Seize the Fire Adam Nicolson, 2005-08-09 In Seize the Fire Adam Nicolson author of the widely acclaimed God s Secretaries takes the great naval battle of Trafalgar fought between the British and Franco Spanish fleets in October 1805 and uses it to examine our idea of heroism and the heroic Is violence a necessary aspect of the hero And daring Why did the cult of the hero flower in the late eighteenth and nineteenth centuries in a way it hadn t for two hundred years Was the figure of Nelson intemperate charming theatrical anxious impetuous considerate indifferent to death and danger inspirational to those around him and above all fixed on attack and victory an aberration in Enlightenment England Or was the greatest of all English military heroes simply the product of his time the conjurer of violence that England at some level deeply needed It is a story rich with modern resonance This was a battle fought for the control of a global commercial empire It was won by the emerging British world power which was widely condemned on the continent of Europe as the arrogant usurper of the freedom of the seas Seize the Fire not only vividly describes the brutal realities of battle but enters the hearts and minds of the men who were there it is a portrait of a moment a close and passionately engaged depiction of a frame of mind at a turning point in world history The Readers' Advisory Guide to Nonfiction Neal Wyatt, 2007-05-14 Navigating what at she calls the extravagantly rich world of nonfiction renowned readers advisor RA Wyatt builds readers advisory bridges from fiction to compelling and increasingly popular nonfiction to encompass the library s entire collection She focuses on eight popular categories history true crime true adventure science memoir food cooking travel and sports Within each she explains the scope popularity style major authors and works and the subject s position in readers advisory interviews Wyatt addresses who is reading nonfiction and why while providing RAs with the tools and language to incorporate nonfiction into discussions that point readers to what to read next In easy to follow steps Wyatt Explains the hows and whys of offering fiction and nonfiction suggestions together Illustrates ways to get up to speed fast in nonfiction Shows how to lead readers to a variety of books using her read around and reading map strategies Provides tools to build nonfiction subject guides for the collection This hands on guide includes nonfiction bibliography key authors benchmark books with annotations and core collections It is destined to become the nonfiction bible for readers advisory and collection development helping librarians library workers and patrons select great reading from the entire library collection **J.M.W. Turner and the Subject of History** Leo Costello, 2017-07-05 J M W Turner and the Subject of History is an in depth consideration of the artist's complex response to the challenge of creating history paintings in the early nineteenth century Structured around the linked themes of making and unmaking of creation and destruction this book examines how Turner's history paintings reveal changing notions of individual and collective identity at a time when the British Empire was simultaneously developing and fragmenting Turner similarly emerges as a conflicted subject one whose artistic modernism emerged out of a desire to both continue and exceed his eighteenth century aesthetic background by responding to the altered political and historical circumstances of the

nineteenth century **Team of Teams** General Stanley McChrystal, Tantum Collins, David Silverman, Chris Fussell,2015-05-12 From the New York Times bestselling author of My Share of the Task and Leaders comes a manual for leaders looking to make their teams more adaptable agile and unified in the midst of change When General Stanley McChrystal took command of the Joint Special Operations Task Force in 2004 he guickly realized that conventional military tactics were failing Al Oaeda in Iraq was a decentralized network that could move quickly strike ruthlessly then seemingly vanish into the local population The allied forces had a huge advantage in numbers equipment and training but none of that seemed to matter To defeat Al Qaeda they would have to combine the power of the world's mightiest military with the agility of the world's most fearsome terrorist network. They would have to become a team of teams faster flatter and more flexible than ever In Team of Teams McChrystal and his colleagues show how the challenges they faced in Irag can be rel evant to countless businesses nonprofits and or ganizations today In periods of unprecedented crisis leaders need practical management practices that can scale to thousands of people and fast By giving small groups the freedom to experiment and share what they learn across the entire organization teams can respond more quickly communicate more freely and make better and faster decisions Drawing on compelling examples from NASA to hospital emergency rooms Team of Teams makes the case for merging the power of a large corporation with the agility of a small team to transform any organization Trafalgar Chronicle Judith Pearson, John Rodgaard, 2023-02-16 The Trafalgar Chronicle sponsored by The 1805 Club is the publication of choice for new research about the Georgian Navy sometimes called Nelson's Navy though its scope includes all the sailing navies of the period from 1714 to 1837 Our expert contributors for 2022 reside in the UK US Canada and Denmark Their contributions tell stories of drama political intrigue daring ingenuity war and adventure on the world's oceans This year s volume is based on the theme of scientific and technological advances in the navies of the Georgian era Theme related articles document aspects of the Industrial Revolution describing developments innovations and inventions in manufacturing engineering gunnery and armaments charting and navigation sailing tactics shipboard medicine and explorations of the natural world In the tradition of recent editions the 2022 Trafalgar Chronicle also contains biographical sketches of Nelson's contemporaries Sir Harry Neale and George Matcham brother in law to Lord Nelson Two additional topics of general interest include a new perspective on single ship actions in the War of 1812 and a riveting tale of a futile Danish Navy expedition to Morocco in 1751 Handsomely illustrated this issue will make a fascinating and admired addition to any naval history library The Dark Path Williamson Murray, 2024-10-22 From an esteemed military historian a sweeping history of the revolutions in war fighting that have shaped the modern world Heraclitus wrote that war is the father of all and it has formed much of the modern world Although the fundamental nature of war has not altered over the centuries constant change innovation and adaptation have repeatedly reshaped how wars are fought in the West Revolutions in military practice cannot be separated from larger social developments in areas like logistics finance and economics and the culture of military

