Postcards from Absurdistan Derek Sayer, 2022-11-22 A sweeping history of a twentieth century Prague torn between fascism communism and democracy with lessons for a world again threatened by dictatorship Postcards from Absurdistan is a cultural and political history of Prague from 1938 when the Nazis destroyed Czechoslovakia's artistically vibrant liberal democracy to 1989 when the country's socialist regime collapsed after more than four decades of communist dictatorship Derek Sayer shows that Prague's twentieth century far from being a story of inexorable progress toward some end of history whether fascist communist or democratic was a tragicomedy of recurring nightmares played out in a land Czech dissidents dubbed Absurdistan Situated in the eye of the storms that shaped the modern world Prague holds up an unsettling mirror to the absurdities and dangers of our own times In a brilliant narrative Sayer weaves a vivid montage of the lives of individual Praguers poets and politicians architects and athletes journalists and filmmakers artists musicians and comedians caught up in the crosscurrents of the turbulent half century following the Nazi invasion This is the territory of the ideologist the collaborator the informer the apparatchik the dissident the outsider the torturer and the refugee not to mention the innocent bystander who is always looking the other way and Vclav Havel's greengrocer whose knowing complicity allows the show to go on Over and over Prague exposes modernity's dreamworlds of progress as confections of kitsch In a time when democracy is once again under global assault Postcards from Absurdistan is

an unforgettable portrait of a city that illuminates the predicaments of the modern world **Reisterstown** Gayle Neville Blum,2010-09-06 Before it was a colonial village Reisters Town was home to tribes of the Susquehanna who lived and hunted plentiful wildlife amidst the dense primeval woods Travelers journeyed on narrow Native American trails from remote areas through what is now Reisterstown while on their way to the nearby bustling harbor in Baltimore Town Dirt roads afforded a tiresome trip and a mans throat would easily become parched from the dust John Reister an enterprising German immigrant was one of these early travelers Reister recognized that the area only a days travel from Baltimore would make an ideal site for an inn where weary travelers could rest and recoup In 1758 Reister founded the town on 20 acres that the Calverts had granted him Soon after in 1768 Daniel Bower a Revolutionary War colonel settled on nearby land and built a tavern reputed to have accommodated George Washington By 1800 Reisters Town was a busy community boasting shops a tannery blacksmith inn and taverns which were all vital to the growth of the town and nearby communities Postcards From No Man's Land Aidan Chambers,2004-06-17 Seventeen year old Jacob Todd is about to discover himself Jacob s plan is to go to Amsterdam to honor his grandfather who died during World War II He expects to go set flowers on his grandfather s tombstone and explore the city But nothing goes as planned Jacob isn t prepared for love 150or to face questions about his sexuality Most of all he isn t prepared to hear what Geertrui the woman who nursed his grandfather during the war has to say about their relationship Geertrui was always known as Jacob s grandfather s kind and generous nurse But it seems that in the midst of terrible danger Geertrui and Jacob s grandfather s time together blossomed into something more than a girl caring for a wounded soldier And like Jacob Geertrui was not prepared Geertrui and Jacob live worlds apart but their voices blend together to tell one story 150a story that transcends time and place and war By turns moving vulnerable and thrilling this extraordinary novel takes the reader on a memorable voyage of discovery *Postcards from the Western Front* Mark Connelly,2022-09-15 Visitors to the battlefields of France and Belgium expressed pain and anguish pride and nostalgia and wonder and surprise at what they saw Postcards from the Western Front chronicles the many ways in which these sites were perceived and commemorated by British people both during the First World War and in the twenty years following the Armistice Mark Connelly s definitive and engaging study of the former Western Front examines how different and distinctive sub communities regional ethnic and religious civilian and armed forces influenced the depth and strength of the visiting public s relationship with the battlefields all the while comparing and contrasting this relationship with the viewpoint of the French and Belgian inhabitants of the devastated regions Connelly draws from a vast archive a number of interlocking themes including the lingering presence of the battlefields in the British domestic imagination the often fraught experience of visiting the battlefields memorials and cemeteries functioning as part of a historical testimony to wartime realities and the interactions between visitors and the people living in these former fighting zones Focusing on French and Belgian sites Connelly nevertheless provides insight into other major battlefields fought over by troops from the British Empire Extensively

