Beyond Words Kathlyn Conway, 2013-05-15 Kathlyn Conway opens primordial questions about the shattering events of illness through close readings of selected illness narratives proposing that only writing of a daring kind can utter the knowledge of the self telling body Wielding her ferocious intellect and braving exposure to self and other Conway makes original discoveries about writing and illness and more stunningly about writing and life Not a book about illness this is a book about writing and being It is taut brave unequalled in our scholarship and true Conway joins our most powerful investigators of the human predicament of mortality helping us to see helping us to live Rita Charon Columbia University Program in Narrative Medicine Published accounts of illness and disability often emphasize hope and positive thinking the woman who still looked beautiful after losing her hair the man who ran five miles a day during chemotherapy This acclaimed examination of the genre of the illness narrative questions that

upbeat approach Author Kathlyn Conway a three time cancer survivor and herself the author of an illness memoir believes that the triumphalist approach to writing about illness fails to do justice to the shattering experience of disease By wrestling with the challenge of writing about the reality of serious illness and injury she argues writers can offer a truer picture of the complex relationship between body and mind Reading and Writing Cancer: How Words Heal Susan Gubar,2016-05-17 An important addition to the literature of cancer by an award winning scholar and memoirist Elaborating upon her Living with Cancer column in the New York Times Susan Gubar helps patients caregivers and the specialists who seek to serve them In a book both enlightening and practical she describes how the activities of reading and writing can right some of cancer s wrongs To stimulate the writing process she proposes specific exercises prompts and models In discussions of the diary of Fanny Burney the stories of Leo Tolstoy and Alice Munro numerous memoirs novels paintings photographs and blogs Gubar shows how readers can learn from art that deepens our comprehension of what it means to live or die with the disease From a writer whose own memoir Memoir of a Debulked Woman Enduring Ovarian Cancer was described by the New York Times Book Review as moving and instructive and incredibly brave this volume opens a path to healing **The Ways of Fiction** Nicholas J. Crowe,2019-01-15 The essays gathered here capture fresh perspectives on the literary environments of the eighteenth century The core concern of this volume is culture the ways in which it shapes literature and is in turn influenced by it the ways of fiction Especially commissioned from experts in the field essays cover the whole of the century embracing such themes as class gender nationhood politics and identity Through scrutiny of familiar and less well known authors alike the collection forms a stimulating and provocative anthology It will naturally appeal to scholars and students of the novel as well as to historians of culture and all those concerned with eighteenth century studies A broader readership will also find much here to enhance their appreciation of fiction as a cultural artefact Responding to a growing fascination with this period in British history these essays open vital new perspectives on the novel at a key moment in its development

Mammographies Mary K. DeShazer,2018-05-09 Uncovers the lived experience of breast cancer through autobiographical and photographic narratives **The Language of Illness** Fergus Shanahan,2020-09-15 The practice of medicine has advanced dramatically in recent years but the language used to discuss illness by medical practitioners patients and carers has not kept pace As a result clinicians and just as importantly patients and their relatives and carers are not able to communicate clearly in relation to illness The upshot is misunderstanding and confusion on all sides In this ground breaking book Dr Fergus Shanahan an eminent gastroenterologist who has practised in Ireland the United States and Canada and published widely around the world looks at memoirs of illness and outlines the lessons we can learn from a better understanding of the words we use to describe illness He looks at the ways in which language can act as a barrier with regard to illness and proposes practical ways in which we can dismantle these barriers The book is written for the general reader as Dr Shanahan puts it himself he is enough of an expert to be wary of experts The Language of Illness part manifesto

part memoir and part instruction manual is an appeal for the use of clearer more holistic language by all those involved with and affected by illness Like the great American poet doctor William Carlos Williams he aims to help us develop a new language by means of which we can develop a new way of living with illness which is an integral part of the human condition Put simply it is a book for all those who care about caring **House Calls** Patch Adams,1998 A reminder that some of the most important factors in healing are not high tech marvels but ordinary factors such as love compassion friendship and hope

Thomas Couser,1997-11-01 This is a provocative look at writing by and about people with illness or disability in particular HIV AIDS breast cancer deafness and paralysis who challenge the stigmas attached to their conditions by telling their lives in their own ways and on their own terms Discussing memoirs diaries collaborative narratives photo documentaries essays and other forms of life writing G Thomas Couser shows that these books are not primarily records of medical conditions they are a means for individuals to recover their bodies or those of loved ones from marginalization and impersonal medical discourse Responding to the recent growth of illness and disability narratives in the United States such works as Juliet Wittman s *Breast Cancer Journal* John Hockenberry s *Moving Violations* Paul Monette s *Borrowed Time An AIDS Memoir* and Lou Ann Walker s *A Loss for Words The Story of Deafness in a Family* Couser addresses questions of both poetics and politics He examines why and under what

circumstances individuals choose to write about illness or disability what role plot plays in such narratives how and whether closure is achieved who assumes the prerogative of narration which conditions are most often represented and which literary conventions lend themselves to representing particular conditions By tracing the development of new subgenres of personal narrative in our time this book explores how explicit consideration of illness and disability has enriched the repertoire of life writing In addition Couser s discussion of medical discourse joins the current debate about whether the biomedical model is entirely conducive to humane care for ill and disabled people With its sympathetic critique of the testimony of those most affected by these conditions *Recovering Bodies* contributes to an understanding of the relations among bodily dysfunction cultural conventions and identity in contemporary America

**Talking About Death** Virginia Morris, 2025-05-01 Even in this candidly confessional age we ve been conditioned to avoid discussions of death Our youth worshipping culture does everything to deny death which is why when the end nears most of us are inadequately prepared to deal with it And the cost of that is great many are haunted by memories of how inappropriately or painfully or uncomfortably their parents and grandparents died Many of us avoid even considering the options in all their complexity that we will most likely face one day given our new longevity and the profound advances in medicine With its wise and very compelling argument that all of us at any age can and should face death before it faces us *Talking About Death* addresses the cultural personal medical and legal concerns that are necessary for us as individuals and as a society to prepare for a good death a death where the dying are in control and not as is too often the case caught in a downward spiral of medical intervention and misunderstood intentions Virginia Morris skillfully weaves together personal stories and practical matters scientific fact and spiritual sensitivity into an important book about how we can achieve a greater sense of peace in dying and rediscover the art of living
