Lectures on Kant's Political Philosophy Hannah Arendt, 2014-12-10 Hannah Arendt's last philosophical work was an intended three part project entitled The Life of the Mind Unfortunately Arendt lived to complete only the first two parts Thinking and Willing Of the third Judging only the title page with epigraphs from Cato and Goethe was found after her death As the titles suggest Arendt conceived of her work as roughly parallel to the three Critiques of Immanuel Kant In fact while she began work on The Life of the Mind Arendt lectured on Kant's Political Philosophy using the Critique of Judgment as her main text The present volume brings Arendt's notes for these lectures together with other of her texts on the topic of judging and provides important clues to the likely direction of Arendt's thinking in this area

Matthew POLLOCK,1859 Ten Lectures on Figurative Meaning-Making: The Role of Body and Context Zóltan Kövecses,2019-09-16 The present book contains a transcribed version of the lectures given by Professor Zoltan Kövecses in November 2010 as one of the three forum speakers for the 8th China International Forum on Cognitive Linguistics The topics presented in this book deal with the language and conceptualization of emotions cross cultural variation in metaphor metaphor and metonymy in discourse and the issue of the relationship between language mind and culture from a cognitive linguistic perspective *Introductory Lectures on Modern History, Delivered in Lent Term, MDCCCXLII.* Thomas Arnold,1847 Introductory Lectures on Modern History Thomas Arnold,1885 **Paths and Goals of the Spiritual Human Being** Rudolf Steiner,2015-08-19 Speaking to audiences in Denmark Germany and France Rudolf Steiner discusses a wide range of topics from positive and negative human soul capacities true self knowledge and karma to changes in human consciousness from ancient times to the modern era all in the context of the incarnation of Christ on earth The lectures illustrate the diversity of Steiner's approach when speaking to different audiences Reflecting on the polymath Novalis for example he is urgent about the responsibility of spiritual science to help humanity awaken to the new age A few months later talking of Hegel and deploring the fact that an interest in spiritual matters often fails to be accompanied by an equal interest in logical thought Steiner uses a dispassionate philosophical tone But throughout the lectures he is consistent in his view that spiritual science does not reject conventional science Trained philosophical thinking leads to different conclusions than materialism he says but there is nothing in the field of spiritual science that need be rejected by rigorous scientific thought Although the lectures were given to a variety of audiences ideas recur from different perspectives and in different contexts with strong thematic links binding them together These include the relationship between philosophy and science the nature of clairvoyance Christ's presence in the etheric realm reincarnation and karma the mystery drama The Portal of Initiation Christmas and its symbols and the transformation of consciousness that occurred when Christ incarnated physically on earth In the final lectures Rudolf Steiner speaks inspiringly about the Christmas festival contrasting the feeling of inwardness that people used to experience with the hectic cultural environment of modern cities However this does not lead Steiner to be nostalgic about the past Rather he states we should seek to recreate a mood of inwardness in a new way appropriate to our modern age and consciousness These lectures give us the tools to bring such a contemporary spiritual approach to our lives
