Segunda Fundación / Second Foundation:

Segunda fundación Isaac Asimov, 2014-12-01 Hari Seldon predijo la caída del Imperio y con el fin de restaurar la civilización en el menor tiempo posible creó dos Fundaciones. La primera fue establecida en Trínium a plena luz del conocimiento público. La segunda, en el otro extremo de la galaxia, tomó forma bajo un velo de total silencio ya que custodiaba las leyes de la psiohistoria que solo son válidas mientras permanezcan en secreto. Cuando la Primera Fundación fue conquistada por el poder de una sola persona, un mutante llamado el Mulo, la Segunda Fundación se vio forzada a revelar su existencia y lo que es peor, una parte de su poder. El Mulo y los vestigios de la Primera Fundación harán cualquier cosa por descubrirla. Esta es la historia de la Segunda Fundación.

Segunda Fundación / Second Foundation Isaac Asimov, 2022-12-06 Segunda Fundación es el quinto volumen del Ciclo de la Fundación, pero también es el cierre de la original Trilogía de la Fundación o Ciclo de Trínium que puede leerse independientemente y que fue galardonada con el Premio Hugo a la mejor serie de ciencia ficción de todos los tiempos. La Fundación yace en ruinas, arrasada por la inteligencia mutante del Mulo. Sin embargo, se rumorea que Hari Seldon, el científico que lo inició todo, ha establecido una Segunda Fundación al otro lado de la galaxia, cuya ubicación exacta es un secreto guardado desde hace tiempo. Obligada a revelar su existencia, la Segunda Fundación deberá enfrentarse a la voluntad destructora del Mulo, con el añadido de que los supervivientes de la Primera Fundación también quieren acabar con ella. Un talento de proporciones cósmicas. Chicago Tribune. ENGLISH DESCRIPTION: The third novel in Isaac Asimov's classic science fiction masterpiece, the Foundation series. The Foundation lies in ruins, destroyed by a mutant mind bent on humanity's annihilation. But it's rumored that there's a Second Foundation hidden somewhere at the end of the Galaxy, established as insurance to preserve the knowledge of mankind. Now a desperate race has begun between the survivors of the First Foundation and an alien entity to find this last flicker of humanity's shining past and future hope. Yet the key to it all might be a fourteen-year-old girl burdened with a terrible secret. Is she the Foundation's savior or its deadliest enemy? Unforgettable thought-provoking and riveting. Second Foundation is a stunning novel of adventure and ideas writ huge across the Galaxy, a powerful tale of humankind's struggle to preserve the fragile light of wisdom against the threat of its own dark barbarism.

Report to the W. K. Kellogg Foundation, *Foundations of Human Sociality* Joseph Henrich, Robert Boyd, Samuel Bowles, Colin Camerer, Ernst Fehr, Herbert Gintis, 2004-03-25 What motives underlie the ways humans interact socially Are these the same for all societies Are these part of our nature or influenced by our environments Over the last decade research in experimental economics has emphatically falsified the textbook representation of Homo economicus Literally hundreds of experiments suggest that people care not only about their own material payoffs but also about such things as fairness equity and reciprocity However this research left fundamental questions unanswered Are such social preferences stable components of human nature or are they modulated by economic

social and cultural environments Until now experimental research could not address this question because virtually all subjects had been university students and while there are cultural differences among student populations throughout the world these differences are small compared to the full range of human social and cultural environments A vast amount of ethnographic and historical research suggests that people's motives are influenced by economic social and cultural environments yet such methods can only yield circumstantial evidence about human motives Combining ethnographic and experimental approaches to fill this gap this book breaks new ground in reporting the results of a large cross cultural study aimed at determining the sources of social non selfish preferences that underlie the diversity of human sociality The same experiments which provided evidence for social preferences among university students were performed in fifteen small scale societies exhibiting a wide variety of social economic and cultural conditions by experienced field researchers who had also done long term ethnographic field work in these societies The findings of these experiments demonstrated that no society in which experimental behaviour is consistent with the canonical model of self interest Indeed results showed that the variation in behaviour is far greater than previously thought and that the differences between societies in market integration and the importance of cooperation explain a substantial portion of this variation which individual level economic and demographic variables could not Finally the extent to which experimental play mirrors patterns of interaction found in everyday life is traced The book starts with a succinct but substantive introduction to the use of game theory as an analytical tool and its use in the social sciences for the rigorous testing of hypotheses about fundamental aspects of social behaviour outside artificially constructed laboratories The results of the fifteen case studies are summarized in a suggestive chapter about the scope of the project