organizations In The Dark Path Williamson Murray argues that the history of warfare in the West hinged on five revolutions which both reflected the social political and economic conditions that produced them and in turn influenced how those conditions evolved These five key turning points are the advent of the modern state which formed bureaucracies and professional militaries the Industrial Revolution which produced the financial and industrial means to sustain and equip large armies the French Revolution which provided the ideological basis needed to sustain armies through continent sized wars the merging of the Industrial and French Revolutions in the U S Civil War and the accelerating integration of technological advancement financial capacity ideology and government that unleashed the modern capacity for total warfare An ambitious work of synthesis this book shows how the world continually re creates war and how war in turn continually re creates the Nelson's Navy in Fiction and Film Sue Parrill, 2009-12-21 This book provides summaries and analyses of more than 250 novels and nearly 30 films and examines the extent to which they accurately reflect the history mores and manners of the period and the extent to which they reveal the ideas and attitudes of their authors and of the periods in which they were written Particular emphasis is placed on the nature and importance of the war at sea for the British and on the role of famous naval officers such as Nelson Pellew Duncan Smith and Cochrane in the defeat of Napoleon **Warfare and Logistics** along the US-Canadian Border during the War of 1812 Christopher D. Dishman, 2021-12-15 Christopher D Dishman provides a comprehensive study of the combat that took place along the US Canadian frontier during the War of 1812 where the bulk of the war s fighting took place The border region which included the St Lawrence River and Great Lakes served as Britain's supply line to receive and distribute supplies The region's size varied topography and undeveloped infrastructure however made this a challenging environment to move troops and supplies to the battlefield Few large settlements or all season roads intersected the region so reinforcements food or ammunition could be weeks or months away from their destination Dishman analyzes the critical role of logistics and explains how the safe and timely arrival of soldiers shipwrights cannons and other provisions often dictated a battle s outcome before a shot was fired The northern frontier between the United States and the British Empire remained the focus of US military efforts throughout the war The president and Congress declared war on Britain to force its leaders to negotiate on bilateral issues and America's only viable offensive military option was to invade Canada Victory for either side depended on enough men and materials arriving promptly at a remote outpost or dockyard from distant supply depots Canada could not produce many of its needed items in country so America retained a distinct advantage with its indigenous metalworks and iron industries These components proved critical in a war that depended on the rushed construction of vessels that could outgun their enemy Warfare and Logistics along the US Canadian Border during the War of 1812 is a deeply researched and highly readable assessment of the successes and failures of military operations from 1812 to 1814 The book also highlights the interdependencies between land and naval operations in the war and illuminates the influence of changing military and political factors on Britain's and America's

