Hernández,2023-08-12 This book is a collection of meticulously gathered interviews with government officials ambassadors and executives involved in foreign investment and economic development in Cuba The interviews many for the first time with a foreign journalist are valuable from a historical perspective and as a story of development It offers an open window on Cuba into a crucial segment of the country s economy erroneously perceived by some as shuttered to the outside world This work is structured by the contextual history of Obama s opening with Cuba the bleak days of Trump the Havana Syndrome the onset of the pandemic the election of Biden and his unmet promises through to economic recovery of the island under the post pandemic normal It highlights the work of the ones who lead and invest create opportunities for themselves and others initiate change trigger sustainable development build infrastructure improve lives strengthen the economy lessen suffering and create hope They stimulate forward progress These are the visionaries with plans seeking to realize the full potential of Cuba driving a new era of sustainable development and growth By filling those gaps this work is an important supplement for any future analysis seeking to examine the country s potential The book is divided into parts government economy foreign investment industrial zones banking law and business followed by interviews with top executives from Cuba s primary sectors This open window on Cuba is a compelling fresh take that shows that Cuba is open for serious business COVID-19 and the Left Elena Louisa Lange,Geoff Shullenberger,2024-05-07 The COVID 19 pandemic and the measures introduced to purportedly contain its spread have wrought an unprecedented global social transformation Authoritarian measures such as lockdowns vaccine mandates and the enforced wearing of facemasks have led to a biopolitical disenfranchisement of human rights and the encroachment of state and corporate directives onto private lives By supporting these measures the left has lost sight of its traditional critique of capital the state and class society and has instead reinforced existing power structures in the name of saving lives In doing so the left has contributed to widespread suffering especially among the vulnerable groups in society the measures claimed to protect particularly children the elderly and the poor COVID 19 and the Left explores why the left has departed from its self understanding as a critical force against state power unfettered capital accumulation the digital transformation biopolitics and a politics of social discrimination and instead has largely assumed a stance in line with the neoliberal consensus In particular the essays in this collection explore the role of fear panic and psychological blackmailing as a tool of domination in late capitalist society and consider whether the left has been a victim or an active perpetrator of a tyranny of fear Drawing upon approaches from various disciplines and interrogating shibboleths on the left and right the essays in this volume consider the ideological sociocultural and economic implications of the historical rupture that the COVID 19 pandemic presents and instead argue for a counter narrative to fear and its harmful consequences This provocative collection will be of considerable interest to those with an interest in the contemporary left and the impact of the COVID 19 pandemic Double-Voicing the Canadian Short Story Laurie Kruk,2016-05-27 Double Voicing the Canadian Short Story is the first comparative study of eight internationally and nationally acclaimed writers of short fiction
