

The background of the cover is a photograph of a border security fence. It features several strands of barbed wire at the top, supported by a dark metal post on the left. Below the barbed wire is a chain-link fence. The scene is set against a bright, overexposed sky.

**Securing Borders** Anna Pratt, 2005 Anna Pratt takes a close look at the laws policies and practices of detention and deportation in Canada since the Second World War She demonstrates that although the desire to fortify the border against risky outsiders has long been prominent in Canadian immigration penalty the degree to which concerns about security crime and fraud have come to govern the process is unprecedented *Securing Borders* traces the connections between seemingly disparate concerns detention deportation liberalism law discretion welfare criminal justice refugees security and risk to consider them in relation to the changing modes of Canadian governance *Policy Change, Courts, and the Canadian Constitution* Emmett Macfarlane, 2018-01-01 *Policy Change Courts and the Canadian Constitution* aims to further our understanding of judicial policy impact and the role of the courts in shaping policy change Bringing together a group of political scientists and legal scholars this volume delves into a diverse set of policy areas including health care issues the regulation of elections criminal justice policy minority language education citizenship refugee policy human rights legislation and Indigenous policy While much of the public law and judicial politics literatures focus on the impact of the constitution and the judicial role scholarship on courts that makes policy change its central lens of analysis is surprisingly rare Multidisciplinary in its approach to examining policy issues this book focuses on specific cases or policy issues through a wide ranging set of approaches including the use of interview data policy analysis historical and interpretive analysis and jurisprudential analysis **Criminalization, Representation, Regulation** Deborah Brock, Amanda Glasbeek, Carmela Murdocca, 2014-01-01 This book draws on Foucault's concept of governmentality as a lens to analyze and critique how crime is understood reproduced and challenged **Canadian Liberalism and the Politics of Border Control, 1867-1967** Christopher G. Anderson, 2012-11-17 Since 9/11 Canada's reputation as an inclusive country that takes in immigrants and refugees has been clouded by restrictive immigration policies increased interdiction and the detention of asylum seekers Moreover public debate over the arrival of non citizens especially those seeking entry through unofficial channels is now often framed within a security discourse that is used to justify a more restrictive approach These developments are not surprising in the current context but as Anderson illustrates they are also nothing new Canadian Liberalism and the Politics of Border Control sheds light on the long and complex history of Canada's efforts to control its borders Framing pivotal moments within a long standing but often overlooked debate over the rights of non citizens Anderson demonstrates that today's more restrictive approach reflects traditions deeply embedded within liberal democracies His insights into Canadian immigration and refugee history offer valuable lessons for understanding the nature of contemporary liberal democratic control policies *Incarceration and Generation, Volume I* Silvia Gomes, Maria João Leote de Carvalho, Vera Duarte, 2021-10-08 This two volume edited collection lays the groundwork for an international exploration of incarceration and generation cover a range of geographic judicial and administrative contexts of incarceration from contributors across a

range of subjects Volume I explores an array of experiences dynamics cultures interventions and impacts of incarceration in specific generations childhood youth and emerging adulthood adulthood and older age It covers topics such as the expansion of the penal landscape deprivation of liberty regarding children the problem of unaccompanied migrant children the incarceration of young adults and adults exploring its impacts within and beyond incarceration and the consequences of imprisoning older populations Volume II examines intergenerational relations issues within different contexts of incarceration This collection discusses public policies and the role of the state and the citizen deprived of liberty It speaks to academics in criminology sociology psychology and law and to practitioners and policymakers interested in incarceration

