One Irish One American:

One America Indivisible Sheldon Hackney, 1999-05 Culture Clash 2 Thomas D. Zweifel, 2013-07 Few are prepared for managing across cultures and the costs of cultural blind spots can spin out of control from lawsuits to lost opportunities Forged in the fire of clashing cultures and living on four continents Dr Zweifel developed a fool proof methodology for managing successfully across borders And post 9 11 the Arab Spring and the BRICS emerging markets e commerce and social networks have made this updated and expanded edition of Culture Clash indispensable Culture Clash 2 is not another Kiss Bow or Shake Hands Such protocol laden works on whether to bring wine to a dinner in Singapore or how many times to kiss in France might have their uses but non compliance with local etiquette has rarely been a deal breaker What has derailed international business is the inability of managers to see the world from their counterpart s point of view read between the lines and decode the mind set of the other side *Report relating to the registry and return of births, marriages and deaths and of divorce in the state of Rhode Island. 1857 ,1858* **Portrayals of Americans on the World Stage** Kevin J. Wetmore, Jr., 2014-01-10 This collection of 14 essays explores drama from around the world that depicts the United States and Americans From eighteenth century German dramas about Native Americans through post Revolutionary War British plays to the theaters of contemporary Japan Mexico Serbia Ireland Ghana and other nations the contributors consider conflicting representations of Americans Often critical sometimes flattering and occasionally insulting these various international views highlight perceptions of America abroad and how they influence the world s stages **The Experiences of Refugee Youth from Burma in an American High School** Lisa Roof, Mary B. McVee, 2020-12-29 This timely volume uses critical ethnographic methods to trace the experiences and identities of refugee students from Burma as they move through their final year of schooling in an urban high school in the United States Against the backdrop of increasing tensions surrounding immigration and identity in America The Experiences of Refugee Youth from Burma in an American High School presents an analysis of the academic paths of adolescent immigrants and the challenges they face throughout their schooling Delving into the historical and socio political context of the school and surrounding landscape this volume offers an immersive insider perspective of the educational circumstances of SaySay Paw Htoo and Hlaing the three newcomer youths from Burma Through detailed ethnographic narratives readers are introduced to resilient adolescents who navigate their way through the maze of social expectations language learning demands and ethnic related tensions to rebuild their identities in the United States By highlighting the students stories and identities the book shows how racism is subtly woven into the fabric of education in the United States and how schools can provide more equitable schooling for newcomers from other nations This volume will benefit graduate students researchers academics and pre service teachers in the fields of English language learning refugee and immigrant education and the sociology of education Those with an interest in urban and multicultural education will also find this text useful **Literature and Terrorism** , 2012-01-01 The years following the

attacks of September 11 2001 have seen the publication of a wide range of scientific analyses of terrorism Literary studies seem to lag curiously behind this general shift of academic interest The present volume sets out to fill this gap It does so in the conviction that the study of literature has much to offer to the transdisciplinary investigation of terror not only with respect to the present post 9 11 situation but also with respect to earlier historical contexts Literary texts are media of cultural self reflection and as such they have always played a crucial role in the discursive response to terror both contributing to and resisting dominant conceptions of the causes motivations dynamics and aftermath of terrorist violence By bringing together experts from various fields and by combining case studies of works from diverse periods and national literatures the volume *Literature and Terrorism* chooses a diachronic and comparative perspective It is interested in the specific cultural work performed by narrative and dramatic literature in the face of terrorism focusing on literature s ambivalent relationship to other competing modes of discourse
