Victor Gordon Cullen,2014-04-10 The existence of Gulls is unquestionable that they exist in the way portrayed in this book is for you to decide The existence of off shore oil rigs is also unquestionable and their becoming Spike Moulds Standing Upright in the Bright Mother Sea enhances rather than subtracts from their designed purpose The wonders emerging from the Ocean of Energy are for you alone to investigate they exist for your looking and laughing The Ocean of Energy like its much smaller water filled sisters is in constant motion with an inherent efficiency of the highest magnitude possible What once was is

recycled and from this recycling things are made anew for what is important is never wasted Appreciation of such wonders is of course an individual calling and sadly there are many amongst us today who seem convinced they actually own what the Ocean of Energy has freely created The myriad of habitats created as havens for the life forms that followed the Beginning is a wonder greater than all else The needs essential for daily survival were built unreservedly into the system so that they could be used freely whenever required The record being left behind by my own species proves the system can be misused and abused This misuse and abuse so far as understood seems to be tolerated because it is made from energy that has no inherent intelligence of its own Come now let Thag Sea Wolf and Humber Current Holly guide you through their remarkable journey while Harry Lloyd living in a reality closely linked to Gulldom guides you through his own story and the story of the oil industry
