

Puer Aeternus

Mary Ann Mattoon

Puer Aeternus:

Remaking Men David John Tacey, 1997 In *Remaking Men* Tacey critically evaluates the use of Jungian psychology in studies of masculinity. It brings together social and psychological approaches to masculinity for the first time. *Jung and the Jungians on Myth* Steven F. Walker, 2002 In this book Steven Walker carefully leads the reader through the fundamentals of the psychology that underlies Jung's theory of myth. He defines key terms and distinguishes dream from fantasy in psychological experience. He then traces the lineage of Jungian theory from Jung through such disciples as Van Franz and Neumann to contemporary archetypal psychology. By applying Jungian psychology to an array of myths to illustrate core concepts of this theoretical tradition, Walker fills a conspicuous gap in the current literature on Jung from back cover

Love and the Soul James Gollnick, 2006-01-01 This book provides serious students of psychology, religion, and mythology with a detailed account and analysis of what has been accomplished in the psychological interpretation of the Eros and Psyche myth to date. The Eros and Psyche myth has over the course of the twentieth century received nearly as much attention from depth psychologists as has the Oedipus story. In their attempt to better understand this popular story, scholars have proposed various interpretations which have generally followed either Freudian or Jungian theories about the nature of the psyche and its development. *Love and the Soul* emphasizes how psychological theory determines the direction of interpretation much more than does the literary context of the myth itself. It also examines the strengths and weaknesses of these psychological interpretations: five Freudian and six Jungian of the Eros and Psyche myth in order to lay the groundwork for an interpretation which 1. avoids the rigidity of both Freudian and Jungian dogma and 2. restores the myth to its rightful literary and religious context, something which has been ignored by most psychological interpretations. **The Dionysian**

Self Paul Bishop, 1995 Friedrich Nietzsche has emerged as one of the most important and influential modern philosophers. For several decades the book series *Monographien und Texte zur Nietzsche Forschung* (MTNF) has set the agenda in a rapidly growing and changing field of Nietzsche scholarship. The scope of the series is interdisciplinary and international in orientation, reflecting the entire spectrum of research on Nietzsche from philosophy to literary studies and political theory. The series publishes monographs and edited volumes that undergo a strict peer review process. The book series is led by an international team of editors whose work represents the full range of current Nietzsche scholarship. **Analytical**

Psychology Joseph Cambray, Linda Carter, 2004 *Analytical Psychology* written by a range of distinguished authors takes account of advances in other fields such as neuroscience, philosophy, and cultural studies and examines their effects on Jungian analytic theory. **Perpetual Adolescence** Sally Porterfield, Keith Polette, Tita French Baumlin, 2015-05-11 Arguing that American culture appeals to and is populated by children and adolescents who merely appear to be adult men and women, the essays in *Perpetual Adolescence* examine the Jungian archetype of the eternal youth, the puer aeternus, as it is manifested in the arrested development of American culture. From the infantilization of the American psyche and the

lionization of teenaged celebrities and bodies to fanatical conformity and puerile entertainment the contributors probe the various ways that American television music film print Internet education and social movements work to nourish and sustain this child archetype Offering analytic psychology as an instrument of social analysis and critique they point to the need for dialogue over the causes and effects of our puer fixations which have become in large part both a creation and a creator of the American zeitgeist *The Sacred Marriage* Benjamin G. Lockerd,1987 This study is based on an application of Jungian psychology to the love theme in the central books of *The Faerie Queene* It elucidates the connection that Spenser makes between spiritual unfolding and the complementary interaction of the masculine and feminine throughout the poem *The Seven Basic Plots* Christopher Booker,2004-01-01 This book at last provides a comprehensive answer to the age old riddle of whether there are only a small number of basic stories in the world Using a wealth of examples from ancient myths and folk tales via the plays and novels of great literature to the popular movies and TV soap operas of today it shows that there are seven archetypal themes which recur throughout every kind of storytelling But this is only the prelude to an investigation into how and why we are programmed to imagine stories in these ways and how they relate to the inmost patterns of human psychology Drawing on a vast array of examples from Proust to detective stories from the Marquis de Sade to E T Christopher Booker then leads us through the extraordinary changes in the nature of storytelling over the past 200 years and why so many stories have lost the plot by losing touch with their underlying archetypal purpose BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Jungian Psychology in Perspective** Mary Ann Mattoon,1985 *Hermes and His Children* Rafael Lopez-Pedraza,2003 *Hermes and his Children* has become something of a classic among therapists poets artists and readers of many callings Rafael L pez Pedraza approaches the soul through myth pathology image and the very living of them all The love and passion of a man fully in his element radiates throughout this unique work now updated and expanded for this edition
