evidence of their producers and users The study ultimately reveals the Nag Hammadi Codices as a collection of books completely at home in the monastic manuscript culture of late antique Egypt

Pillars in the History of Biblical Interpretation, Volume 2 Stanley E. Porter, Sean A. Adams, 2016-11-03 This two volume set is part of a growing body of literature concerned with the history of biblical interpretation The ample introduction first situates key players in the story of the development of the major strands of biblical interpretation since the Enlightenment identifying how different theoretical and methodological approaches are related to each other and describing the academic environment in which they emerged and developed Volume 1 contains fourteen essays on twenty two interpreters who were principally active before 1980 and volume 2 has

nineteen essays on twenty seven of those who were active primarily after this date Each chapter provides a brief biography of one or more scholars as well as a detailed description of their major contributions to the field This is followed by an often new application of the scholar s theory By focusing on the individual scholars and their work the book recognizes that interpretive approaches arise out of certain circumstances and that scholars are influenced by and have influences upon both other interpreters and the times in which they live This set is ideal for any class on the history of biblical interpretation and for those who want a greater understanding of how the current field of biblical studies developed

The Gospel of John : 2 Volumes Craig S. Keener, 2010-03-01 Keener s commentary explores the Jewish and Greco Roman settings of John more deeply than previous works paying special attention to social historical and rhetorical features of the Gospel It cites about 4 000 different secondary sources and uses over 20 000 references from ancient literature
