The Law Applicable to Security Interests in Intermediated Securities Under OHADA Law Justin Monsenepwo,2023-01-03 In recent decades the technical handling of custody business in the OHADA region has undergone a lasting change There has been a shift from a direct to an indirect holding system in which the interests of an investor in respect of the underlying securities are recorded in the books of an intermediary such as a bank or a securities firm Under the law of all states within the OHADA region the traditional conflict of laws rule for determining the enforceability of a securities pledge that occurs in the indirect holding system is the lex rei sitae or the lex cartae sitae or the lex situs rule However the traditional lex rei sitae rule cannot be appropriately applied to a system where the dematerialised securities are held through multiple layers of intermediaries located in

different jurisdictions Yet until the intermediated system and the collateralisation of intermediated securities in the OHADA region will continue to operate in somewhat legally murky waters leading to more instability in the financial markets Therefore Justin Monsenepwoaims to find an appropriate and consistent approach that reflects the reality of the indirect holding system in the OHADA region *The Surety's Indemnity Agreement* Marilyn Klinger, Tracey L.
