Purity Of Blood:

Race and Blood in the Iberian World María Elena Martínez, David Nirenberg, Max-Sebastián Hering Torres, 2012 Racism Analysis is a research series by LIT Verlag that explores racial discrimination in all its varying historical ideological and cultural patterns It examines the invention of race as well as the dimensions of modern racism and it inquires into racism avant la lettre *Race and Blood in the Iberian World* is the third volume in the Race Analysis series This collection offers an historical approach to the topics of race and blood in the Spanish Atlantic world with extended comparative glances toward other Iberian imperial contexts Portuguese India and periods the modern The contributions include a proposition to analyze processes of racialization in plural before the modern period the question of whether it is analytically appropriate to apply the concept of race to early modern Spanish and Spanish American contexts the intricate dynamics of race and blood in Iberian discourses of otherness an analysis of the discourse of limpieza de sangre in relation to Spain's Muslims and moriscos in New Granada the meanings of the Spanish notions of race and its relationships with gender in colonial Mexico the meaning of casta raza and limpieza de sangre in Goa the place of Gypsies indigenous people and blacks within discourses of citizenship and nativeness a discussion about how to transform colonial subjects into citizens an exploration of the works of two scientists of the inter war period whose research in different ways contributed to what is called blood science Series Racism Analysis Series B Yearbooks Vol 3 *Blood and Kinship* Christopher H. Johnson, Bernhard Jussen, David Warren Sabean, Simon Teuscher, 2013-01-01 The word blood awakens ancient ideas but we know little about its historical representation in Western cultures Anthropologists have customarily studied how societies think about the bodily substances that unite them and the contributors to this volume develop those questions in new directions Taking a radically historical perspective that complements traditional cultural analyses they demonstrate how blood and kinship have constantly been reconfigured in European culture This volume challenges the idea that blood can be understood as a stable entity and shows how concepts of blood and kinship moved in both parallel and divergent directions over the course of European history

Chang, 2022-08-31 In the late nineteenth century Spain's most prominent writers Juan Valera Leopoldo Alas and Benito Pérez Galdós made blood a crucial feature of their fiction *Blood Novels* examines the cultural and literary significance of blood unsettling the dominant assumption of the period that blood no longer played a decisive role in social hierarchies By examining fictional works through the rubric of blood novels Julia H Chang identifies a shared fascination with blood that probes the limits of realism through blood's dual nature of matter and metaphor Situating the literature within broader cultural and theoretical debates *Blood Novels* attends to the aesthetic contours of material blood and in particular how bleeding is inflected by gender caste and race Critically engaging with feminist theory theories of race and whiteness

literary criticism and medical literature this innovative study makes a case for treating blood as a critical analytic tool that not only sheds new light on Spanish realism but more broadly challenges our understanding of gendered and racialized embodiment in Spain

Leviticus S. Tamar Kamionkowski, 2022-11-28 The book of Leviticus provides two different theologies related to God's presence within ancient Israel Leviticus 1-16 was written by an elite caste of priests P and Leviticus 17-26 H was added to the book to democratize access to God While the Priestly work has hardly inspired lay readers the Holiness Writings provide some of the most inspiring and well known verses from the Bible This volume shows how gender dynamics shift between the static worldview of P and the dynamic approach of H and that ironically as holiness expands from the priests to the people from the temple to the land of Israel gender behaviors become more highly regulated This complicates associations between power and gender dynamics and opens the door to questions about the relationships between power gender and theological perspectives

Between Dung and Blood Manuela Ceballos, 2025 Between Dung and Blood investigates the stories of two sixteenth century saints the Spanish Christian Teresa de Jesus and the Moroccan Sufi Sidi Ridwan al Januw both from families of converts Through the stories of these saints Manuela Ceballos reveals the roles played by blood and bodily pollution as substances and symbols in the religious and political fabric of the early modern Western Mediterranean Drawing primarily on Arabic and Spanish sources the author argues that in Morocco and Iberia ideas about blood and bodily pollution helped shape processes of bodily differentiation as well as social hierarchies based on notions of ritual purity and impurity Providing an inside look at the dynamics within Moroccan and Iberian societies as they grappled with the social and religious upheaval of the fifteenth and sixteenth centuries Ceballos shows that the real and imagined border between geographies and religious traditions could at times be porous and conducive to shared beliefs
