Soundings in Critical Theory Dominick LaCapra, 2016-11-01 In Soundings in Critical Theory Dominick LaCapra continues his attempt to fashion a historiography that is at once critical and self critical a project he initiated in Rethinking Intellectual History Texts Contexts Language 1983 and History and Criticism 1985 both available from Cornell University Press This new collection of essays offers a provocative assessment of the nature of historical understanding and the role of critical theory in historical understanding of the practice of historical writing as a dialogic exchange both with the past and among professional historians and critics and of the problem of how to read texts and documents in relation to processes of contextual understanding A central concern of the volume is the interaction between Marxism psychoanalysis and postmodernism and all of the essays demonstrate the complex ways in which this trio of critical theories continues to affect how historians frame their task LaCapra first provides a general appraisal of the problems and possibilities of criticism as a genre that questions

its own limits and examines the roles of Jacques Derrida Michel Foucault Jean Fran ois Lyotard and Mikhail Bakhtin in the development of contemporary criticism Subsequent chapters address such issues as the implications of psychoanalysis for the writing of history the debate between Robert Darnton and Roger Chartier concerning the status of the symbolic dimension in history and the problem of how best to read and make use of Marx s work LaCapra concludes by exploring the larger project of forging viable links between history and critical theory and by evaluating the contributions of deconstruction and the new historicism to this project Contemporary cultural and intellectual historians literary theorists and critics philosophers and social scientists will welcome this book

A History of Psychology Thomas Hardy Leahey,2017-10-02 A History of Psychology places social economic and political forces of change alongside psychology s internal theoretical and empirical arguments illuminating how the external world has shaped psychology s development and in turn how the late twentieth century s psychology has shaped society Featuring extended treatment of important movements such as the Enlightenment and the Scientific Revolution the textbook approaches the material from an integrative rather than wholly linear perspective The text carefully examines how issues in psychology reflect and affect concepts that lie outside the field of psychology s technical concerns as a science and profession This new edition features expanded attention on psychoanalysis after its founding as well as new developments in cognitive science artificial intelligence and behavioral economics Throughout the book strengthens its exploration of psychological ideas and the cultures in which they developed and reinforces the connections between psychology modernism and postmodernism The textbook covers scientific applied and professional psychology and is appropriate for higher level undergraduate and graduate students

and religion Listening to Trauma ,2014-11-25 Interviews and intimate photographic portraits of witnesses to the collective and cultural significance of trauma This new collection from Cathy Caruth features interviews with a diverse group of leaders in the theorization of and response to traumatic experience in the twentieth and twenty first centuries Crossing the boundaries of discipline and profession Caruth s subjects include literary theorists and critics psychoanalysts psychiatrists psychologists political activists filmmakers public intellectuals institutional leaders and researchers Exploring the intertwining of the intellectual and personal dimensions of experience each interview is accompanied by Caruth s intimate photographic portrait of its subject Caruth chose her subjects because of their impact on her thinking as well as their significant role as witnesses to the collective and cultural significance of trauma The individuals profiled here are innovators in the theory of trauma Part I in the clinical activist or testimonial interventions in trauma Part II or in the creation or modification of institutions that provide therapeutic artistic or legal responses to traumatic events Part III Two of the interviews first appeared in Caruth s landmark 1995 work *Trauma Explorations in Memory* The rest were conducted between 2011 and 2013 after the field of trauma studies expanded significantly Representing both the foundation of trauma research and cutting edge approaches to the topic this collection will be useful to practitioners with an interest in post traumatic stress disorder as well as scholars exploring the multiple dimensions of profound human experience A portion of the proceeds from sales of this book will go to the Grady Nia Project for abused suicidal and low income African American women *Inventing the Child* John Zornado,2013-10-18 Now in paperback *Inventing the Child* is a highly entertaining humorous and at times acerbic account of what it means to be a child and a parent in America at the dawn of the new millennium J Zornado explores the history and development of the concept of childhood starting with the works of Calvin Freud and Rousseau and culminating with the modern consumer childhood of Dr Spock and television The volume discusses major media depictions of childhood and examines the ways in which parents use different forms of media to swaddle educate and entertain their children Zornado argues that the stories we tell our children contain the ideologies of the dominant culture which more often than not promote happiness at all costs materialism as the way to happiness and above all obedience to the dominant order Social Theory Since Freud Anthony Elliott,2004-06 This compelling book traces the rise of psychoanalysis from the Frankfurt School to postmodernism exploring in detail the social and political factors that have led intellectuals to draw from the insights of Freud Freud and the Question of Pseudoscience Frank Cioffi,1998 In the early 1970s Cioffi demonstrated that Freud falsified the account of his discovery of the Oedipus complex an account that had gone unquestioned until that time Moreover Cioffi showed that this misrepresentation was necessary to the propagation of the Oedipus theory The author subsequently revealed Freud s falsifications in retracting his theory of infantile seduction a revelation that has been often cited in recent books and scholarly journals
