The Quest for the Three Keys Deke Rivers, 2015-12-30 During WWII many German Generals traded and sold Stolen Works of Art to Private Art Collectors around the world and made small fortunes for themselves One General simply known as Herr General did the same but he knew he would not survive the War so he hid his stolen Art in two inconspicuous locations and secured his money and wealth in a Swiss Bank Account Herr General then prepared a written manuscript in three languages and secured it in a leather bound portfolio The Portfolio was in fact a

written treasure map leading one to the stolen art and wealth that he had accumulated Years after the war the portfolio surfaces and then the scramble begin This story is that Quest for Herr General s Art and Treasures based on his portfolio

Opa's Story Hubert Bruns,2005-03 The odds were against Hubert Bruns making it to age 80 but he did Incredible luck prevailed throughout his life As a youngster he absconded with a bobsled and raced it down the mountain As a teenager he looked down through cracks in some scaffolding straight at Hitler without being shot At 18 as a German soldier he left the Front only hours before the Russians counter attacked late in 1941 At 21 as a veteran he was buried alive and almost died in Munich Less dramatic happenings followed but his luck continued Two university degrees were acquired and Canadian immigration approved him for citizenship without delay At 65 he survived a stroke and slowly regained the ability to think talk and write Quite a life Quite a story *Acid Deposition: Environmental, Economic, and Policy Issues* Donald

Adams,2012-12-06 Concern about acid deposition commonly referred to as acid rain as a widespread pollution problem with severe ecological consequences has heightened public awareness Many authorities fear that acid deposition may be the worst environmental crisis of our industrialized society because of both the global implications and possible widespread irreversible damage to lakes soils and forested ecosystems Neither state nor international boundaries are exempt from the transport and deposition of airborne pollutants resulting from local and distant emission sources The dilemma and debate will continue as long as society requires fossil fuels for its energy needs without regard to emission constraints This book started as a modest attempt to provide a status report on atmospheric transport the chemical processes which produce acidifying agents and resultant ecological and economic consequences The materials in this book have been substantially revised from those presented at the conference in 1983 It became obvious that additional chapters were required when sudden and profound changes occurring in European forests were reported It is felt that perhaps such damages could be an early warning to forested ecosystems in the northeastern United States and Canada as well as other places throughout the world Most importantly it is essential that gained scientific knowledge be translated into required legislation a section on Policy Issues was incorporated to address these concerns It is hoped that the reader will become informed and concerned enough to be involved in ll this llglobal debate Donald D Adams Halter P **Mad Blood Stirring** Daemon

Fairless,2018-03-06 With a rare clarity and fearless honesty journalist Daemon Fairless tackles the horrors and compulsions of male violence from the perspective of someone who struggles with violent impulses himself creating a non fiction masterpiece with the narrative power of novels such as Fight Club and A History of Violence A man no matter how civilized is still an animal and sometimes a dangerous one Men are responsible for the lion s share of assault rape murder and warfare Conventional wisdom chalks this up to socialization that men are taught to be violent And they are But there s more to it Violence is a dangerous desire a set of powerful and inherent emotions we are loath to own up to And so there remains a hidden geography to male violence an inner ecosystem of rage dominance blood lust insecurity and bravado yet to be

mapped Mad Blood Stirring is journalist Daemon Fairless s riveting first person travelogue through this territory as he seeks to understand the inner lives of violent men and ultimately himself
