Top 100 Food Plants Ernest Small, 2009 This beautifully illustrated book reviews scientific and technological information about the world's major food plants and their culinary uses An introductory chapter discusses nutritional and other fundamental scientific aspects of plant foods The 100 main chapters deal with a particular species or group of species All categories of food plants are covered including cereals oilseeds fruits nuts vegetables legumes herbs spices beverage plants and sources of industrial food extracts Information is provided on scientific and common names appearance history economic and social importance food uses including practical information on storage and preparation as well as notable curiosities There are more than 3000 literature citations in the book and the text is complemented by over 250 exquisitely drawn illustrations Given the current alarming rise in food costs and increasing risk of hunger in many regions specialists in diverse fields will find this reference work to be especially useful As well those familiar with Dr Small's books or those with an interest in gardening cooking and human health in relation to diet will want to own a copy of this book Publisher's web site *North American Cornucopia* Ernest Small, 2013-09-23 Many North American plants have characteristics that are especially promising for creating varieties needed to expand food production and there are excellent prospects of generating new economically competitive crops from these natives The inadequacy of current crops to meet the food demands of the

world's huge growing population makes the potential of indigenous North American food plants even more significant. These plants can also generate crops that are more compatible with the ecology of the world and many also have inherent health benefits. Presenting detailed scholarship in a thoroughly accessible style and numerous entertaining anecdotes, *North American Cornucopia: Top 100 Indigenous Food Plants* is a full color book dedicated to the most important 100 native food plants of North America north of Mexico that have achieved commercial success or have substantial market potential. The introductory chapter reviews the historical development of North American indigenous crops and factors bearing on their future economic success. The rest of the book consists of 100 chapters each dedicated to a particular crop. The book employs a user friendly chapter format that presents the material in sections offering in depth coverage of each plant. The first section of each chapter provides information on the scientific and English names of the plants followed by a section on the geography and ecology of the wild forms accompanied by a map showing the North American distribution. A section entitled Plant Portrait comprises a basic description of the plant its history and its economic and social importance. This is followed by Culinary Portrait concerned with food uses and culinary vocabulary. The chapters then provide an analysis of the economic future of each crop, discuss notable and interesting scientific or technological observations and accomplishments and present extensive references.

For the Love of Pumpkins Marilyn Alice Tuckman, 2014-07-10 *For the Love of Pumpkins* a cookbook consists of 100 irresistible pumpkin recipes many original or adapted using either fresh pumpkin, canned pumpkin or hulled pumpkin seeds, pepitas. Each recipe in this lovely cookbook is accompanied by an original photograph. The recipes cover a variety of soups, savory side dishes, light entrees and snacks as well as pies, cookies, desserts, cakes, cupcakes, muffins and loaves. Adding to the wide range of offerings is a finale category called Odds, how to seed and peel fresh pumpkin, pumpkin yields, how to make homemade pumpkin puree, how to roast, bake, microwave, boil, steam and grill fresh pumpkin, how to both roast and toast pumpkin seeds and more. Whether a pumpkin lover, already a creative cook or simply curious and in need of new recipes that are sure to delight, the reader will be fascinated with all of the uses for pumpkin that are warmly shared in this book. Everyone will be sure to find a use for a spare pumpkin for any culinary occasion. About the Author: Since she was a girl in a suburban 4-H club, Marilyn Alice Tuckman has collected recipes, many of which are pumpkin recipes. She feels that nature is truly mystical and that pumpkins especially have a vitality that sparks imagination. By combining her food tasting, sensory work of over twenty years with her love of pumpkins and using the morning sunshine that streams into her kitchen to photograph the pumpkin in so many expressive ways, she has experienced the pleasure of joyfully constructing this book. She hopes that the vitality and beauty of pumpkins nourish and inspire all who encounter them. *For the Love of Pumpkins* a cookbook. Tuckman is a sensory food taster for a large international company and a former quality control and laboratory technician for a major bakery and a condiment manufacturer. She lives with her husband Jeff in Elk Grove, Ill. They share their home with a black and white cat named Stach. *The Food Lover's Guide to Paris* Patricia Wells, 2014-03-11 The book that cracks the
