Public Persons:

Public Persons Walter Lippmann, 2017-07-05 This set of brief pieces examines the relation of power to knowledge Lippmann paid little homage to the innate wisdom of the people While he had no wish to disenfranchise citizens he believed elites drove the engines of power His point was that liberty and democracy require government that will when necessary swim against the tides of private feelings Because the public is too divided poorly informed and too self regarding authority has to be delegated perhaps to intelligence bureaus or at least to those who are wiser than the many that have the power to decide vexing questions on their own merits Lippmann knew that in the real world we cannot expect to be ruled by philosopher kings While ready to settle for less he was not ready to settle for politicians who get ahead only as they placate appease bribe seduce bamboozle and otherwise manage to manipulate demanding and threatening elements in their constituencies The seducers and bamboozlers were generally in charge and because they were in an age rich with varied and generous passions they had become disorderly and deranged Public Persons is the informal side of The Public Philosophy Lippmann tries to account for the decline of Western democracies and prescribe for their revival He concludes that it is not possible to discover by rational inquiry the conditions that must be met if there is to be a good society Lippmann saw tension between private impulses and transcendent truth as the inexhaustible theme of human discourse The occasional harmonies in the lives of saints and the deeds of heroes and the excellence of genius are glorious But glory was the exception wretchedness the rule In this casual volume both are given a human face *Stalking, Threatening, and Attacking Public Figures* J. Reid Meloy, Lorraine Sheridan, Jens Hoffmann, 2008-06-12 Public figures require attention whether from a constituency who votes them in or out of office shareholders who decide their economic benefit to the corporation or fans who judge their performances However on the periphery of this normal attention resides a very real risk that of a much smaller group of individuals who lack the ability to discriminate between their own private fantasies and the figure's public behavior They may be personally insulted by perceived betrayal fanatically in love due to a perceived affectionate or sexual invitation or simply preoccupied with the daily life of the public figure Such individuals may fixate and do nothing more Others communicate or approach in a disturbing way A few will threaten And on rare occasions one will breach the public figure's security perimeter and attack *Stalking Threatening and Attacking Public Figures* is a comprehensive survey of the current knowledge about stalking violence risk and threat management towards public figures With contributions from forensic psychologists and psychiatrists clinicians researchers attorneys profilers and current and former law enforcement professionals this book is the first of its kind international in scope and rich in both depth and complexity The book is divided into three sections which in turn focus upon defining explaining and risk managing this increasingly complex global reality Chapters include detailed case studies analyses of quantitative data reflections from attachment theory and psychoanalytic thought descriptions of law enforcement and protective organization activities mental health and psychiatric categorizations

and understandings consideration of risk assessment models and variables victim perspectives and others *Quotations For the Public Person* Judge Robert C. Coates, Robert E. Miner, 2019-02-26 It is a good thing for an uneducated man to read books of quotations Bartlett's Familiar Quotations is an admirable work and I have studied it intently The quotations when engraved upon the memory give you good thoughts They also make you anxious to read the authors and look for more Sir Winston Churchill Live your life as though your every act were to become universal Law Immanuel Kant Those of you who will be truly happy are those who have sought and found how to serve Albert Schweitzer I think it is required of a man that he should share the passions of his time at the peril of being judged not to have lived Oliver Wendell Holmes In the midst of winter I suddenly found there was in me an invincible summer Albert Camus Without criticism and reliable and intelligent reporting the government cannot govern Walter Lippmann Our doubts are traitors and make us lose the good we oft might win by fearing to attempt William Shakespeare Measure for Measure **The Law Relating to Public Health and Local**
