Serbia The History Of An Idea:

Serbia Stevan K. Pavlowitch, 2002-03 At the time of Serbia's emergence from the ruins of Tito's Yugoslavia and of Milosevic's regime Stevan Pavlowitch shuns the doomed to violence and the doomed to martyrdom paradigms favored respectively by some Western and Serbian analysts in order to pose difficult questions about Serbian history **The History of the Idea of Europe** Jan van der Dussen, Kevin Wilson, 2005-09-26 First published in 1995 Routledge is an imprint of Taylor Francis an informa company *New Perspectives on Yugoslavia* Dejan Djokić, James Ker-Lindsay, 2010-10-04 Nearly twenty years after it ceased to exist as a multinational federation Yugoslavia still has the power to provoke controversy and debate Bringing together contributions from twelve of the leading scholars of modern and contemporary South East Europe this volume explores the history of Yugoslavia from creation to dissolution Drawing on the very latest historical research this book explains how the country came about how it evolved and why eventually it failed From the start of the twentieth century through the First World War the interwar years and the Second World War to the road to socialism under President Tito and the wars of Yugoslav succession in the 1990s this volume provides up to date analysis of the causes and consequences of a range of events that shaped the development of this remarkable state across its various iterations The book concludes by examining post conflict relations in the era of European integration Traversing ninety years of history this volume presents a fascinating story of how a country that once served as the model for multiethnic states around the world has now become a byword for ethno national fragmentation and conflict Contributors include Dejan Djoki James Ker Lindsay Connie Robinson Mark Cornwall John Paul Newman Tomislav Duli Stevan K Pavlowitch Dejan Jovi Neboja Vladislavljevi Florian Bieber Jasna Dragovi Soso and Eric Gordy **The Modern Idea of History and its Value** Chiel Akker, 2025-10-01 This is an original and accessible introduction to the modern idea of history and its value and an indispensable companion to the study of history and its philosophical underpinnings The book answers two basic questions What is history And what is its value It also shows how the answers to these questions are mutually dependent The old view that history is the teacher of life for instance assumes that the past is a reservoir of examples from which moral lessons for the present can be drawn The subjects discussed include history as the teacher of life the need for truth and objectivity the moral standards of the historian realism and the value of historical insight historical explanation and understanding the intelligibility of the historical process the tragedy of history the politics of history writing and the close connection between history narrative and the desire for justice These topics are discussed with the help of inspiring and influential historians and philosophers such as Thucydides Ranke Hegel Nietzsche Collingwood Arendt White Hunt and Ankersmit **Revolutionary Movements in World History** James DeFronzo, 2006-07-20 This groundbreaking three volume encyclopedia is the first to focus exclusively on the revolutionary movements that have changed the course of history from the American and French Revolutions to the present ABC CLIO is proud to present an encyclopedia that reaches around the globe to explore the most momentous and impactful

masterpiece back to life The Ideas which engages with many of the leading thinkers of the eighteenth century such as Montesquieu Kant Gibbon Ferguson Buffon and Rousseau is many things at once an inquiry into the unity and purpose of history a reflection on human nature and the place of humans in the cosmic order an examination of what was beginning to be called culture and a narrative of cultural progress across time among different peoples Along the way Herder considers a dizzying variety of topics including the formation of the earth and solar system species change race the immortality of the soul the establishment of society and the pursuit of happiness Above all the Ideas is an anthropology what Alexander Pope had termed an essay on man pervaded by an appropriately humane spirit A fresh and much needed modern translation of the complete Ideas this volume reintroduces English readers to a classic of Enlightenment thought **History of Political**

