Holden,2022 Leading scholars of Central America offer critical analyses of major themes in the historiography of this seven country region of Latin America Chapters engage both the novice's search for basic orientation and context and the experienced scholar's interest in evaluative critiques of the historical literature *A People's History of the U.S. Military* Michael A. Bellesiles,2012-09-11 In *A People's History of the U S Military* historian Michael A Bellesiles draws from three centuries of soldiers' personal encounters with combat through fascinating excerpts from letters diaries and memoirs as well as audio recordings film and blogs to capture the essence of the American military experience firsthand from the American Revolution to the wars in Iraq and Afghanistan Military service can shatter and give meaning to lives it is rarely a neutral encounter and has contributed to a rich outpouring of personal testimony from the men and women who have literally placed their lives on the line The often dramatic and always richly textured first person accounts collected in this book cover a wide range of perspectives from ardent patriots to disillusioned cynics barely literate farm boys to urbane college graduates scions of founding families to recent immigrants enthusiasts and dissenters women disguising themselves as men in order to serve their country to African Americans fighting for their freedom through military service A work of great relevance and immediacy as the nation grapples with the return of thousands of men and women from active military duty *A People's History of the U S Military* will become a major new touchstone for our understanding of American military service Cultures of United States Imperialism Amy Kaplan,Donald E. cultural studies history anthropology and literature reveal the denial of empire at the heart of American Studies Challenging traditional definitions and periodizations of imperialism this volume shows how international relations reciprocally shape a dominant imperial culture at home and how imperial relations are enacted and contested within the United States Drawing on a broad range of interpretive practices these essays range across American history from European representations of the New World to the mass media spectacle of the Persian Gulf War The volume breaks down the boundary between the study of foreign relations and American culture to examine imperialism as an internal process of cultural appropriation and as an external struggle over international power The contributors explore how the politics of continental and international expansion conquest and resistance have shaped the history of American culture just as much as the cultures of those it has dominated By uncovering the dialectical relationship between American cultures and international relations this collection demonstrates the necessity of analyzing imperialism as a political or economic process inseparable from the social relations and cultural representations of gender race ethnicity and class at home Contributors Lynda Boose Mary Yoko Brannen Bill Brown William Cain Eric Cheyfitz Vicente Diaz Frederick Errington Kevin Gaines Deborah Gewertz Donna Haraway Susan Jeffords Myra Jehlen Amy Kaplan Eric Lott Walter Benn Michaels Donald E Pease Vicente Rafael Michael Rogin Jos David Sald var Richard Slotkin Doris Sommer Gauri Viswanathan Priscilla Wald Kenneth Warren Christopher P Wilson

Swindlers All, a Brief History of Government Business Frauds from Alexander Hamilton to AIG Michael Powelson, 2019-04-24 In the wake of the Great Recession of 2007 2008 millions of hardworking Americans lost their jobs and their homes their retirements and their income However the corporations that caused the Great Recession lost nothing and were in fact given trillions of dollars by the government in an unprecedented financial bailout While over 16 trillion dollars went missing not a single Wall Street executive was punished or even charged with a crime This book chronicles some of the government and business frauds carried out throughout US history These swindles were carried out by such Founders as Alexander Hamilton George Washington James Madison and Thomas Jefferson Corruption was also at the core of the Andrew Jackson administration and played a key role in perpetrating the Panic of 1837 and government and business fraud was rampant in the construction of both the transcontinental railroad and the Panama Canal Court rulings granting corporations the status of legal personage were part of a broader scam that extended greater constitutional and legal protections to corporations while denying Blacks and workers their own constitutional and legal rights Government and business frauds of the 1920s played a prominent role in spawning the Great Depression of 1929 while funding and provisioning the US military has always been inundated with a wide variety of scams In the early 1990s government and business scams resulted in the collapse of the savings and loan industry while the frauds of the early 21st century resulted in the Great Recession of 2007 2008 Today all of the factors are in place to lead to yet another depression recession which will be followed inevitably by a massive government bailout of banks and corporations **Abuses of the Erotic** Josh Cerretti, 2019-07-01 Events ranging

from sexual abuse at Abu Ghraib to the end of Don't Ask, Don't Tell hint that important issues surrounding gender and sexuality remain at the core of political and cultural problems. Nonetheless, intersectional analyses of militarism that account for questions of race, class, and gender remain exceedingly rare. *Abuses of the Erotic* fills this gap by offering a comprehensive picture of how military values have permeated the civilian cultural sphere and by investigating connections between sexuality and militarism in the United States since the late 1980s. Josh Cerretti takes up the urgent task of applying an interdisciplinary transnational framework to the role of sexuality in promoting, expanding, and sustaining the war on terror to understand the links between what Cerretti calls domestic militarism and later projects of state-backed violence and intervention. This work brings together scholarship on domestic and international militarization in relation to both homosexuality and heterosexuality to demonstrate how sexual and gender politics have been deployed to bolster U.S. military policies and by tracking over a decade of militarized sexuality how these instances have foundationally changed how we think of sexual and gender politics today.

U.S. Presidents and Latin American Interventions Michael Grow, 2008-06-10 Lyndon Johnson invaded the Dominican Republic. Richard Nixon sponsored a coup attempt in Chile. Ronald Reagan waged covert warfare in Nicaragua. Nearly a dozen times during the Cold War, American presidents turned their attention from standoffs with the Soviet Union to intervene in Latin American affairs. In each instance, it was declared that the security of the United States was at stake, but as Michael Grow demonstrates, these actions had more to do with flexing presidential muscle than responding to imminent danger. From Eisenhower's toppling of Arbenz in Guatemala in 1954 to Bush's overthrow of Noriega in Panama in 1989, Grow casts a close eye on eight major cases of U.S. intervention in the Western Hemisphere, offering fresh interpretations of why they occurred and what they signified. The case studies also include the Bay of Pigs fiasco, Reagan's invasion of Grenada in 1983, and JFK's little-known 1963 intervention against the government of Cheddi Jagan in British Guiana. Grow argues that it was not threats to U.S. national security or endangered economic interests that were decisive in prompting presidents to launch these interventions. Rather, each intervention was part of a symbolic geopolitical chess match in which the White House sought to project an image of overpowering strength to audiences at home and abroad in order to preserve both national and presidential credibility. As Grow also reveals, that impulse was routinely reinforced by local Latin American elites such as Chilean businessmen or opposition Panamanian politicians who actively promoted intervention in their own self-interest. LBJ's loud lament, "What can we do in Vietnam if we can't clean up the Dominican Republic?" reflected just how preoccupied our presidents were with proving that the U.S. was no paper tiger and that they themselves were fearless and forceful leaders. Meticulously argued and provocative, Grow's bold reinterpretation of Cold War history shows that this special preoccupation with credibility was at the very core of our presidents' approach to foreign relations, especially those involving our Latin American neighbors.
