Memories Of An Ethnic Failure:

Memories of an Ethnic Failure Victor Arthur, 2005-05-31 *Memories Of An Ethnic Failure* The As Is Version are memories of friends family and foes They are memories of a young man from North Carolina growing up poor and fatherless a young man with a big family and a big heart *Memories Of An Ethnic Failure* we all have them *Memories of Mass Repression* Selma Leydesdorff, 2017-07-05 *Memories of Mass Repression* presents the results of researchers working with the voices of witnesses Its stories include the witnesses victims and survivors it also reflects the subjective experience of the study of such narratives The work contributes to the development of the field of oral history where the creation of the narrative is considered an interaction between the text of the narrator and the listener The contributors are particularly interested in ways in which memory is created and molded The interactions of different even conflicting memories of other individuals and society as a whole are considered In writing the history of genocide emotional memory and objective research are interwoven and inseparable It is as much the historian s task to decipher witness account as it is to interpret traditional written sources These sometimes antagonistic narratives of memory fashioned and mobilized within public and private arenas together with the ensuing conflicts paradoxes and contradictions that they unleash are all part of efforts to come to terms with what happened Mining memory is the only way in which we can hope to arrive at a truer and less biased historical account of events Memory is at some level selective Most believers in political movements turned out to be the opposite of what they promised When given a proper forum stories that are in opposition to dominant memories or in conflict with our own memories can effectively battle collective forgetting This volume offers the reader a vision of the subjective side of history without falsifying the objective reality of human survival *International Change and the Stability of Multiethnic States* Badredine Arfi, 2005-02-23 A n important contribution to scholarship rigorous and intelligible Patrick James University of Missouri *International Change and the Stability of Multiethnic States* contributes to the debate over ethnic conflict and cooperation in multiethnic states destabilized by the changing environment of the post Cold War era proposing a new way of viewing and dealing with these problems Through an analysis of important moments in the history of two prominent multiethnic societies the former Yugoslavia and Lebanon in which nonstate actors such as communal groups played important roles in events that determined the fates of both states Badredine Arfi builds a general theory of how the governance of multiethnic societies is transformed under changing international conditions His work provides new insights on how policymaking can be improved to respond to the challenges posed by the creation maintenance transformation and when it occurs collapse of state governance in multiethnic societies This timely work will interest scholars of international relations and comparative politics regional specialists policymakers and activists *Nation Failure, Ethnic Elites, and Balance of Power* Shinasi A. Rama, 2019-01-12 This book examines the history of nation building in Kosova as a model of how the theories behind nation building state building and peace building can succeed or fail The author argues that two missing

factors led to successful state building but failed nation building in Kosova the balance of power and the ethnic elite The author uses his unique expert knowledge gained over thirty years of study to present a thorough overview of international administration and nation building in Kosova *The Essential Handbook of Memory Disorders for Clinicians* Alan D. Baddeley, Michael Kopelman, Barbara A. Wilson, 2004-07-29 This concise version of the Handbook of Memory Disorders is a selection of chapters from the original volume that have been chosen with the busy practitioner in mind The Essential Handbook provides individual clinicians and students with those parts the editors consider most relevant and useful on a day to day basis as a portable adjunct to the more comprehensive Handbook Handbook of Memory Disorders 047 149819X

Emotional Memory Failures Ineke Wessel, Daniel B. Wright, 2004 The beginning of the 1990 s saw a partisan debate about the nature of recovered memories for highly emotional events Some authors claimed that recovered memories of trauma always referred to veridical memories that had been inaccessible for years Others argued that such memories were false by definition and that they were created by therapeutic attempts to uncover trauma that was believed to lie at the root of anxiety or depression Although the debate soon moved to a middle ground both sides fuelled the development of relevant experimental paradigms to explore the mechanisms for how false memories might be created and also how true memories might be forgotten Examples are studies looking at memory implanting false word memory and retrieval induced forgetting in the mid 1990 s Many studies using such paradigms however relied on emotionally neutral material Studies relating to trauma were less readily available Now more and more researchers are bridging this gap testing whether emotive material can be implanted and forgotten and whether there are special populations more susceptible to these effects This special issue brings together papers examining emotion and memory malleability both providing a picture of the state of the art research and pushing the field forward **Assault on Mexican American Collective Memory, 2010-2015** Rodolfo F.

Acuña, 2017-05-30 This book uses a micro narrative structure to explore the assault on the collective memory of Mexican Americans in the Southwest United States from 2010 2016 These communities survival depends on their histories and identities which are being quickly erased by gentrification and dispersal neoliberalism and privatization This issue is most apparent in the education system where Mexican American students receive inferior educations and lack access to higher education Avoiding the overly theoretical macro narrative this book uses case studies and micro narratives to suggest possible changes and actions to address this issue It also explores how the erasure of Mexican Americans history and identity mirrors society as a whole **Fiction, Memory, and Ethnic Politics in the South Caucasus** Mikail Mamedov, Peter

Orte, Nona Shahnazarian, Ulvi Ismayil, 2025-09-30 The book explores the aftermath of the disintegration of the Soviet Union and the effects of war and nationalism in the South Caucasus While the Soviet Union s dissolution seemed to promise democracy and liberalization the rise of nationalist movements in Armenia and Azerbaijan led to those countries becoming undemocratic monoethnic states which ethnically cleansed their largest minorities During the violence of the first stage of

the Karabakh War 1992 1994 Armenians were expelled from Azerbaijan and Azerbaijanis were expelled from Armenia The persistence of this violent conflict through the second 2020 and third 2023 stages has led to competing incompatible national narratives and an entrenched imagination of the other as the enemy Explaining these events historical context by tracing them back to specific Soviet and Tsarist policies the contributors of this volume examine the impact of the Karabakh conflict on ordinary people s lives in Armenia and Azerbaijan by analyzing fiction film and other forms of public memory Ultimately they show how eternal enmity is a myth and point to potential solutions to the conflict This study will be useful to students and scholars of Soviet and Post Soviet History Nationalism Empire and Conflict Studies *Religion, Violence, Memory, and Place* Oren Baruch Stier, J. Shawn Landres, 2006 Scholars from a variety of disciplines explore the intersections of violence memory and sacred space Remembering Conquest Omar Valerio-Jiménez, 2024-04-30 This book analyzes the ways collective memories of the US Mexico War have shaped Mexican Americans civil rights struggles over several generations As the first Latinx people incorporated into the nation Mexican Americans were offered US citizenship by the Treaty of Guadalupe Hidalgo which ended the war Because the 1790 Naturalization Act declared whites solely eligible for citizenship the treaty pronounced Mexican Americans to be legally white While their incorporation as citizens appeared as progress towards racial justice and the electorate s diversification their second class citizenship demonstrated a retrenchment in racial progress Over several generations civil rights activists summoned conquest memories to link Mexican Americans poverty electoral disenfranchisement low educational attainment and health disparities to structural and institutional inequalities resulting from racial retrenchments Activists also recalled the treaty s citizenship guarantees to push for property rights protection from vigilante attacks and educational reform Omar Valerio Jim nez addresses the politics of memory by exploring how succeeding generations reinforced or modified earlier memories of conquest according to their contemporary social and political contexts The book also examines collective memories in the US and Mexico to illustrate transnational influences on Mexican Americans and to demonstrate how community and national memories can be used strategically to advance political agendas
