Punishment And Privilege:

Punishment and Privilege W. Byron Groves, Graeme R. Newman, 1986 How much should people be punished Is an egalitarian distribution of punishment possible or even desirable Corporate criminals be punished more severely Should disasters caused by corporations be treated as violent crimes and the executives punished accordingly Sound modern This collection of essays written in the 1990s is even more relevant in the 21st century Edited with a new and provocative introduction by leading authority on criminal punishment Graeme R Newman Distinguished Professor Emeritus University at Albany

Privilege and Punishment Matthew Clair, 2020-11-17 How the attorney client relationship favors the privileged in criminal court and denies justice to the poor and to working class people of color The number of Americans arrested brought to court and incarcerated has skyrocketed in recent decades Criminal defendants come from all races and economic walks of life but they experience punishment in vastly different ways Privilege and Punishment examines how racial and class inequalities are embedded in the attorney client relationship providing a devastating portrait of inequality and injustice within and beyond the criminal courts Matthew Clair conducted extensive fieldwork in the Boston court system attending criminal hearings and interviewing defendants lawyers judges police officers and probation officers In this eye opening book he uncovers how privilege and inequality play out in criminal court interactions When disadvantaged defendants try to learn their legal rights and advocate for themselves lawyers and judges often silence coerce and punish them Privileged defendants who are more likely to trust their defense attorneys delegate authority to their lawyers defer to judges and are rewarded for their compliance Clair shows how attempts to exercise legal rights often backfire on the poor and on working class people of color and how effective legal representation alone is no guarantee of justice Superbly written and powerfully argued Privilege and Punishment draws needed attention to the injustices that are perpetuated by the attorney client relationship in today s criminal courts and describes the reforms needed to correct them

Punishment and Privilege Graeme Newman, 2018-06-07 How much should people be punished Is an egalitarian distribution of punishment possible or even desirable Should white collar and corporate criminals be punished more severely Should disasters caused by corporations be treated as crimes and the executives punished accordingly Sound modern This collection of essays written in the 1990s by eminent sociologists philosophers and political scientists is even more relevant in the 21st century Edited with a new and provocative introduction by leading authority on criminal punishment Graeme Newman

Privilege or Punish Dan Markel, Jennifer M Collins, Ethan J Leib, 2009-04-20 This book exposes the various challenges the American criminal justice system faces when it intersects with the interests of the family The authors characterize the many state policies that promote family interests as family ties benefits The authors generally oppose conferring family ties benefits in the criminal justice system and argue that there are many circumstances when there are serious costs to the justice system when it gives special benefits to family members

Noble Privilege M. L. Bush, 1983

Punishment and Privilege Anthony J. Grasso, 2018 As the

global leader in incarceration America locks up its own citizens at a rate that dwarfs that of any other developed nation Yet while racial minorities and the urban poor fill American prisons and jails for street crimes the state has historically struggled to consistently prosecute corporate crime Why does the American state lock people up for street crimes at extraordinary rates but demonstrate such a limited capacity to prosecute corporate crime While most scholarship analyzes these questions separately juxtaposing these phenomena illuminates how the carceral state s divergent treatments of street crime and corporate crime share common and self reinforcing ideological and institutional origins Analyzing intellectual history policy debates and institutional change relating to the politics of street crime and corporate crime from 1870 through today demonstrates how the class biases of contemporary crime policy emerged and took root during multiple junctures in U S history including the Gilded Age Progressive Era New Deal and post war period This reveals that political constructions of street criminals as pathological deviants and corporate criminals as honorable people driven to crime by market dynamics have consistently been rooted in common ideas about what causes and constitutes crime By the 1960s these developments embedded class inequalities into the criminal justice institutions that facilitated the carceral state s rise while the regulatory state became the government s primary means of controlling corporate crime The historical development of mass incarceration the corporate criminal law and regulatory state should not be viewed as autonomous developmental threads but as processes that have overlapped and intersected in ways that have reinforced politically constructed understandings about what counts as crime and who counts as a criminal
