### **One Small Blue Bead:**

One Small Blue Bead Byrd Baylor, 2014-07-08 A band of men sat huddled in a cave Where coals of fire glowed warm and red Boy lay curled on a bed of leaves But he sat up when an old man said This thought keeps spinning in my head There must be caves just like our own Somewhere And other axes made of stone Somewhere And other men like me Though only Boy shares his dream the old man leaves the tribe to search for what the world may hold Boy does the old man's work in his absence and watches hopefully for his return For any good thing Can happen when The world is full of Tribes of men Who know that they have brothers First published in 1965 and long out of print Byrd Baylor's powerful story is newly illustrated with Ronald Himler's vigorous yet tender pictures One Small Blue Bead Byrd Baylor Schweitzer, 1999 *One small blue bead* Byrd Baylor, Byrd Baylor Schweitzer, 1965 A boy makes it possible for an old man in their primitive tribe to go in search of other men in far off places **One Small Blue Bead. **The Roman Cemetery at Lankhills** Giles Clarke, 2021-12-16 This book considers the cemetery uncovered outside the north gate of Venta Belgarum Roman Winchester and analyses in detail both the graves and their contents There are detailed studies and important reassessments of many categories of object but it is the information about late Roman burial religion and society which is of special interest **Gudme** Palle Østergaard Sørensen, 2022-09-15 Gudme The Iron Age Settlement and Central Halls presents describes and interprets the many finds and structures that have been comprised during the extended excavations at the central parts of the Gudme locality on southeast Funen Denmark Head of excavation Palle stergaard S rensen extracts combines classifies dates and temporalizes the many finds and houses from the excavations Gudmehallerne Gudme III Gudme IV Since the 19th century the Gudme area has been known as one of the richest prehistoric localities in Scandinavia and more than 1 000 roman coins close to 600 fibulas as well as several small mask and animal figurines form part of the Gudme find assemblage From AD 200 to AD 600 the site expanded rapidly and covered as much as one square kilometer comprising up to 50 farmsteads At the individual farms specialized craftsmanship can be found and the debris and tools of gold and silversmiths as well as bronze casting is abundant here bronze fragments often from statues imported from the Roman Empire form a distinct category of finds bearing witness to a flourishing and innovative world of craftsmanship as well as an extensive trade network During this period the unique and monumental halls with the largest being 47 m long and 10 m wide dominated the hilltops east of Gudme lake Just to the south a smaller building accompanied the large hall and had been purposely demolished and rebuilt several times at the exact same spot The unusually large entrances to the two adjoined buildings lead straight from one to the other thus witnessing a duality of buildings that came to define the aristocratic localities throughout Scandinavia in the following 800 years Hence Gudme represents a starting point for a significant type of architectural ideal as well as a first generation of central places *Godey's Lady's Book* , 1858

**Espíritu Santo de Zúñiga** Tamra Lynn Walter, 2007-04-01 In the early part of the eighteenth century the Spanish

colonial mission Espiritu Santo de Ziga was relocated from far south Texas to a site along the Guadalupe River in Mission Valley Victoria County This mission along with a handful of others in south Texas was established by the Spaniards in an effort to Christianize and civilize the local Native American tribes in the hopes that they would become loyal Spanish citizens who would protect this new frontier from foreign incursions With written historical records scarce for Espiritu Santo Tamra Walter relies heavily on material culture recovered at this site through a series of recent archaeological investigations to present a compelling portrait of the Franciscan mission system By examining findings from the entire mission site including the compound irrigation system quarry and kiln she focuses on questions that are rarely if ever answered through historical records alone What was daily life at the mission like What effect did the mission routine have on the traditional lifeways of the mission Indians How were both the Indians and the colonizers changed by their frontier experiences and what does this say about the missionization process Walter goes beyond simple descriptions of artifacts and mission architecture to address the role these elements played in the lives of the mission residents demonstrating how archaeology is able to address issues that are not typically addressed by historians In doing so she presents an accurate portrait of life in South Texas at this time This study of Mission Espiritu Santo will serve as a model for research at similar early colonial sites in Texas and elsewhere