**Immigrant and Migrant Workers Organizing in Canada and the United States** Jorge Frozzini,Alexandra Law,2017-11-08 Across Canada and the United States immigrant workers face important obstacles at work and in the broader society whether their immigration status is temporary permanent or nonexistent Hyper precarious workers of all status groups and their allies in unions and worker centers are organizing to improve their conditions In this book Jorge Frozzini and Alexandra Law two longtime volunteers with a Canadian worker center draw on their own experience in depth interviews and academic work from the fields of law communication studies and social movement theory to produce a tactically focused theoretically informed introduction to immigrant worker organizing in a neoliberal era Frozzini and Law describe the phenomenon of employment precarity in the context of U S and Canadian labor history explaining how union certification and collective bargaining function under the law Without directing activists toward any single best strategy they cover tactical and ethical questions raised when organizers offer casework as a recruitment and research tool The royalties from this book will go to the Immigrant Workers Centre Montreal

*Globalisation and Migration* Ronaldo Munck,2013-09-13 This book critically examines the new issues and new politics regarding migration in the era of globalisation from a majority world perspective It examines the current shifts in the global political economy and the effects it has for example in relation to rural displacement When and how does this lead to national and or transnational migration We need to examine the ways in which migration is cut across and impacts on the generation of racism and xenophobia in the west The issue of remittances by migrants to the developing nations needs careful study as does the controversial issue of brain drain versus brain gain through migration The growing importance of trafficking for forced labour has now been taken up by various international bodies but is it the new normality or simply an unfortunate side effect of globalisation to be overcome through legislation Migration is becoming increasingly gendered in its composition and flows but also in the receiving countries where men and women do very different jobs We can predict the increasing racialization and gendering of migration but how will the state and society respond to these shifts This book was published as a special issue of Third World Quarterly

**Attitudinal Decision Making in the Supreme Court of Canada** C. L. Ostberg,Matthew E. Wetstein,2011-11-01 This book provides a comprehensive exploration of ideological patterns of judicial behaviour in the

Supreme Court of Canada Relying on an expansive database of Canadian Supreme Court rulings between 1984 and 2003 the authors present the most systematic discussion of the attitudinal model of decision making ever conducted outside the setting of the US Supreme Court The groundbreaking discussion of the viability of this model as a unifying theory of judicial behaviour in high courts around the world will be essential reading for a wide range of legal scholars and court watchers

**Ways of Belonging** Francesca Meloni,2023-10-13 Ways of Belonging examines the experiences of undocumented young people who are excluded from K 12 education in Canada Through rich ethnographic descriptions this book vividly shows how ambivalence and invisibility shape both the lives of young people and institutional attitudes toward them The Routledge Handbook on Crime and International Migration Sharon Pickering,Julie Ham,2017-07-14 The Routledge Handbook on Crime and International Migration is concerned with the various relationships between migration crime and victimization that have informed a wide criminological scholarship often driven by some of the original lines of inquiry of the Chicago School Historically migration and crime came to be the device by which Criminology and cognate fields sought to tackle issues of race and ethnicity often in highly problematic ways However in the contemporary period this body of scholarship is inspiring scholars to produce significant evidence that speaks to some of the biggest public policy questions and debunks many dominant mythologies around the criminality of migrants The Routledge Handbook on Crime and International Migration is also concerned with the theoretical empirical and policy knots found in the relationship between regular and irregular migration offending and victimization the processes and impact of criminalization and the changing role of criminal justice systems in the regulation and enforcement of international mobility and borders The Handbook is focused on the migratory fault lines between the Global North and Global South which have produced new or accelerated sites of state control constructed irregular migration as a crime and security problem and mobilized ideological and coercive powers usually reserved for criminal or military threats Offering a strong international focus and comprehensive coverage of a wide range of border criminal justice and migration related issues this book is an important contribution to criminology and migration studies and will be essential reading for academics students and practitioners interested in this field **Constitutional Politics in Canada after the Charter** Patrick James,2011-01-01 The Charter of Rights and Freedoms was introduced in 1982 Since then Canada has experienced more than twenty five years of constitutional politics and countless debates about whether the Canadian federation is integrating or disintegrating There has however been no systematic attempt to identify general theories about Canada s constitutional evolution Patrick James corrects this oversight by using systemism a concept drawn from the philosophy of science to identify and assess five theories that fall into the liberal or communitarian paradigms These theories are examined in the context of major issues such as the role of the courts or the status of Aboriginal peoples and debates among advocates and critics of each theory are used to work toward a greater understanding of constitutional wrangling in Canada By adding clarity to familiar debates this succinct assessment of major writings on