Ideas Eric Voegelin, 1998 Annotation Examining the emergence of modernity within the philosophical and political debates of the sixteenth century Religion and the Rise of Modernity resumes the analysis of the great confusion introduced in Volume IV of History of Political Ideas Encompassing a vast range of events ignited by Luther's Ninety Five Theses this period is one of controversy revolution and partiality Despite the era's fragmentation and complexity Voegelin's insightful analysis clarifies its significance and suggests the lines of change converging at a point in the future the medieval Christian understanding of a divinely created closed cosmos was being replaced by a distinctly modern form of human consciousness that posits man as the proper origin of meaning in the universe Analyzing the most significant features of the great confusion Voegelin examines a vast range of thought and issues of the age From the more obvious thinkers to those less frequently studied this volume features such figures as Calvin Althusius Hooker Bracciolini Savonarola Copernicus Tycho de Brahe and Giordano Bruno Devoting a considerable amount of attention to Jean Bodin Voegelin presents him as a prophet of a new true religion amid the civilizational disorder of the post Christian era Focusing on such traditional themes as monarchy just war theory and the philosophy of law this volume also investigates issues within astrology cosmology and mathematics Religion and the Rise of Modernity is a valuable work of scholarship not only because of its treatment of individual thinkers and doctrines influential in the sixteenth century and beyond but also because of its close examination of those experiences that formed the modern outlook *A Short History of the Yugoslav Peoples* Frederick Bernard Singleton, 1985-03-21 This book provides a survey of the history of the South Slav peoples who came together at the end of the First World War to form the first Yugoslav kingdom

New Political Ideas in the Aftermath of the Great War Alessandro Salvador, Anders G. Kjøstvedt, 2016-11-10 This edited collection presents new research on how the Great War and its aftermath shaped political thought in the interwar period across Europe Assessing the major players of the war as well as more peripheral cases the contributors challenge previous interpretations of the relationship between veterans and fascism and provide new perspectives on how veterans tried to promote a new political and social order Those who had frontline experience of the First World War committed themselves to constructing a new political and social order in war torn Europe shaped by their experience of the war and its aftermath A

number of them gave voice to the need for a world order free from political and social conflict and all over Europe veterans imagined a third way between capitalist liberalism and state controlled socialism By doing so many of them moved towards emerging fascist movements and became in some case unwillingly the heralds of totalitarian dictatorships

Frederick Starr, Karen Dawisha, 2016-09-16 First Published in 1995 This ambitious ten volume series develops a comprehensive analysis of the evolving world role of the post Soviet successor states Each volume considers a different factor influencing the relationship between internal politics and international relations in Russia and in the western and southern tiers of newly independent states The contributors were chosen not only for their recognized expertise but also to ensure a stimulating diversity of perspectives and a dynamic mix of approaches This is Volume I and covers The Legacy of History in Russia and the New States of Eurasia

The Legacy of History in Russia and the New States of Eurasia Vladimir Shlapentokh, 2001 Shlapentokh undertakes a dispassionate analysis of the ordinary functioning of the Soviet system from Stalin's death through the Soviet collapse and Russia's first post communist decade Without overlooking its repressive character he treats the USSR as a normal system that employed both socialist and nationalist ideologies for the purposes of technological and military modernization preservation of empire and expansion of its geopolitical power Foregoing the projection of Western norms and assumptions he seeks to achieve a clearer understanding of a civilization that has perplexed its critics and its champions alike

Narratives of Justice In and Out of the Courtroom Dubravka Zarkov, Marlies Glasius, 2014-04-14 This volume considers the dynamic relations between the contemporary practices of international criminal tribunals and the ways in which competing histories politics and discourses are re imagined and re constructed in the former Yugoslavia and beyond There are two innovative aspects of the book one is the focus on narratives of justice and their production another is in its comparative perspective While legal scholars have tended to analyze transitional justice and the international war tribunals in terms of their success or failure in establishing the facts of war crimes this volume goes beyond mere facts and investigates how the courts create a symbolic space within which competing narratives of crimes perpetrators and victims are produced circulated and contested It analyzes how international criminal law and the courts gather and in turn produce knowledge about societies in war their histories and identities and their relations to the wider world Moreover the volume situates narratives of transitional justice in former Yugoslavia both within specific national spaces such as Serbia and Bosnia and beyond the Yugoslav In this way it also considers experiences from other countries and other times post World War II to offer a sounding board for re thinking the meanings of transitional justice and institutions within former Yugoslavia Included in the volume s coverage is a look at the Rwandan tribunals the trials of Charles Taylor Radovan Karadzic the Srebrenica genocide and other war crimes and criminals in the Yugoslav Finally it frames all of those narratives and experiences within the global dynamics of legal social and geo political transformations making it an excellent resource for social science researchers human rights activists those interested in the former Yugoslavia and international relations and legal scholars