illustrated with black and white photographs Postcards from the Western Front offers a groundbreaking perspective on landscapes that rarely left anyone whether tourist inhabitant veteran or pilgrim unmoved **Monsoon Postcards** David H. Mould, 2019-06-14 In Monsoon Postcards journalist David H Mould notebook in hand traverses the Indian Ocean from Madagascar through India and Bangladesh to Indonesia It s an unpredictable journey on battered buses bush taxis auto rickshaws and crowded ferries Mould travels from the traffic snarls of Delhi Dhaka and Jakarta to the rice paddies and ancestral tombs of Madagascar s Central Highlands from the ancient kingdom of Hyderabad to India s so called chicken neck the ethnically diverse and underdeveloped northeast and from the textile factories and rivers of Bangladesh to the beaches of Bali and the province of Aceh ground zero for the 2004 tsunami Along the way in markets shops roadside cafes and classrooms he meets journalists professors students aid workers cab drivers and other everyday residents to learn how they view their past and future Much like its predecessor Mould s Postcards from Stanland Monsoon Postcards offers witty and insightful glimpses into countries linked by history trade migration religion and a colonial legacy It explores how they confront the challenges of climate change urban growth economic development land water and natural resources and national and ethnic identity Exposing the Wilderness Robert Bogdan, 1999-10-01 Robert Bogdan combines a richly descriptive text with striking illustrations to create vivid biographical sketches of these pioneer photographers who worked their individual styles to illuminate six different regions of the Adirondack Mountains The book also provides insight into the popular culture of the times mainly through postcards but it also takes an in depth look at the families and work lives of these artisans as they plied their trade in the popular venue of commercial postcards Aside from the Adirondack locals and a few postcard connoisseurs the gifted folk artists and craftspeople profiled here were virtually unknown until now Bogdan has collected nearly 250 illustrations including postcards and photographs depicting Adirondack life of the time Many of these images have never before been published , Communicating Environmental Patriotism Anne Marie Todd, 2013-06-07 Environmental patriotism the belief that the national environment defines a country s greatness is a significant strand in twentieth century American environmentalism This book is the first to explore the history of environmental patriotism in America through the intriguing stories of environmental patriots and the rhetoric of their speeches and propaganda The See America First movement began in 1906 with the aim of protecting and promoting the landscapes of the American West In 1908 Gifford Pinchot and President Theodore Roosevelt hosted the White House Conservation Conference to promote the wise use of natural resources for generations of Americans In 1912 Pittsburgh s smoke investigation condemned the effects of coal smoke on the city s environment In World War II a massive propaganda effort mobilized millions of Americans to plant victory gardens to save resources for the war abroad While these may not seem like crucial moments for the American environmental movement this new history of American environmentalism shows that they are linked by patriotism The book offers a provoking critique of environmentalists communication strategies and suggests patriotism as a persuasive hook for

new ways to make environmental issues a national priority This original research should be of interest to scholars of environmental communication environmental history American history and environmental philosophy *Delirious New Orleans* Stephen Verderber, 2009-02-15 Winner Abbott Lowell Cummings Prize Vernacular Architecture Forum 2010 From iconic neighborhoods such as the French Quarter and the Garden District to more economically modest but no less culturally vibrant areas architecture is a key element that makes New Orleans an extraordinary American city *Delirious New Orleans* began as a documentary project to capture the idiosyncratic vernacular architecture and artifacts vintage mom and pop businesses roadside motels live music clubs neon signs wall murals fast food joints and so on that helped give the city's various neighborhoods their unique character But because so many of these places and artifacts were devastated by Hurricane Katrina *Delirious New Orleans* has become both a historical record of what existed in the past and a blueprint for what must be rebuilt and restored to retain the city's unique multicultural landscape Stephen Verderber starts with the premise that New Orleans's often overlooked neighborhoods imbue the city with deep authenticity as a place He opens *Delirious New Orleans* with a photo essay that vividly presents this vernacular architecture and its artifacts both before Katrina and in its immediate aftermath In the following sections of the book which are also heavily illustrated Verderber takes us on a tour of the city's commercial vernacular architecture as well as the expressive folk architecture of its African American neighborhoods He discusses how the built environment was profoundly shaped by New Orleans's history of race and class inequities and political maneuvering along with its peculiar below sea level geography Verderber also considers the aftermath of Katrina and the armada of faceless FEMA trailers that have at least temporarily and by default transformed this urban landscape *Boston Harbor* Donald Cann, John Galluzzo, 2006 Postcard publishers had plenty to work with in the Boston area at the beginning of the 20th century the heyday of the American postcard This collection of vintage postcards shows how the Boston Harbor Islands offered romantic scenery historic lighthouses and majestic coastal artillery forts picturesque summer destinations and a working waterfront *The Autism Trail Guide* Ellen Notbohm, 2007 Ellen offers advice on concrete issues such as math homework video games and tricky behaviour and also tackles the more abstract concepts of parenting trusting parental instincts when to take risks how to hang on and when to let go Back cover *My White Planet* Mark Jarman, 2008-04-12 Mark Anthony Jarman is one of Canada's most original and compelling writers of short fiction *My White Planet* is his latest collection of fourteen new stories many of which have previously won or been short listed for literary magazine awards Jarman's use of language and metaphor is unique in the Canadian literary pantheon With extraordinary linguistic energy he pushes the boundaries of fiction and story telling Every sentence reverberates with subtle meaning and every reading of a Jarman story brings out ever deeper layers of complexity and nuance Here is a protean writer who bends form and enters into worlds and people with panache and a verve that is breath taking The range of his fiction is stunning troops undertake a nightmarish march following Custer's last stand a father's dogs tear apart his son and

Ruler Personality Cults from Empires to Nation-States and Beyond Kirill Postoutenko, Darin Stephanov, 2020-09-13 Encompassing five continents and twenty centuries this book puts ruler personality cults on the crossroads of disciplines rarely if ever juxtaposed before among its authors are historians linguists media scholars political scientists and communication sociologists from Europe the United States and New Zealand However this breadth and versatility are not goals in themselves Rather they are the means to work out an integrated approach to personality cults capable of overcoming both the dominance of much discussed 20th century poster examples Bolshevism Nazism Fascism and the lack of interest in the related practices of leader adoration in religious and cultural contexts Instead of reiterating the understandable but unfruitful fixation on rulers as the cults focal points the authors focus on communicative patterns and interactional chains linking rulers with their subjects in this light the adoration of political figures is seen as a collective enterprise impossible without active if often tacit collaboration between rulers and their constituencies
