Purifying America Women Cultural Reform And Pro Censorship Activism 1873 1933:

Purifying America Alison M. Parker, Parker, 1997-06-30 *Purifying America* Alison Marie Parker, 1997 Debates over censorship often become debates over the influence of culture on society's morals and the perceived need to protect women and children *Purifying America* explores the widespread middle class advocacy of censorship as a popular reform around the turn of the century and provides a historical perspective on contemporary debates over censorship morality and pornography that continue to divide women

Movies on a Mission Glenn Reynolds, 2023-09-28 This investigation into the little known genre of mission oriented films uncovers how Protestant missionaries overseas sought to bring back motion picture footage from remote parts of the world In the broader religious community mission films aimed to educate congregants back home about efforts to evangelize communities around the world This book however demonstrates the larger impact of mission films on American visual culture The evolution and development of the genre is highlighted from an early emphasis on foreign views in the 1910s to interwar films providing a more detailed look at how mission stations functioned in far flung lands to Cold War productions which at times functioned as veritable propaganda tools parroting anti communist discourse emanating from the CIA

Sentiments of a British-American Woman Owen S. Ireland, 2017-12-14 At the time of her death in 1780 British born Esther DeBerdt Reed a name few know today was one of the most politically important women in Revolutionary America Her treatise *The Sentiments of an American Woman* articulated the aspirations of female patriots and the Ladies Association of Philadelphia which she founded taught generations of women how to translate their political responsibilities into action DeBerdt Reed's social connections and political sophistication helped transform her husband Joseph Reed from a military leader into the president of the Supreme Executive Council of Pennsylvania a position analogous to the modern office of governor DeBerdt Reed's life yields remarkable insight into the scope of women's political influence in an age ruled by the strict social norms structured by religion and motherhood The story of her courtship marriage and political career sheds light both on the private and political lives of women during the Revolution and on how society religion and gender interacted as a new nation struggled to build its own identity Engaging comprehensive and built on primary source material that allows DeBerdt Reed's own voice to shine Owen Ireland's expertly researched biography rightly places her in a prominent position in the pantheon of our founders both female and male

Governing Morals Alan Hunt, 1999-08-13 This evocative and broad ranging book traces the history of moral regulation in Britain and the US from the late seventeenth century to the present day Specific coverage is given to movements such as the Society for the Reformation of Manners and the Vice Society the sexual abuse and anti pornography movements and contemporary self help movements Hunt argues that the main impetus for moral regulations often stems from the middle classes rather than those with institutional power but most significantly they provide classic instances of the intimate link between the governance of others and the governance of the self Using the work of Foucault this book analyses how projects of self regulation can manifest

themselves into the regulation of others Concurrent with this is the rise of health discourses which play a central role in contemporary discussions of moral governance

No Votes for Women Susan Goodier, 2012-03-15 *No Votes for Women* explores the complicated history of the suffrage movement in New York State by delving into the stories of women who opposed the expansion of voting rights to women Susan Goodier finds that conservative women who fought against suffrage encouraged women to retain their distinctive feminine identities as protectors of their homes and families a role they felt was threatened by the imposition of masculine political responsibilities She details the victories and defeats on both sides of the movement from its start in the 1890s to its end in the 1930s acknowledging the powerful activism of this often overlooked and misunderstood political force in the history of women's equality

We Are What We Sell Danielle Sarver Coombs, Bob Batchelor, 2014-01-15 For the last 150 years advertising has created a consumer culture in the United States shaping every facet of American life from what we eat and drink to the clothes we wear and the cars we drive In the United States advertising has carved out an essential place in American culture and advertising messages undoubtedly play a significant role in determining how people interpret the world around them This three volume set examines the myriad ways that advertising has influenced many aspects of 20th century American society such as popular culture politics and the economy Advertising not only played a critical role in selling goods to an eager public but it also served to establish the now world renowned consumer culture of our country and fuel the notion of the American dream The collection spotlights the most important advertising campaigns brands and companies in American history from the late 1800s to modern day Each fact driven essay provides insight and in depth analysis that general readers will find fascinating as well as historical details and contextual nuance students and researchers will greatly appreciate These volumes demonstrate why advertising is absolutely necessary not only for companies behind the messaging but also in defining what it means to be an American

Breadwinners Lara Vapnek, 2024-03-18 Lara Vapnek tells the story of American labor feminism from the end of the Civil War through the winning of woman suffrage During this period working women in the nation's industrializing cities launched a series of campaigns to gain economic equality and political power This book shows how working women pursued equality by claiming new identities as citizens and as breadwinners Analyzing disjunctions between middle class and working class women's ideas of independence Vapnek highlights the agendas for change advanced by leaders such as Jennie Collins Leonora O'Reilly and Helen Campbell and organizations such as the National Consumers League the Women's Educational and Industrial Union and the Women's Trade Union League Locating households as important sites of class conflict *Breadwinners* recovers the class and gender politics behind the marginalization of domestic workers from labor reform while documenting the ways in which working class women raised their voices on their own behalf

Sex and the Civil War Judith Giesberg, 2017-02-07 Civil War soldiers enjoyed unprecedented access to obscene materials of all sorts including mass produced erotic fiction cartes de visite playing cards and stereographs A perfect storm of antebellum legal technological and

commercial developments coupled with the concentration of men fed into armies created a demand for and a deluge of pornography in the military camps Illicit materials entered in haversacks through the mail or from sutlers soldiers found pornography discarded on the ground and civilians discovered it in abandoned camps Though few examples survived the war these materials raised sharp concerns among reformers and lawmakers who launched campaigns to combat it By the war s end a victorious resurgent American nation state sought to assert its moral authority by redefining human relations of the most intimate sort including the regulation of sex and reproduction most evident in the Comstock laws a federal law and a series of state measures outlawing pornography contraception and abortion With this book Judith Giesberg has written the first serious study of the erotica and pornography that nineteenth century American soldiers read and shared and links them to the postwar reaction to pornography and to debates about the future of sex and marriage

Leaders of Their Race Sarah H. Case, 2017-08-30 Secondary level female education played a foundational role in reshaping women s identity in the New South Sarah H Case examines the transformative processes involved at two Georgia schools one in Atlanta for African American girls and young women the other in Athens and attended by young white women with elite backgrounds Focusing on the period between 1880 and 1925 Case s analysis shows how race gender sexuality and region worked within these institutions to shape education Her comparative approach shines a particular light on how female education embodied the complex ways racial and gender identity functioned at the time As she shows the schools cultivated modesty and self restraint to protect the students Indeed concerns about female sexuality and respectability united the schools despite their different student populations Case also follows the lives of the women as adult teachers alumnae and activists who drew on their education to negotiate the New South s economic and social upheavals