constitutional politics sharpens our vision of the past and the future of the Canadian federation *Parallel Encounters* Gillian Roberts, David Stirrup, 2014-03-24 The essays collected in *Parallel Encounters* The field of border studies has hitherto neglected the Canada US border as a site of cultural interest tending to examine only its role in transnational policy economic cycles and legal and political frameworks Border studies has long been rooted in the US Mexico divide shifting the locus of that discussion north to the 49th parallel the contributors ask what added complications a site specific analysis of culture at the Canada US border can bring to the conversation In so doing this collection responds to the demands of Hemispheric American Studies to broaden considerations of the significance of American culture to the Americas as a whole bringing Canadian Studies into dialogue with the dominantly US centric critical theory in questions of citizenship globalization Indigenous mobilization hemispheric exchange and transnationalism **Liberating Temporariness?** Leah F. Vosko, Valerie Preston, Robert Latham, 2014-06-01 *Liberating Temporariness* explores the complex ways in which temporariness is being institutionalized as a condition of life for a growing number of people worldwide The collection emphasizes contemporary developments but also provides historical context on nation state membership as the fundamental means for accessing rights in an era of expanding temporariness in recognition of why pathways to permanence remain so compelling Through empirical and theoretical analysis contributors explore various dimensions of temporariness especially as it relates to the legal status of migrants and refugees to the spread of precarious employment and to limitations on social rights While the focus is on Canada a number of chapters investigate and contrast developments in Canada with those in Europe as well as Australia and the United States Together these essays reveal changing and enduring temporariness at local regional national transnational and global levels and in different domains such as health care language programs and security The question at the heart of this collection is whether temporariness can be liberated from current constraints While not denying the desirability of permanence for migrants and labourers *Liberating Temporariness* presents alternative possibilities of security and liberation **Laws and Societies in the Canadian Prairie West, 1670-1940** Louis A. Knafla, Jonathan Swainger, 2011-11-01 *Laws and Societies in the Canadian Prairie West 1670 1940* examines the legal history of the north west frontier from the earliest years of European Native contact in the seventeenth century to the mid 1900s Challenging myths about a peaceful west and prairie exceptionalism the book explores the substance of prairie legal history and the degree to which the region's mentality is rooted in the historical experience of distinctive prairie peoples The chapters written by a cross section of established and emerging scholars working in the allied fields of law legal history sociology and criminology focus on what is distinctive in prairie legal culture By approaching the issue from a variety of perspectives those of colonial administrators fur company employees Native peoples women men entrepreneurs judges magistrates and the police among others the authors find evidence of a conscious effort to apply broad non regional experiences to seemingly familiar local issues The ways in which prairie peoples perceived themselves and their relationships