military objectives Warfare and Logistics along the US Canadian Border during the War of 1812 also evaluates the performance of the military and civilian officers as Dishman brings a distant war s battles to life with stories from participating soldiers and civilians Creative Execution Eric Beaudan, 2012-05-08 The ultimate game changer for reinventing strategy and igniting people Whether it was Alexander the Great or Lord Horatio Nelson the management team at Toyota or Google the indisputable alchemy of strategy execution and leadership led to each sphenomenal success With years of experience assessing and developing executive talent author Eric Beaudan examines the essence of such a dynamic mix summed up as Creative Execution showing how organizations and individuals can attain or reach for unheralded levels of success Profiling extraordinary leaders and the uncommon leadership tactics that are their hallmark the book also includes proprietary research and firsthand experiences with clients across the globe illustrating the principles of Creative Execution in action Details the five elements of Creative Execution including fostering candid dialogue across the organization spelling out clear roles and responsibilities and taking bold action Includes proprietary research assessments and case studies With tactics strategies and calls to action to help any organization shape and apply the dynamics of Creative Execution this powerful one volume manifesto will help any leader get in the trenches learn firsthand the impact of their decisions and restore ingenuity cooperation and a sense of collective commitment to the workplace God's Secretaries Adam Nicolson, 2005-08-02 A network of complex currents flowed across Jacobean England This was the England of Shakespeare Jonson and Bacon the era of the Gunpowder Plot and the worst outbreak of the plague Jacobean England was both more godly and less godly than the country had ever been and the entire culture was drawn taut between these polarities This was the world that created the King James Bible It is the greatest work of English prose ever written and it is no coincidence that the translation was made at the moment Englishness specifically the English language itself had come into its first passionate maturity The English of Jacobean England has a more encompassing idea of its own scope than any form of the language before or since It drips with potency and sensitivity The age with all its conflicts explains the book This P S edition features an extra 16 pages of insights into the book including author interviews recommended reading and more Why Homer Matters Adam Nicolson, 2014-11-18 Adam Nicolson writes popular books as popular books used to be a breeze rather than a scholarly sweat but humanely erudite elegantly written passionately felt and his excitement is contagious James Wood The New Yorker Adam Nicolson sees the Iliad and the Odyssey as the foundation myths of Greek and our consciousness collapsing the passage of 4 000 years and making the distant past of the Mediterranean world as immediate to us as the events of our own time Why Homer Matters is a magical journey of discovery across wide stretches of the past sewn together by the poems themselves and their metaphors of life and trouble Homer's poems occupy as Adam Nicolson writes a third space in the way we relate to the past not as memory which lasts no more than three generations nor as the objective accounts of history but as epic invented after memory but before history poetry which aims to bind the wounds that time

inflicts The Homeric poems are among the oldest stories we have drawing on deep roots in the Eurasian steppes beyond the Black Sea but emerging at a time around 2000 B C when the people who would become the Greeks came south and both clashed and fused with the more sophisticated inhabitants of the Eastern Mediterranean The poems which ask the eternal questions about the individual and the community honor and service love and war tell us how we became who we are

The Age of the Ship of the Line Jonathan R. Dull, 2009-05-21 The acclaimed naval historian takes the reader through the intricacies of warship design and construction in both French and British navies Historical Novel Society In the series of wars that raged between France and Britain from the seventeenth to the nineteenth centuries seapower was of absolute vital importance Not only was each nation s navy a key to victory but was a prerequisite for imperial dominance These ongoing struggles for overseas colonies and commercial dominance required efficient navies which in turn insured the economic strength for the existence of these fleets as instruments of state power This book by the distinguished historian Jonathan Dull looks inside the workings of both the Royal and the French navies of this tumultuous era and compares the key elements of the rival fleets Through this balanced comparison Dull argues that Great Britain's final triumph in a series of wars with France was primarily the result of superior financial and economic power This accessible and highly readable account navigates the intricacies of the British and French wars in a way which will both enlighten the scholar and fascinate the general reader Naval warfare is brought to life but also explained within the framework of diplomatic and international history A welcome and concise source of information Military historians will find data about the numbers of ships in each navy for each period covered Diplomatic historians will find brief descriptions of the various heads of state and the ministers whose decisions led to wars victories defeats and economic disasters International Journal of Naval History Sea John R. Hale, 2009-05-14 The epic true story of Themistocles and the Battle of Salamis and a rousing history of the world s first dominant navy and the towering empire it built The Athenian Navy was one of the finest fighting forces in the history of the world It engineered a civilization empowered the world's first democracy and led a band of ordinary citizens on a voyage of discovery that altered the course of history With Lords of the Sea renowned archaeologist John R Hale presents for the first time the definitive history of the epic battles the fearsome ships and the men from extraordinary leaders to seductive rogues that established Athens s supremacy With a scholar s insight and a storyteller s flair Hale takes us on an unforgettable voyage with these heroes their turbulent careers and far flung expeditions bringing back to light a forgotten maritime empire and its majestic legacy DEMOCRACY ON TRIAL Dr. Ricardo Lasso, 2010-03-29 The great wartime leader Winston Churchill once remarked Democracy is the worst form of government except for all those other forms that have been tried from time to time Democracy on Trial recounts the history of this progressive form of governance while comparing it to a competing form absolutism Today we see the results of this conflict flourishing civilization on one hand and crushing despotism on the other Dr Lasso from his own bitter experiences with the despotism of Panama's dictator shows us how

today s democracy was won and how it must be vigilantly earned Dr Lloyd Muller Historian Triquet's Cross John MacFarlane, 2009-09 In Triquet's Cross John MacFarlane tells the story of Paul Triquet a French Canadian soldier who was awarded the Victoria Cross for bravery in the battle for Casa Berardi during the Second World War Culture, and the Eighteenth Century Tiffany Potter, 2012-01-01 Top scholars in eighteenth century studies examine the significance of the parallel devaluations of women's culture and popular culture by looking at theatres and actresses novels magazines and cookbooks and populist politics dress and portraiture The Furniture of John Shearer, 1790-1820 Elizabeth A.
