Security The Middle East:

The Future Security Environment in the Middle East Nora Bensahel,Daniel Byman,2004-03-12 This report identifies several important trends that are shaping regional security It examines traditional security concerns such as energy security and the proliferation of weapons of mass destruction as well as newer challenges posed by political reform economic reform civil military relations leadership change and the information revolution The report concludes by identifying the implications of these trends for U S foreign policy   Regional Security in the Middle East ,   **Security and Insecurity in the Middle East** Imad El-Anis,Sahra Joharchi,Natasha Underhill,2018-10-09 This volume draws together a number of research papers presented at a conference titled Security Insecurity and Prospects for Peace in the Middle East and North Africa organised by Nottingham Trent University s Middle East and North Africa Research cluster in April 2016 The conference focused on questions pertinent to what may be termed the post Arab Spring era in which the Middle East is experiencing unprecedented national and transnational challenges Conflict instability radicalisation and the mass displacement of people have become increasingly salient features of the political and economic landscape of the region The contributions here analyse a range of political economic security and socio cultural issues that the authors argue lie at the heart of the instability that the region is currently experiencing Re thinking issues of security and insecurity in the Middle East not only allows us to explain what might have led to current instability but also allows us to posit possible solutions to these security issues In doing so this book goes beyond the concepts of security and insecurity as a standard account of perpetrator versus victim in a state centric and violence centric manner to a broader and more complex understanding of the underlying processes informing security and insecurity in the region The contributors include scholars from around the world working in a variety of different fields including Middle Eastern studies international relations and international political economy providing an eclectic discussion of the state of the region   **Building Regional Security in the Middle East** Emily B. Landau,Tamar Malz,Zeev Maoz,2004-11-23 Discussions on regional security were initiated in the Middle East in 1992 as part of the Middle East peace process The collapse of the Oslo process and other regional developments in the latter half of the 1990s have diminished hopes that the initial gains made in this direction might further develop as violence has again become the primary mode of effecting political changes in the region On the backdrop of this somewhat dismal current reality in the Middle East the rationale for this volume is that research into regional security structures should nevertheless be pursued When looking at the long term process of creating regional security setbacks are not unlikely The articles that make up this collection focus on the problems that have been encountered and possible directions for getting regional efforts back on track A special issue of the Journal of Strategic Studies   **Building Regional Security in the Middle East** Emily B. Landau,Tamar Malz,Zeev Maoz,2004-11-23 Discussions on regional security were initiated in the Middle East in 1992 as part of the Middle East peace process The collapse of the Oslo process and other regional developments in the latter half of the 1990s have diminished

hopes that the initial gains made in this direction might further develop as violence has again become the primary mode of effecting political changes in the region On the backdrop of this somewhat dismal current reality in the Middle East the rationale for this volume is that research into regional security structures should nevertheless be pursued When looking at the long term process of creating regional security setbacks are not unlikely The articles that make up this collection focus on the problems that have been encountered and possible directions for getting regional efforts back on track A special issue of the Journal of Strategic Studies **Human Security in the Middle East and North Africa** Alaa Al-Din Arafat,2024-12-20 This book analyzes major human security threats in the MENA region including food water energy climate and health security It also examines sectarian conflict terrorism and poverty in the region The author highlights the relationship between human security concerns and conventional or military security threats He demonstrates how MENA nations failed to respond to the region s human security threats and to develop a human security formula and regional security architecture that included both human and conventional security threats Therefore this book concludes that the MENA region s future will be determined by its governments ability to address human security threats **Regional Security in the Middle East** Pinar Bilgin,2019-01-31 In this new and fully revised edition Pinar Bilgin provides an accessible yet critical analysis of regional security in the Middle East analysing the significant developments that have taken place in the past years Drawing from a wide range of critical approaches to security the book offers a comprehensive study of pasts presents and futures of security in the region The book distinguishes itself from previous critical studies on regional security by opening up both region and security Different from those approaches that bracket one or the other this study takes seriously the constitutive relationship between inventing regions and conceptions and practices of security There is not one Middle East but many shaped by the insecurities of those who voice them This book focuses on how present day insecurities have their roots in practices that have throughout history been shaped by geopolitical inventions of security In doing so the book lays the contours of a framework for thinking critically about regional security in this part of the world This second edition of Regional Security in the Middle East is a key resource for students and scholars interested in International Relations and Political Science Security Studies and Middle East Studies **Security Issues in the Greater Middle East** Karl Yambert,2016-05-09 This textbook anthology of selected readings on pressing Middle East security concerns serves as an invaluable single volume assessment of critical security issues in nations such as Afghanistan Egypt Iran Iraq Israel Lebanon Syria and Yemen The issues and current events of the Greater Middle East continue to hold deep implications for American geopolitical interests in the region as they have for many decades An ideal resource for students in undergraduate courses on the Middle East and related regions as well as students in graduate programs of international studies or security studies this textbook anthologizes recent insightful analyses by top scholars on trends and events in the Middle East that bear crucially on regional and global security considerations covering topics like Iran s nuclear ambitions the rise ebb and

Socio-Political Order and Security in the Arab World Andreas Krieg,2017-03-27 This book examines the connection between socio politics and security in the Arab World In an effort to understand the social and political developments that have been on going in the Arab World since the 1990s culminating in the Arab Spring Krieg moves beyond liberal

deterministic assumptions most notably that the promotion of liberal values and democracy are the panacea for the structural problems of the region Instead this text advances the case that grievances related to individual security needs are at the heart of regional insecurity and instability Looking towards the future the author asserts that regimes can only be resilient if they are able to provide for individual security inclusively When regimes fail to cater for public security they might be replaced by alternative non state security providers **Future U.S. Security Relationships with Iraq and Afghanistan** David E. Thaler,2008 The greater the emphasis on building these capabilities now the faster indigenous air forces will be able to operate independently and the faster the operational demands on the U S Air Force will diminish BOOK JACKET

Security in the Gulf: Historical Legacies and Future Prospects Matteo Legrenzi,2013-09-13 This book examines Gulf Security in a holistic way seeing past the narrow military aspect and also trying to debunk the conventional narratives propagated by regional and external actors In particular the emphasis is be on the historical legacy of Gulf security and the fundamental domestic and international vulnerabilities of the various states in the region This approach proves important in light of the recent efforts by Gulf states to recast their position in the international arena trying to peddle an image of self assertiveness and autonomy in the security sphere These new diplomatic stances do not seem to be borne out by their current security policies that are marked by apparent continuity with past practices In particular the new Gulf Asia nexus and the claims by Gulf monarchies that regional confidence building measures are appearing on the horizon are placed under critical scrutiny This is done by a sobering examination of the balance of threat in the region the historical amity enmity patterns and the evolving American stance A shorter modified version of this book was previously published as a special issue of the British Journal of Middle Eastern Studies **Rewiring Regional Security in a Fragmented World** Chester A. Crocker,Fen Osler Hampson,Pamela R. Aall,United States Institute of Peace,2011 Rewiring Regional Security in a Fragmented World examines conflict management capacities and gaps regionally and globally and assesses whether regions through their regional organizations or through loose coalitions of states regional bodies and non official actors are able to address an array of new and emerging security threats