to a wider world were directly framed by notions of law and legal remedy shaped by the course and themes of prairie history. Legal history is not just about black letter law. It is also deeply concerned with the ways in which people affect and are affected by the law in their daily lives. By examining how central and important the law has been to individuals, communities and societies in the Canadian Prairies, this book makes an original contribution. **Neoliberalism and Everyday Life** Susan Braedley, Meg Luxton, 2010-03-19. Illuminating the ways in which neoliberal policies such as the deregulation of economies and the transfer of governmental responsibilities to the private sector have been implemented on a global scale, the contributors show how neoliberalism has seeped into our social and political fabric and affected our daily lives. Drawing attention to the most visible elements of neoliberalism in business, government and personal life, reveal the ways in which policies designed to ensure market expansion also inevitably expand social inequalities of gender, race, class and ability. Using a variety of methods, contributors discuss a range of topics including globalization, privatization, health care and the welfare state. An intelligent and informative collection that explains and challenges neoliberal policies. **Neoliberalism and Everyday Life** is an important assessment of a political system that makes profit easier and people's lives more difficult. Migration and Mental Health Marjory Harper, 2016-06-17. The relationship between migration and mental health is controversial, contested and pertinent. In a highly mobile world where voluntary and enforced movements of population are increasing and likely to continue to grow, that relationship needs to be better understood, yet the terminology is often vague and the issues are wide ranging. Getting to grips with them requires tools drawn from different disciplines and professions. Such a multidisciplinary approach is central to this book. Six historical studies are integrated with chapters by a theologian, geographer, anthropologist, social worker and psychiatrist to produce an evaluation that addresses key concepts and methodologies and reflects practical involvement as well as academic scholarship. Ranging from the mid nineteenth century to the present, the book explores the causes of mental breakdown among migrants, the psychological changes stemming from their struggles with challenging life circumstances and changes in medical, political and public attitudes and responses in different eras and locations. *Circulation and the City* Alexandra Boutros, Will Straw, 2010-02-21. A series of rich case studies examine a range of topics including neighbourhood, gentrification, subway, busking, yard sales, electronic waste and language, refining the touchstone principle of circulation for the study of urban culture, both materially and theoretically. Contributors employ a variety of disciplinary approaches to create a richly varied picture of the multiple trajectories and effects of movement in the city. An engaging work that considers city planning, urban culture and social behaviour. *Circulation and the City* adds a new dimension that revitalizes the ways we have commonly looked at and thought about the city. *Contemporary Criminological Issues* Carolyn Côté-Lussier, David Moffette, Justin Piché, 2020-05-05. *Contemporary Criminological Issues: Moving Beyond Insecurity and Exclusion* tackles some of today's most pressing social issues, from the criminalization of Indigenous peoples to interpersonal violence, border control and armed conflicts, advances cutting edge

theories and methods to make sense of these issues and proposes policy responses that promote social inclusion and security. This book advances cutting edge theories and methods with the aim of moving beyond the scholarship that reproduces insecurity and exclusion. The breadth of approaches encompasses much of the current critical criminological scholarship serving as a counterpoint to the growth of managerial and administrative criminologist and the rise of explicitly exclusionary and punitive state policies and practices with respect to crime and security. This edited collection featuring two books one in English and one in French includes important contributions to knowledge and public policy by eminent experts and emerging scholars. Published in English. Also available in French: *Enjeux criminologiques contemporains Au del de l ins curit et de l exclusion*. New Directions in Race, Ethnicity and Crime Coretta Phillips, Colin Webster, 2013-10-08. The disproportionate criminalisation and incarceration of particular minority ethnic groups has long been observed though much of the work in criminology has been dominated by a somewhat narrow debate. This debate has concerned itself with explaining this disproportionality in terms of structural inequalities and socio economic disadvantage or discriminatory criminal justice processing. This book offers an accessible and innovative approach including chapters on anti-Semitism, social cohesion in London, Bradford and Glasgow as well as an exploration of policing Traveller communities. Incorporating current empirical research and new departures in methodology and theory, this book also draws on a range of contemporary issues such as policing terrorism, immigration, detention and youth gangs. In offering minority perspectives on race, crime and justice and white inmate perspectives from the multicultural prison, the book emphasises contrasting and distinctive influences on constructing ethnic identities. It will be of interest to students studying courses in ethnicity, crime and justice. *Surveillance* Sean P. Hier, Josh Greenberg, 2010-01-01. Surveillance is commonly rationalized as a practice to address existing political or social problems such as crime, fraud and terrorism. This book explores how surveillance disguised as managing risk or reducing harm can cause a range of problems including poverty, over policing and exclusion. The scholars represented in this volume interrogate the moral and ideological bases and material effects of surveillance practices and systems in diverse cultural and institutional arenas: policing, consumerism, welfare administration, disaster management, popular culture, moral regulation, news media, social movements and anti terrorism campaigns. Surveillance addresses and asks us to consider the question: How can we ensure a future in which surveillance and its consequences are not accepted as normal or necessary features of modern life?
